Dear Sir
I would like to make a report of a strange sighting made by me and my Brother. We were standing in front of 306 (Building) at about 1:27, it was cool and a little bit windy. my Brother called my attention to it, at first it was coming straight (Looking straight at it) it was about over Saint nicholas Terrace, it had a large light at the left and one about have that size at the ~~[illegible]~~ Right. it turned Right once then turned straight again when it was further away. (until then we thought it was a jet) When it passed us it was no further than block away no higher than ten stories and was coming much too slow to be a helicopter
