Gentlemen:

Just for the record, here is another "Kook" report from one of the little people in our country.

My daughter saw an object hovering over the trees in our Frick Woods, about 1,000 feet from the spot where she and her friend were playing. It was dusk, right before our dinner time, and it happened within the past two weeks. The object was the flat round kind, red at the bottom, yellow in the middle and black at the top. It had antennae (?) below and one on the top, also. This is according to her description.

Your use of this note paper helps support the purposes of the American Medical Association Education and Research Foundation.

I am not going into too much more detail, because I understand you people never answer these reports, nor recognize them, except to deny their authenticity. However, just for the record, I am reporting it, and I will be mighty surprised if I hear even a word recognition from this agency (of the people ?).

I have, of course, reported it to NICAP and, for what it is worth, they and you have the information.

Incidentally, my daughter has had sleepless nights because of this and has expressed fear of it and has repeated her story, without contradiction, unprompted, two other times since the original breathless report she gave us that night. She is 8 years old and it can easily be said it is all a figment of her imagination.

Sincerely,

Mrs. [redacted]k

Dear Mr. [redacted]:

This is in reply to your letter in which you forwarded two photographs for analysis.

We are unable to have your photographs analyzed without the original negatives. Should you desire to submit the negative to the Air Force, you will be advised of the results of the analysis.

Sincerely,

1 Atch

Dear Sir

Here is a couple of pictures that was taken in Western Montana about two months ago when these pictures was taken there wasn't any thing visible to the eye but mountains and forest but if you check them there are strange lights and vapor trails to the right of center of these pictures which I think should be checked to see what they might be when finished with please return to
