Project "Blue Book" Information Office
SAFOI
Washington D.C.

Honorable Sirs:

I am eleven years old and am in sixth grade. I guess you could say that I'm an amateur astronomer. I am currently reading a book named, "Letters to the Air Force on UFO's", edited by Bill Adler. It is a book about letters that are in your "Project Blue Book" files.

I'm a believer in "flying saucers" (UFO). I have seen two but the second one was the most astonishing one.

Enclosed is a survey simular to one in your files. The second witness is my sister. The one she describes is the second one that I saw with my father and sister. The others are sightings that my friends made.

The part my sister filled in on the survey says two planes

where in back of it. These planes were not ordinary ones. After careful observation I saw that they were USAF bombers (Note: this was seen in Denville N.J.). I wish you would explain to me why two bombers were sent after it. In most cases you will send out one, shall we say, fighter for each UFO seen. I have now come to the conclusion that the Air Force is more concerned with UFOs than said after reports.

Sincerly yours,

[redacted]

P.S. If you ever get time to send an letter or something back, please don't tell me that bombers just happened to be in the area.
