K. CAPT D.D. DEHOFF, ASST BASE OPS OFFICER, PETERSON FIELD, COLOO. PRELIMINARY ANALYSIS: THIS REPORTED

PAGE 4 RUWMFVA0274 UNCLAS

SIGHTING NOT SUBSTANTIATED BY OTTHER REPORTS OR DATA FROM NORAD COC, SPADATS, FAA CENTER AND CONTROL TOWERS AND LOCAL LAW ENFORCEMENT AGENCIES, HOWEVER NEGATIVE REPORTS FROM THESE AGENCIES PRACTCALLY ELIMINATE POSSIBILITY OF OBJECT BEING AN AIRCRAFT, SATELLITE, DCAYING SATELLITE OR DEBRIS OR UNUSUAL WEATHER PHENOMENA. DESCRIPTION AND RATE OF MOVEMENT DOES NOT FIT A MEETEOR. THE RATE OF MOVEMENT AND CHANGING OF COLOR BEST FITS THE DESCRIPTION OF A VERY BRIGHT STAR. HOWEVER THIS DOES NOT CORRELATE WITH WITNESSES INSISTENCE THAT THEY COULD SEE WINDOWS IN THE OBJECT. THIS PARTICULAR PORTION OF TESTIMONY COULD BE RESULT OF OVERACTIVE IMAGINATION STIMULATED BY WIDE NEWS MEDIA COVERAGE DURING RECENT WEEKS. INVESTIGATING OFFICER PERSONNALLY OBSERVED BRIGHTNESS OF STARS DURING

Colorado Springs Photo

The following photograph appeared in the Colorado Springs Gazette Telegraph on Saturday, August 14, 1965. The photo was taken by Mr. Guy Burgess Jr. The UFO was not visible when the photo was taken. A blueish in the emulsion of the film, the object is on the negative and it is not superimposed, scratched in or double-exposed. The photo was taken on Saturday, August 7, 1965, between 1 and 2 p.m. with a 35MM camera.

J. Allen Hynek
Dearborn Observatory
Northwestern University
Evanston, Illinois, 60201

Dear Mr. Hynek,

I have received your letter and Dr. Sidlisinski telephoned me. He asked me to forward my personal description of the object which I saw on August 8, 1965.

I saw the object between the hours of 7:30 and 8:00 p.m. daylight savings time. I first noticed the object and watched it for approximately fifteen minutes. Then I called the attention of the other girls to it. It was shaped more like an egg instead of a ball. It was white like a star but it had no twinkle or beam. The object was to the right of the moon. It was in Montana on Lincoln Highway near Malta. It appeared to be about [illegible]

object and suddenly ascended
up into the air and over
the mountain.
I live approximately twelve
miles from the mountain.
The object from that distance
was about the size of one
quarter of a full moon.
I hope the information
I have given will
be help to you

Yours very truly,

[redacted]
