SOURCE: The 1st Lt was immediately interrogated by Security Officer and debriefed. Radio Operator, AIS 200-2, immediately checked with the Storm Interrogation Radio at Venice AFB. They confirmed that the Strange Objects had been sighted. The next morning, SOURCE contacted the Local Meteorologist who said that there was some micrometeorological activity in that area at time of sighting. SOURCE stated that he had sighted a Meteorite approximately 15 minutes after sighting this Strange Object. He also stated that he checked with Venice AFB (Control Tower) at 16/0200Z Oct 57, a B-25 departed Venice AFB South bound, and at 16/0235Z Oct 57, a B-24 departed from Venice AFB Westbound. He also checked with Weather Bureau and the field at any balloons were sighted at time of sighting. With negative answer.

4. INVESTIGATOR'S REMARKS: In the opinion of the Investigating Officer SOURCE was very familiar with Strange Objects, especially as Lt is a Navigator, and it is not very probable that object could have been an aircraft. As there were no other observers, and the object was sighted for only approximately four seconds, the Investigating Officer can advance no theory as to the identity of the object.
