10. BRIEF SUMMARY OF SIGHTING

One round orange-red object seen moving from W to NE. Object was in sight for 5 to 10 seconds. Moved in horizontal flight at 70-75 dgr elevation from 270 dgr in west to 25-30 dgr in NE. High speed no exhaust or trail.

11. COMMENTS

Description, duration, flight path indicate that this sighting was probably caused by a meteor.

ATIC Comment:
The description of the object suggests a balloon released in Mexico West of observer. When they are seen at dusk they will look orange, red in color.
The high winds probably carried it into the clouds to the ~~West~~ EAST of observer.
