

Alice Knight*

A: I remember that he saw — one time I went to visit —and I don't remember whether it was before my husband and I married or after, I don't recall the date. But he said that he saw a UFO fall. He was out working in the field and I understood that he was out on the St. Agustin Plains and he went over that way and it fell and he got nearly to the site and there was a group of people on a geological — archeological hunt and they were over there. I don't remember how many people he said.

But they got nearly up to the UFO but it was close enough that you could see some creatures. He said they didn't look like human beings out there.

And along came government cars and trucks...

Q: Now, by government you mean....

A: I guess it was government. You know, as I said it was a long time ago. And someone came along and I understood it, I don't know whether it was army or what. I think he just termed it government trucks and they told him to go on back and forget they ever saw anything, and that's all I recall.
