UNCLASSIFIED

Incident #198 -- Wakkanai, Japan -- 6 November 1948

This incident has no astronomical explanation.

The object has been independently identified from radar information as a Soviet aircraft.

UNCLASSIFIED

6 Nov 48

No. 198. No visual observation; radar blip moving at high speed and constantly changing direction. If radar report is accurate, couldn't possibly be a balloon.

SUBJECT: Unidentified Flying Objects

TO : Commanding General
Air Materiel Command
Wright-Patterson Air Force Base
Dayton, Ohio
ATTN: MCIAXO-3

1. Reference is made to letter from your headquarters, MCIAXS, dated 9 March 1949, subject "Unidentified Flying Objects," and first indorsement thereto by this headquarters, dated 31 March 1949.

2. The incident summaries 173 through 233 have been checked against routine weather-balloon ascents made by the Air Force, Navy and Weather Bureau. Comments based on this review are inclosed.

3. It is recommended that the "Guide To Investigation Of Unidentified Aerial Objects" be changed as follows: Item 13, "Direction of Flight of Object," should be clarified so that vertical and horizontal motions are distinguished if possible, and so that motion is specified as the direction towards which the object appears to move. "Relative to Radar Settings" should include a statement of the type of radar set used.

FOR THE CHIEF, AIR WEATHER SERVICE

/s/ W. A. West
W. A. WEST
Lt. Col., USAF
Adjutant General

2 Incls:
1 - Incident Summaries
2 - Comments 173 thru 233

7-3712-12

Target appeared in ground clutter area during entire period of observation. Target was not observed in station area, and was not observed visually at any time. At times the target appeared as 2 aircraft and at another time as a single aircraft. Gave impression of 2 fighter craft dog-fighting. Evaluated as Soviet aircraft conducting electronic reconneissance mission. Thought to be a Soviet "Ferret" sine the object was computed to have held a speed of 240 MPH and since the size of blip on radarscope was normal for an aircraft. The unidentified aircraft circled (20 mile radius) continuously for one hour and five minutes immediately above radar site installed at Wakkanai. No authorized aircraft was in the vicinity. Weather conditions precluded visual observation.

INCIDENT SUMMARY SHEET

Incident No. 198

1. Date and Time of Observation: 6 Nov 1948 1157 hrs

2. Where Sighted: Immediately above Radar Site at Wakkanai, Japan

3. Observer's Position: Ground - operating radarscope
(i. e., ground, air, control tower, etc.)

4. Name and Address of Observer: N/S

5. Occupation and/or hobbies: Radarscope operator

6. Attention Attracted by: blip on the radarscope

7. Number of Object(s) Seen: Target at first appeared as single craft and at times as 2 aircraft

8. Size of Object(s): normal for aircraft on radarscope

9. Color of Object(s): N/S (Object was not observed visually at any time)

10. Shape (Sketch if Possible) N/S

11. Nature of Luminosity: N/S
(directed beam of light?)

12. Altitude of Object: Unknown
(estimated)

13. Estimated Distance of Object from Observer: Could not be estimated

14. Estimated Speed of Object: Varying - from 160 miles to 240 miles per hour

15. Time in Sight: Circled radar site continuously for one hour and 5 minutes

16. Tactics: Target at times gave impression of 2 fighter aircraft dog-fighting. Continuously changed course.

17. Sound Made by Object(s):

18. Direction of Flight of Object(s) Circling

19. Apparent Construction: N/S

20. Effect on Clouds: N/S

21. Exhaust Trail (Color of): N/S

22. Manner of Disappearance: N/S

23. Weather Conditions at Time of Sighting: Low & high cloud formation forming very dense overcast of unknown height.

24. Peculiarities Noted: Blip at times appeared single and at times gave appearance of 2 aircraft in vicinity

25. Summary of Incident: (over)

(See attached page)

Identified as Soviet Aircraft over Wakkanai.

AMC Form No. 10-3 (Rev 29 Jul 47)

ROUTING AND RE_OI) SHEET — AIR M TERIEL COMMAND

Use this form for inter-office correspondence within headquarters.

Number all comments consecutively.

Use entire width of sheet, both sides.

Use authorized office symbol to designate addressor and addressee.

Note warning signal at lower left of form. Remaining space is sufficient only for proper spacing of typewritten signature.

Place initials of dictator and typist, telephone number and location to right of signature.

Separate comments by horizontal lines across page.

SUBJECT Re Wakkanai Sighting

TO MCIAXF
Attn: Mr. Claus

FROM MCIAXD-3

DATE 11-15-48

COMMENT NO. 1.

1. Reference is made to TWX from Commanding General, Far Eastern Air Force, 8 November 1948. See attached inclosure.

2. It is requested that the reporting agency be contacted through the most expeditious channels to obtain the following additional information:

a. At first radar reading of target aircraft, what was its altitude, azimuth, speed and heading?

b. Did readings vary as target approached station - were radar evasion tactics employed?

c. Size of blip on scope in comparison to that of known aircraft.

d. Did target enter station ground clutter area?

e. After leaving station ground clutter area was target again observed? What was altitude, azimuth, speed and heading of target while departing, and at what range was target lost?

f. Was aircraft observed visually or heard at any time? If so, what were details, (configurations) of aircraft.

g. Teletype sequences of local weather and winds aloft report at time of radar detection.

h. List of known aircraft or testing devices aloft in the vicinity at the time. Check of all local military installations.

i. Any further information that may seem helpful in determining type of aircraft, its mission and whether its origin is foreign or domestic.

FOLLOWING INFO RECEIVED FROM FEAF BY TELECON IN RESPONSE TO OUR REQUEST FOR SUBSTANTIATING INFO FOR FEAF CONCLUSION THAT UNIDENTIFIED AIRCRAFT OVER WAKKANAI ON 6 NOVEMBER WAS A SOVIET FERRET CLN QUOTE REASON FOR CONCLUSION UNIDENTIFIED OBJECT OVER WAKKANAI WAS SOVIET AIRCRAFT CONDUCTING ELECTRONIC RECONNAISSANCE. MISSION FOLLOWS:

(1) UNIDENTIFIED OBJECT WAS COMPUTED TO HAVE HELD A SPEED OF 240 MILES PER HOUR, AND, THEREFORE, WAS EVALUATED AS AN AIRCRAFT.

(2) SIZE OF BLIP ON RADAR SCOPE WAS NORMAL FOR AN AIRCRAFT.

(3) WEATHER CONDITIONS PRECLUDED VISUAL OBSERVATION.

(4) NO AUTHORIZED AIRCRAFT WAS IN THE VICINITY.

(5) UNIDENTIFIED AIRCRAFT CIRCLED (20 MILE RADIUS) CONTINUOUSLY FOR ONE HOUR AND FIVE MINUTES IMMEDIATELY ABOVE RADAR SITE INSTALLED AT WAKKANAI.

REQUEST AMC EVALUATION OF FEAF CONCLUSION THAT A/C WAS A SOVIET FERRET PD PLEASE SEE CSAF 3 CMA TT 164 CMA 2 DEC 48 .
