Hillsboro, Ore.

Dear sirs,

An unidentified flying object heading southeast from northwest was seen at 6:25 a.m this day October 1, 1964. My father and I were on our way from our barn identifying various stars in the clear morning sky when we observed this flying object which appeared to be at an altitude of at least 20,000 feet and at an angle of 50°. The speed appeared to be at least twice that of an F-104 jet
