1) One circular object, fuzzy on end with a bluish light on the front and a red blinking light from the middle. A roaring noise - whooshing sound - was noted. Object was seen visually for one minute.
2) High pitched hum, one white obj, one red round object, size of half dollar. Red one appeared first, slowly stopped, then white one came up and both flew away together. Duration not reported.

11. COMMENTS

Concur w/rpting officer that sighting probably caused by a/c. Description of lights and presence of sound support this hypothesis.
