Washington, D.C.

Dear Sir: Could you send me all the information you could on flying saucers, Sir [redacted] and I have been seeing moving things that look like moving stars. On the Date Oct 2, 1963 Larry goodmen and I were watching the night sky when suddenly a bright star came out of no where moving lot faster then a airplane and it had no sound. We watch it carefully when the object stand going straight up and it disapied.

Thank You

Please rush it back to me as fast as you can

October 10, 1963

Dear [redacted]:

This is in response to your recent letter in which you report that you and [redacted] saw a bright, moving star in the sky on the night of October 2nd.

What you and [redacted] saw was undoubtedly Echo satellite which passed over Concord and Charlotte at approximately 8:04 p.m. on the night of October 2nd. It was south of the city of Charlotte, about 76 degrees above the horizon moving southeast.

For your information, we are sending you both some brochures on the subject of unidentified aerial phenomena which we think may be of interest to you.

Sincerely,

MASTON M. JACKS
Major, USAF
