10. BRIEF SUMMARY OF SIGHTING

One round object the size of a basket-ball at arm's length. Appeared as a red light in sky very high above the trees. Object seemed to be standing still & as light faded diminished to size of softball at arm's length. Obj observed visually for 10 minutes & was still in sight at time of rpt.

11. COMMENTS

Positional data not included however, stationary(still in sight), color suggest observation to be Mars which is very prominent at this time.
