PLEASE EXUSE WRITTING
BECAUSE OF HURT HAND

Seud 164

DEAR SIR.

ON FEBUARY 13. 1967 I
OBSERVED A STRANGE ARIAL PHENOMOIA
which OCCURED AT 7'05 PM.
I WAS with MY FREIND Keith
STANDING AND OBSERVING MARS
withB MY TELESCOPE when
Keith looked UP AND SAW
A glowing Egg SHAPED OBJECT
MOVING IN a ELEPITCAL PATH
FROM EAST TO WEST THEN
WOULD DISAPPEAR THEN
REAPEAR. I VEIWED IT IN
MY TELESCOPE which MAGNIFIES
35X 80X/16X 233X 449X - I
FOllowed IT WITH 35X USING
ALTITUDE CONTROl. AND ESTIMATED
THE OBJECT BEING 5-10 THOUSAND
Feet high AND TRAVLING ABOUT
400 M.P.H. When VEIWED WITH
TELESCOPE AT low POWER
I COULD see THAT IT DID
NOT DISAPPEAR AND REAPEAR
BUT WAS FAINT JUST

~~Hoooo~~ & Flying low over
THE HORIZON AISO I COUD
See UNDER low Power A Series
OF lights AND METAI Poles
CONNECTED TO THEM. (I SAY THAT
The Poles where Metalic BeAUSE
OF ReFlection IT GAUE OFF.)
BUT They were I NVISIBIE with
The NAKED EYE.
The OBJECT WAS GRAY ~~Glllll~~
OBJECT AND STAYED IN VEIW
FOR AT IEST 20 MINUTES.
MY OTHER FREIND MIKE OBSERVED
The SAME Thing BUT He
lives AT IEAST TWO MIES
AWAY FROM Me.
MIKE AND I ARE AMATEUR
ASTROMERS AND haue Been
FOR 2 YEAR AND We KNOW
The HeAVNS FAIRLY well.
I CAN SAY FOR SURE It
WAS NOT A BAIION ANY
TYPE OF AIRCRUFT That We
haue COUENTINAI OR EXPERAMENTAI
There WAS NO SOUND NO

III

CHANGING OF LIGHTS TO ANY COLOR.

BALL lighting AND VENUS OR MARS ARE OUTRUED BECAUSE OF MOVEMENT OF OBJECT AND SPEED.

I HAVE NOT ~~MENTIONED~~ SAID IN this letter THAT it SPEED UP AND SHOT AWAY BUT IT DID This GAVE ME A REAL THING TO THINK ABOUT. THE NEXT DAY I TOLD MIKE ABOUT IT AND He SAID Hey SAW THE SAME THING.

FURTHER INFORMATION

1. PARTLY CLOUDY NIGHT
2. A FEW STARS - VENUS - MARS
3. NO MOONLIGHT
4. IT WAS ABOUT THE BRIGHTNESS OF THE FULL MOON
5. OBJECT WAS FUZZY OR BLURED

IV

6 60° - 15° ANGLE IN SKY
7. ONLY ONE OBJECT.

I'AM CONUINCED FOR SURE
NOW FLYING SAUCES DO EXIST.

WE ARE AMATEUR ASTROMERS
IN OUR OWN PROJECT ORITER-
WHICH WHICH OBSERVES ~~CRI~~ AND REPORTS
NEW CRITER'S ON MOON AND
WATCHES ANIY CHANGE IN THEM
OR MOONS SURFACE.
WE AISO HAVE PEOPLE WORKING
ON PROJECT SATTAIITE WHICH
DEAIS WITH ANY THING OIO
OR NEW ORBITING THE EARTH.

WE OUR TRYING TO THINK
OF A EXPIANATION OF THIS
UFO WE SAW BUT COUID
NOT FIND ANY SINCE
IT RUIES OUT AII POSSIBIIITY
OF PIANE'S AIR CRAFT ET.
IF YOU HAVE ANY INFORMATION

U

ORIGIN

ON THE ORIGIN OF This UFO
PLEASE [redacted] LET US HEAR
FROM YOU.
WE ARE DEEPLY CONCERNED
WITH THIS AND ANY INFO.
YOU HAVE TO GIVE US WILL
HELP. AND WE WILL BE
GRATEFUL IF YOU DO THIS
IN LOVE This MYSTERY

VERY SINCERELY

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object? 13 LETTER WORD,

[redacted] FEBUARY 1967
Day Month Year

2. Time of day: 7 245
Hour Minutes

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): (a. Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b. Standard)

4. Where were you when you saw the object?

[redacted] STREET PORT CHESTER NEW YORK
Nearest Postal Address City or Town State or County

5. How long was object in sight? (Total Duration) / _____ _____
Hours Minutes Seconds

a. Certain
b. Fairly certain
(c. Not very sure)
d. Just a guess

5.1 How was time in sight determined? GUESS

5.2 Was object in sight continuously? Yes _____ No V

6. What was the condition of the sky?

DAY
a. Bright
b. Cloudy PARTLY -

NIGHT
a. Bright
(b. Cloudy)

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM
FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (*Circle One*):

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON (*Circle One*):

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (*Circle One*):

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER (*Circle One*):

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: (*Circle One*):

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (*Circle One*):

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object: ABOUT A little ~~Better~~ BRIGHTER THAN MOON

12. The edges of the object were:

(*Circle One*): a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object:

(*Circle One for each question*)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

IT WAS MOVING IN A ELIPTICAL ORBIT THEN SHOT AWAY

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): (Yes) No Don't Know. IF you answered YES, then tell what in front of: I WAS FLYING IN FRONT OF CLOUDS OR UNDER THEM

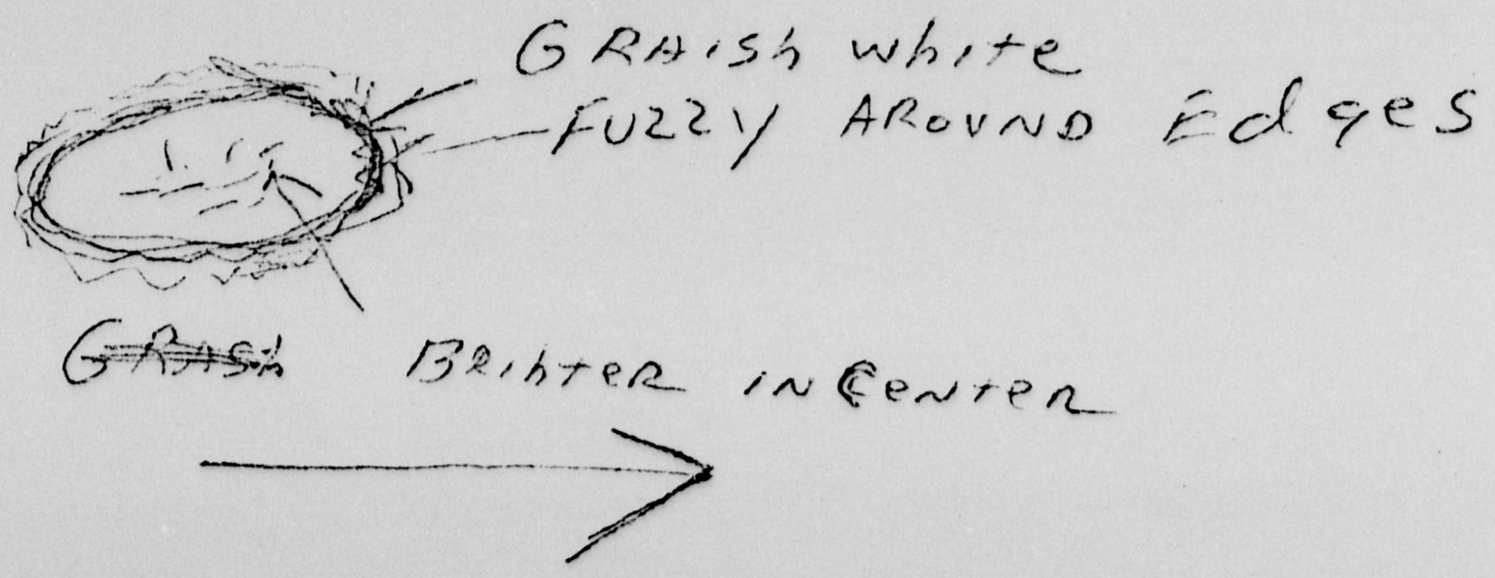
17. Tell in a few words the following things about the object:

a. Sound NO SOUND

b. Color A GRAISH white

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head? IT WHAT TAKE AT LEAST 4-6 MATCH HEADS TO COVER IT

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.



20. Do you think you can estimate the speed of the object?

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? ABOUT 400 MPH

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes ?

IF you answered YES, then how far away would you say it was? ABOUT 1000 - UP TO 5,000

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
c. (Outdoors)
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
b. (In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

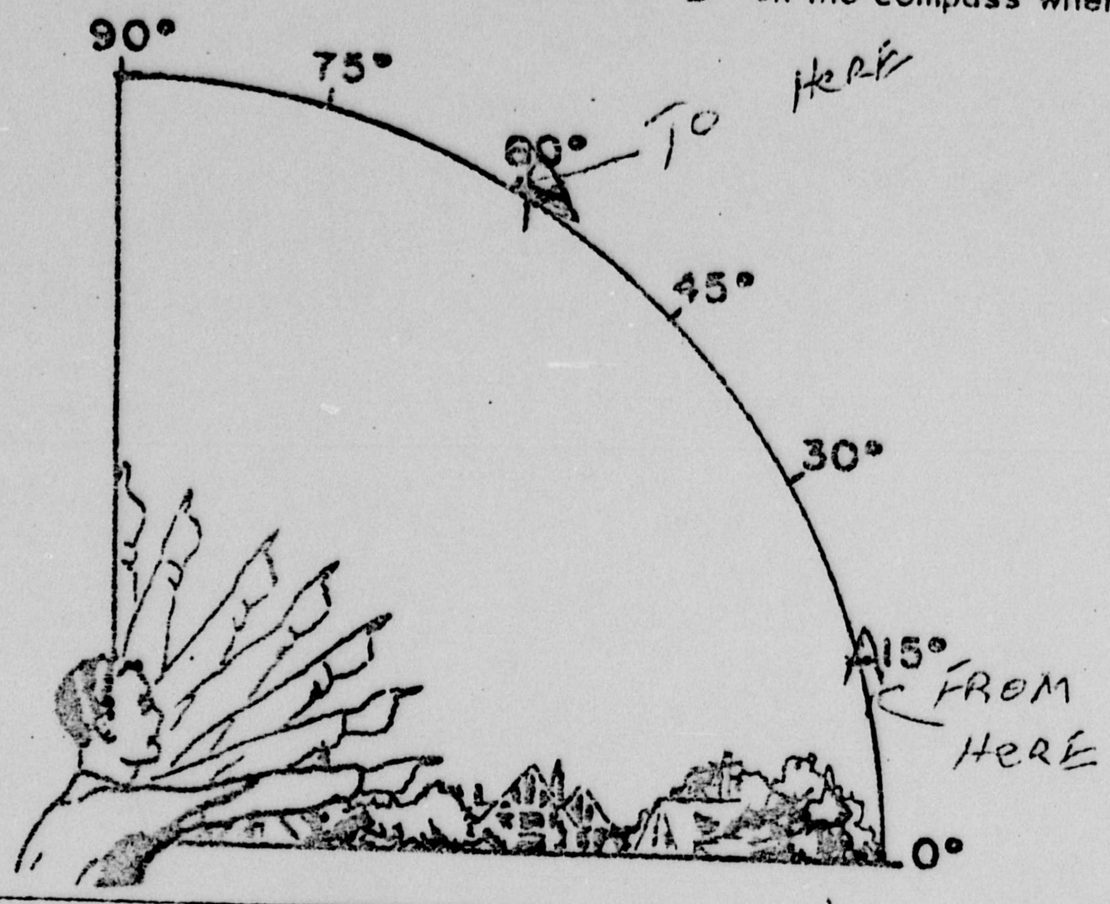
25. Did you observe the object through any of the following?

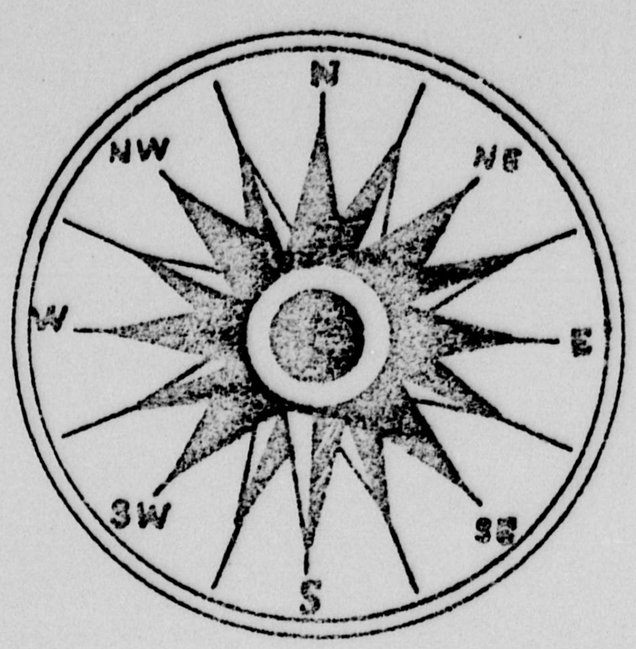
a. Eyeglasses	Yes	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. (Telescope)	(Yes)	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other AND WITH NAKED EYE		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

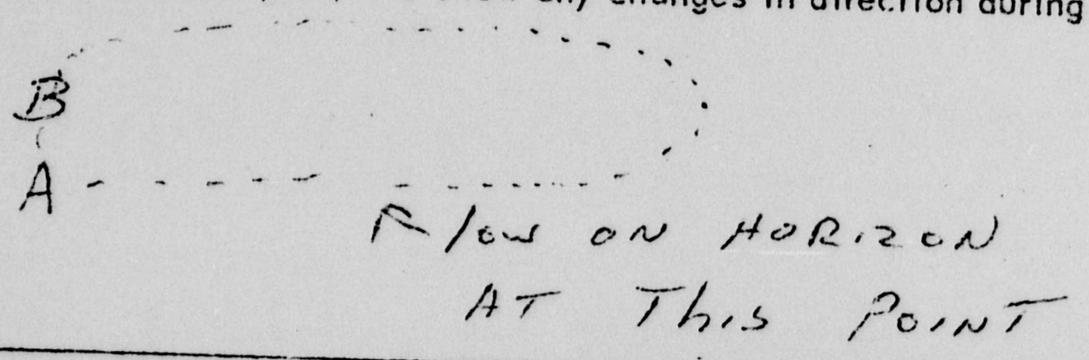
I LOOKED LIKE A EGG SHAPED TOP ~SEARCH LIGHT BUT IT MOVE ~~BUT~~ ERRATICALLY ~~BUT~~ AND SAW NO LIGHT BEAMING UP

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.





28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.



29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NO

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* (Yes) No

31.2 Please list their names and addresses:

[redacted] AVENUE
PORT CHESTER NEW YORK

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) PORT CHESTER (City) (Zone) NEW YORK (State)

TELEPHONE NUMBER [redacted] AGE 17 SEX MALE

Indicate any additional information about yourself, including any special experience, which might be pertinent.

I'AM A SCIENCE STUDENT IN BIOLOGY AND EARTH SCIENCE AND HAVE BEEN A AMETUER ASTRONER FOR 2 YEARS

33. When and to whom did you report that you had seen the object?

JUNE 18 (Day) _____ (Month) 1967 (Year) TO N.I.C.A.P

34. Date you completed this questionnaire: 26 (Day) JUNE (Month) 1967 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

MY FREIND AND I SAW IT A.
I HEARD THAT A FEW KIDS SAW
IT TWO MILES AWAY AND A FEW
PEOPLE A FEW BLOCKS AWAY.
I'AM A AMETEUR ASTROMER AND I'AM
FAIRLY FAMILAR WITH THE ~~AND~~ SKIES
AND I KNOW IT WAS NOT A CONVENTIAL
AIR PLANE OR ADVERTISING SKYLITE
BECAUSE I HAVE SEEN MANY BEFOR
THE OBJECT WOULD MOVE IN A ELIPTICAL
ORBIT FLYING LOW AT THE HORZION
~~AND~~ THEN CORVE HIGH NEAR ZENITH.
I MAILED A REPORT TO NICAP
THEY TOLD ME TO WRITE TO
YOU I'AM A NICAP MEMBER.
MY REPORT WAS TO NICAP MAY
BE A LITTLE DIFFRENT IN THE
OBSERVATION OF THE HEIGHT BECAUSE
I WAS CONFUSED AT THAT TIME.

IF YOU COME UPON A SCIENTIFIC EVALUATION PLEASE INFORM ME SO I CAN ~~DO~~ FIND OUT WHAT I SAW

Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

FEB. 4. MARCH 1967

Day Month Year

2. Time of day: TO LAST PAGE.

Hour Minutes

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b. Standard)

4. Where were you when you saw the object?

Nearest Postal Address: DESOTO — City or Town: MO — State or County: JEFF.

"4 RURAL AREAS" of DESOTO.

5. How long was object in sight? (Total Duration) _____ Hours _____ Minutes _____ Seconds

(a. Certain)
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? TO LAST PAGE

5.2 Was object in sight continuously? Yes X No ____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	a. Bright
b. Cloudy	b. Cloudy

Clear + dark.

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One):
a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FTD FORM OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsol

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (*Circle One*):

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON (*Circle One*):

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (*Circle One*):

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER (*Circle One*):

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: (*Circle One*):

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (*Circle One*):

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

An Amber caution signal light.

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other LOOKED LIKE THE MOON IN FULL. ONLY, INCREASE & DECREASE IN SIZE.

13. Did the object:

	(Circle One for each question)		
a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

ON ONE OCCASION

14. Did the object disappear while you were watching it? If so, how?

ON ONE OCCASION - just TURNED OFF THE LIGHTS

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): (Yes) No Don't Know. IF you answered YES, then tell what in front of: MY CAR - CROSSED THE ROAD IN FRONT OF MY CAR.

17. Tell in a few words the following things about the object:

a. Sound NONE

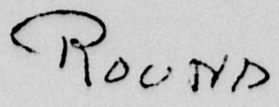
b. Color AMBER LIGHT.

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

A SMALL AREA

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.



20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) No

IF you answered YES, then what speed would you estimate? 20 To 30 MPH.

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

a. Inside a building – 3 or 4 times
b. In a car – 3 or 4 times
c. Outdoors – 3 or 4 times
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North (c. East Going out) e. South (g. West Returning Home)
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? 25 miles per hour. APP.

24.3 Did you stop at any time while you were looking at the object? YES

(Circle One) (Yes) No

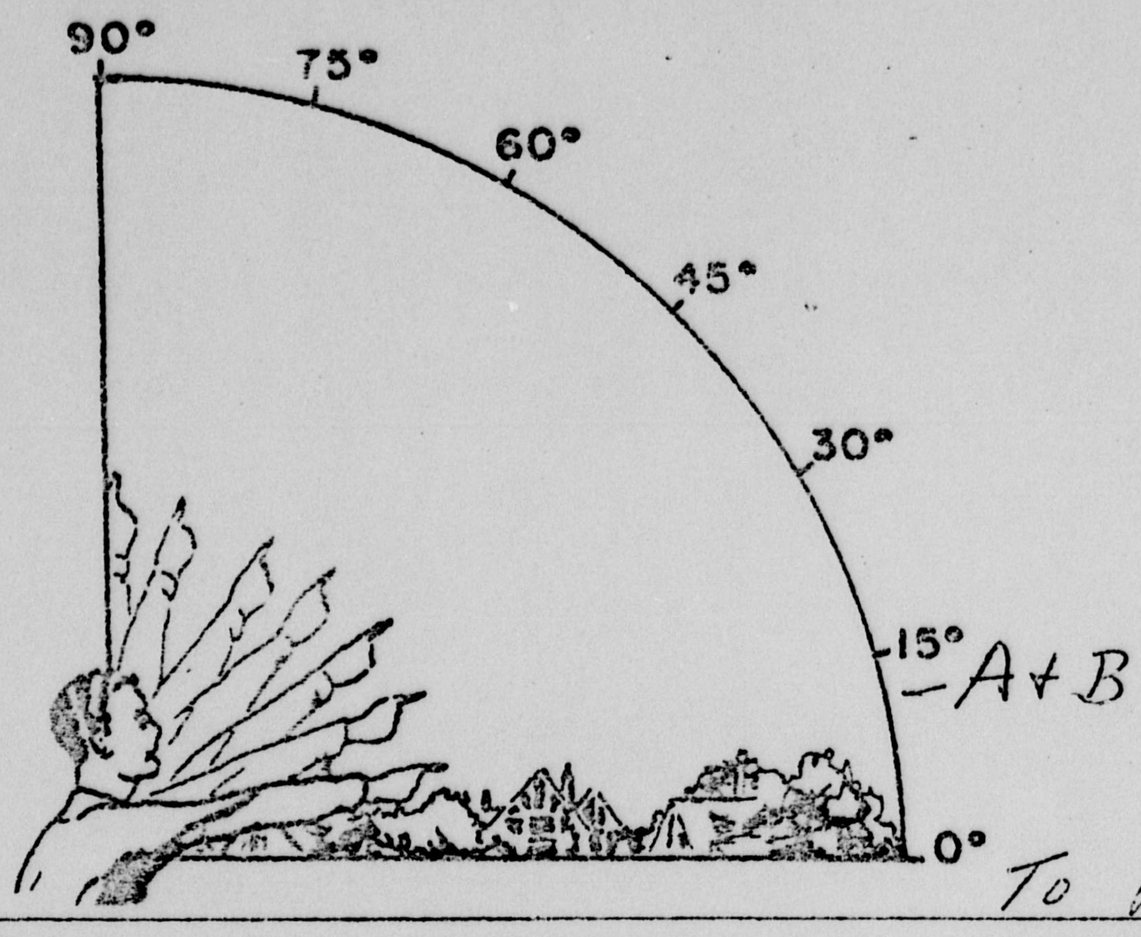
25. Did you observe the object through any of the following?

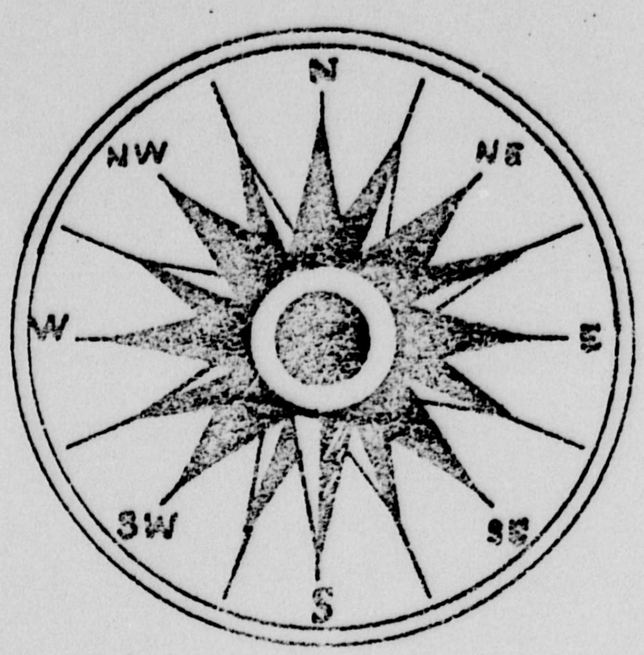
a. Eyeglasses	Yes	No	e. Binoculars	(Yes) ON one occ.	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	(Yes)	No	g. Theodolite	Yes	No
d. Window glass	(Yes)	No	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

~~Just~~ a large amber (dull) caution light

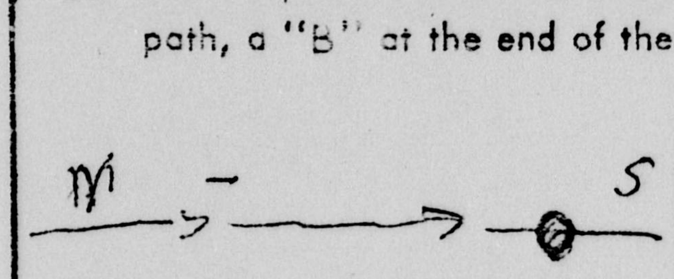
27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

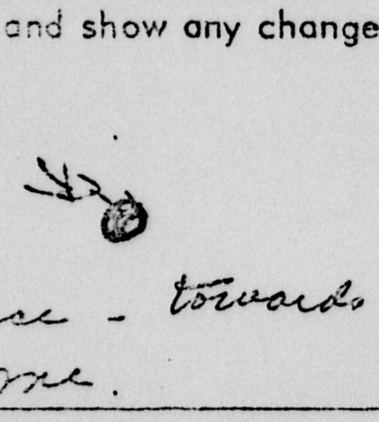


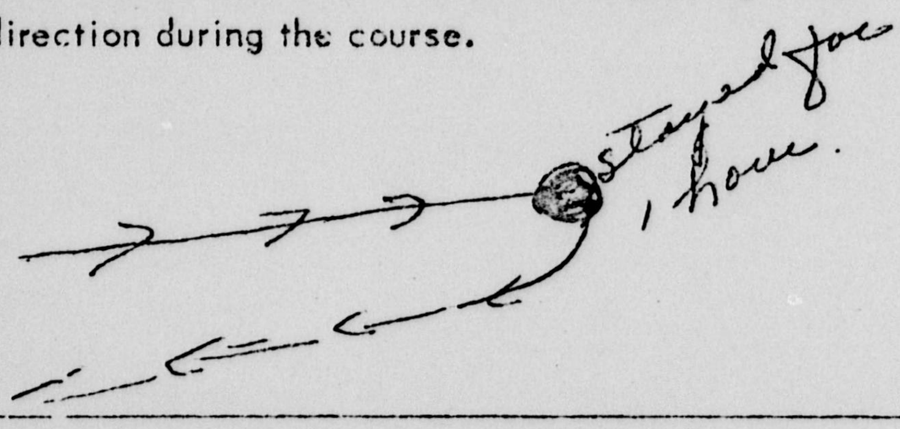


To BACK PAGE

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.







29. IF there was MORE THAN ONE object, then how many were there? _____

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NOT BEFORE FEB. 67

31. Was anyone else with you at the time you saw the object? (Circle One) (Yes) No

31.1 IF you answered YES, did they see the object too? (Circle One) Yes No

31.2 Please list their names and addresses:

friends & members of my family.

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) DESOTO (City) ____ (Zone) MO (State)

TELEPHONE NUMBER [redacted] AGE 49 SEX F.

Indicate any additional information about yourself, including any special experience, which might be pertinent.

I have been a resident all my life in this area. Am employed as an R.N. nurse for a local Doctor. Am a wealther observer, was in Civil Air Patrol and observer. I am a private pilot & have both ratings.

33. When and to whom did you report that you had seen the object?

_____ (Day) _____ (Month) _____ (Year)

34. Date you completed this questionnaire: 8 (Day) 11 (Month) 67 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Back Page

I did not see any object, an amber light only on 10 or 12 different occasions

2. Always immediately after dark - from 7 P.M. To 10 P.M.

5 - from 5 To 15 mi each time, except when it followed my car home, then about 20 mi.

27. Usually at tree top level

Notes -
was looking for UFO one night, when I saw the amber light coming over the tree tops towards me. I jumped up with my binoculars it just turned out its light, one the one occasion it was seemed to be green + red light, apart the amber light.

Before leaving home
Re: question 28 - I observed my usual amber light going from North To South, so on my way to a friends home I forgot about it, until I arrived there the amber light was just at a stand still app. 1 mi from her home, since my friend was ill I went into the house staying for an hour or so, when I started home the light began to move towards the road I was travling getting closer to me it passed in front of my car travling on my left until I reached the city limits then it descended to the south.

DEPARTMENT OF THE AIR FORCE
OSI DISTRICT 5 (HQ USAF)
WRIGHT-PATTERSON AFB, OHIO 45433

REPLY TO ATTN OF: 5D 24-21-222 1 March 1967

SUBJECT: Unidentified Flying Object and Finding of Parachute and Equipment by [redacted] Hazard, Kentucky, 17, 18 February 1967

TO: FTD (TDEW)
Project Blue Book (Major H. QUINTANILLA, JR.)

1. This is to confirm the information furnished to you in our telecon of 23 February 1967.

2. On 18 February 1967, Special Agent GEORGE HUTCHISON, FBI, Louisville, Kentucky, advised the Commander of our Louisville, Kentucky Detachment office as follows:

[redacted] telephon[redacted] Perry County Rescue Squad, Hazard, Kentucky, telephonica[redacted] that he and many others in the Hazard area saw unidentified lights on Friday night, 17 February 1967. On Saturday, 18 February 1967, a small parachute was found in the area where the lights had been seen. Hanging from the parachute was a small piece of equipment which made a buzzing sound. [redacted]aid the piece of equipment attached to the parachute was as radioactive as a watch dial and apparently someone had shot it.

3. Arrangements have been made by this District office to have the parachute, with attached equipment, delivered to your office in accordance with your request in referenced telecon.

OFFICIAL U.S. AIR FORC

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

18 (Day) FEB (Month) 1967 (Year)

2. Time of day: 1 (Hours) 30 (Minutes)

(Circle One): A.M. or (P.M)

3. Time Zone:

(Circle One): (a. Eastern) b. Central c. Mountain d. Pacific e. Other _____

(Circle One): a. Daylight Saving (b. Standard)

4. Where [redacted] object?

[redacted] (Nearest Postal Address) JENKINTOWN (City or Town) PA. (State or County)

5. How long was object in sight? (Total Duration)

_____ (Hours) 5 (Minutes) _____ (Seconds)

(a. Certain) b. Fairly certain c. Not very sure d. Just a guess

5.1 How was time in sight determined? WRIST WATCH

5.2 Was object in sight continuously? Yes ✓ No _____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a. Bright)
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you b. In back of you c. To your right d. To your left e. Overhead f. Don't remember

8. IF you saw the object at

8.1 STARS (Circle One):

a. None
(b. A few)

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate?_____

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? ABOUT AS HIGH AS A JET WOULD GO.

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c. Outdoors)
d. In an airplane (type)
e. At sea
f. Other_____

23. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
(g. Other) RESIDENTIAL SECTION OF SUBURBAN COMMUNITY

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving?_____miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	(Yes)	No	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other_____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

THE OBJECT LOOKED LIKE TWO SUSPENDED LIGHT BULBS.

R FORCE UFO FORM

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight—pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light (TWO LIGHTS TO BE PRECISE)
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

Flood lights

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other DIDN'T SEE THE EDGES, JUST SAW TWO LIGHTS ABOUT 1½ TIMES THE WIDTH OF JET APART

13. Did the object:

(Circle One for each question).

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

64

Official U.S. Air Force UFO form

14. Did the object disappear while you were watching it? If so, how?
YES, JUST disappeared all of the sudden, LIGHTS JUST WENT OUT.

15. Did the object move behind something at any time, particularly a cloud?
(Circle One): Yes (No) Don't know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?
(Circle One): Yes (No) Don't know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:
a. Sound LIKE THAT OF FOUR JET ENGINES. VERY LOUD
b. Color JUST TWO WHITE LIGHTS,

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?
1/3 THE SPACE BETWEEN THE TWO LIGHTS WHICH LOOKED TO ABOUT AS FAR APART AS 1½ TIMES THE WIDTH OF A JET WINGSPAN.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

[redacted]

Pending 23 April 67

19 Feb 67

Proposed reply to letter from [redacted], Me May 29, 1967
me.

Dear [redacted]:

Reference your recent letter of May 29, 1967 concerning your unidentified observations.

Due to the delay in reporting your observations of June 1966 and February 1967, a meaningful scientific investigation is not possible. Normally, air activity records are destroyed after thirty days; thus, at this late date we would be unable to check for any air activity which may have been the cause for your sighting.

The information which you provided on your April 23 sighting is not sufficient for a detailed investigation. Request you complete the inclosed FTD Form 164 in order that a scientific investigation can be performed.

There has been no tangible evidence to indicate that our planet has been visited by extraterrestrial vehicles. Various articles implying that such evidence exists is without foundation.

It is hoped that the inclosed information will be of interest to you.

Lt Safaii 12 June 67

Dear Sirs May 29, 1967

I am 13 years old and I am very interested in U.F.O. I have been interested since I was 10 years old and hope to make a career out of it. I have four books on them and have read iveryone with curiosity and enjoyment. I was one of the unbelievers till I myself made three sightings which I will tell about later in this letter. I have a friend who is also interested in U.F.O. also. together we try to find out more and more about U.F.O. I made a drawing which will be in the envelope of one of my U.F.O. sightings of a flying saucer. I believe these flying Saucers are from Outer space. I say outer space not only meaning our own galaxy but from other galaxies in the universe. Many people are afraid of these beings because they think they are here to conquer or destroy our planet but I say they are here to help man and stop him from destroying himself in atomic war. This is why we should respect them not fear them. My first sighting was

7 old

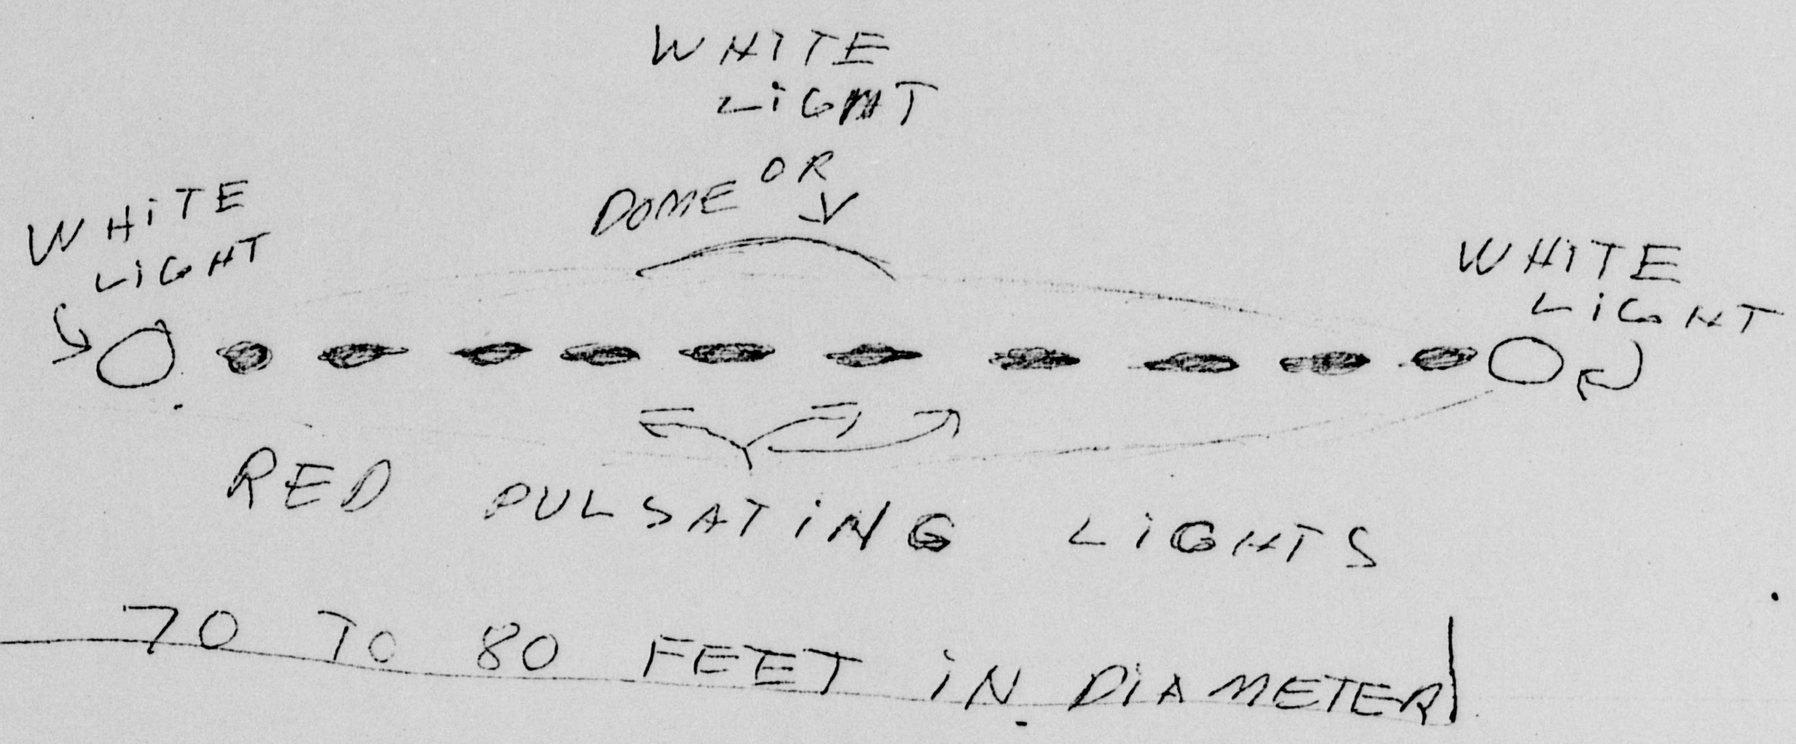
in June 1966 (Date not known) My friend and I had just got through playing basketball. I happen to look up into the night sky. It was around 9:30 P.M. I noticed an object which I thought was a plane at first. It had two red lights, a green light and a white dome on top. It made no sound whatsoever. It hovered for about 2 min and then shot off at a speed I could not calculate. My friend saw it an he thought it was unusual also. My second sighting was on February 19 1967. In [redacted] book (Inside the Flying Saucer) he said that they had disks which watch our earth. They are about the size of a stove on a table. When the disk would sometimes get out of control they would disintegrate it in the air. This is what I think I saw. It was a disk shaped object about 4 feet in diameter and was glowing. It burst into flames and shot out flames than disintegrated. It lasted about 10 sec. This sighting

might have been a meteor but I doubt it was. Third sighting was on April 23, 1967 around 9:45 P.M. This sighting is one of the sightings which I am positively shure that it was not a plane or a helicopter since plane's arnt allowed to fly that low an a helicopter makes a heck of a racket.
As I said before it was around 9:45 P.M. and I was watching the Smothers Brothers. My friend next door called me up and said they were watching a flying Sacure on a U.F.O. I grabed my 4x40 Power binoculars and ran out to his yard. There were 5 saucers. They had 9 to 12 red pulsation lights on a side and two bright white lights one in front and one in back. they were about 70 to 80 feet in diameter.
Once in a while they would hover an speed than hover than speed than jerk to a stop. It had a white light on top also. It was more long than oval. Their is one

Question - I would like to ask you do you have any flying saucer in your possesion. I hope you answer this also send me some information on other sightings. Please send me a copy of Project Blue Book. Thank you for your trouble for reading my letter

Sincerly, yours

[redacted]



Yours, Truly

[redacted]

NO CASE INFO ONLY

Lt Marley:

This case is a NO CASE INFORMATION ONLY since SAFOICC does not take any action on those letters which are not signed, nor do they take any action on letters that are just initialed. Per conversation of 18 Aug 67.

Marilyn

20. Do you think you can estimate the speed of the object? SPEED WAS NOT CONSTENT.

(Circle One) (Yes) No

IF you answered YES, then what speed would you estimate? BETWEEN 80+100 MPH

21. Do you think you can estimate how far away from you the object was? WAS NOT CONSTENT.

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? 1/4 – 5 MI APPOX. (NOT SURE)

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c) Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b) In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	(Yes)	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

AS ~~A SET~~ LARGE ASH TRAY (5IN DIAM.) AT APPOX. 8–10 FT. UPSIDE DOWN

30. Have you ever seen this, or a similar object before. If so give date or dates and location. YES, TWO (APPROX) AGO. SAME CITY, SAME GENERAL SECTION OF CITY.

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* (Yes) No

31.2 Please list their names and addresses [redacted] HOUSE WHERE WE SAW OBJECT [redacted] DAYTON, OHIO

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS 8 [redacted] (Street) DAYTON (City) ____ (Zone) OHIO (State)

TELEPHONE NUMBER NONE AGE 16 SEX M

Indicate any additional information about yourself, including any special experience, which might be pertinent.
I SERVED TWO (2) YEARS IN THE CIVIL AIR PATROL. I AM FAMILAR WITH AIRCRAFT. I HAVE KNOWN MANY PEOPLE WHOM HAVE HAD SIMILAR EXPERIENCES WITH U.F.O'S AND HAVE DONE SOME RESEARCH ON THE SUBJECT. I HAVE GOOD JUDGEMENT, GOOD HEARING, GOOD HEALTH. I HAVE MANY ~~INTEREST~~ INTERESTS AMOUNG WHICH ARE,, ELECTRONICS, COMMUNICATIONS, SCIENCE (PHYSICAL) PHOTOGRAPHY

33. When and to whom did you report that you had seen the object?

21 (Day) 2 (Month) 62 (Year)

MY MOTHER, AND MY FELLOW WORKERS (THE FOLLOWING DAY) AND THE U.S.A.F. (2-22-62 MAILING TIME.)

Feb. 21+22

7 Feb. 27, 1967

Dear Major Quintanilla,

I am writing to offer some information on two recent sightings of UFO's. The reason I decided to go "right to the top" is that I was refruffed by the officer at Paine Air Force Base in Everett, Wash., the AF Base nearest my home in Seattle.

He would not accept my information because he said it was "too late" and "it wouldn't do any good now".

I disagree thoroughly, as I'm sure you do, also. How are we going to clear up the mystery surrounding UFO's if intelligent, reliable people are prevented from even registering their possibly valuable information about sightings?

The reason I did not report my sighting to Paine AF Base immediately, is that I was unaware that this was the customary procedure.

I called the local daily newspaper, the Seattle Post Intelligencer, who seemed to be thoroughly uninterested and unimpressed and who referred me to a local civilian committee for aerial phenomena. During my conversation with their representative I was told nothing about reporting it to the Air Force.

It was only several days later, tonight as a matter of fact, when I bought a Look magazine special issue on "Flying Saucers" that I found that reporting a sighting to the Air Force was customary.

That was when I contacted and was turned down by Paine Field.

I hope my information will be of some small value in the continuing search for knowledge on this difficult subject.

My report is concerned mostly with my first sighting on the night of Feb 21, as I really didn't observe things too clearly during the second sighting, on Feb 22, having just celebrated my birthday with cocktails and dinner at Trader Vic's!

Yours truly,

[redacted]

P.S. I have no sight drawings immediately available to the Air Force.

OFFICIAL U.S. AIR

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object? S

21+22 (Day) Feb (Month) 1967 (Year)

2. Time of day: 11 (Hours) 05 (Minutes) 21/2 22/2

9 20

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
(d) Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b) Standard

4. Where were you when you saw the object?

University of Wash. (Nearest Postal Address) Seattle (City or Town) Wash. (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) 5 (Minutes) _____ (Seconds) (first night) 2 (second night)

a. Certain
(b) Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? by my wristwatch

5.2 Was object in sight continuously? Yes ✓ No _____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a.) Bright
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FTD FORM OCT 62 164 This form supersedes FTD 164, jul 61, which is obsolete.

FORCE UFO FORM

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

(a.) None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
(c.) No moonlight—pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

(a.) Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

(a.) Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
(d.) As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

(a.) Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

as bright as airplane lights but different color (more orange red

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
(b.) Like a bright star
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	(Yes)	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	(No)	Don't know
(c.) Break up into parts or explode?	(Yes)	No	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	Yes	(No)	Don't know
f. Change shape?	Yes	(No)	Don't know
g. Flash or flicker?	(Yes)	No	Don't know
h. Disappear and reappear?	Yes	(No)	Don't know

64

Official U.S. Air Force

14. Did the object disappear while you were watching it? If so, how?

yes, it remained stationary for about 30 seconds then exploded with a loud retort & disappeared on the second night the sight disappeared without a noise

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what it moved behind: the object seen the second night moved out of my line of vision behind some tall buildings over which it had been flying

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what in front of:

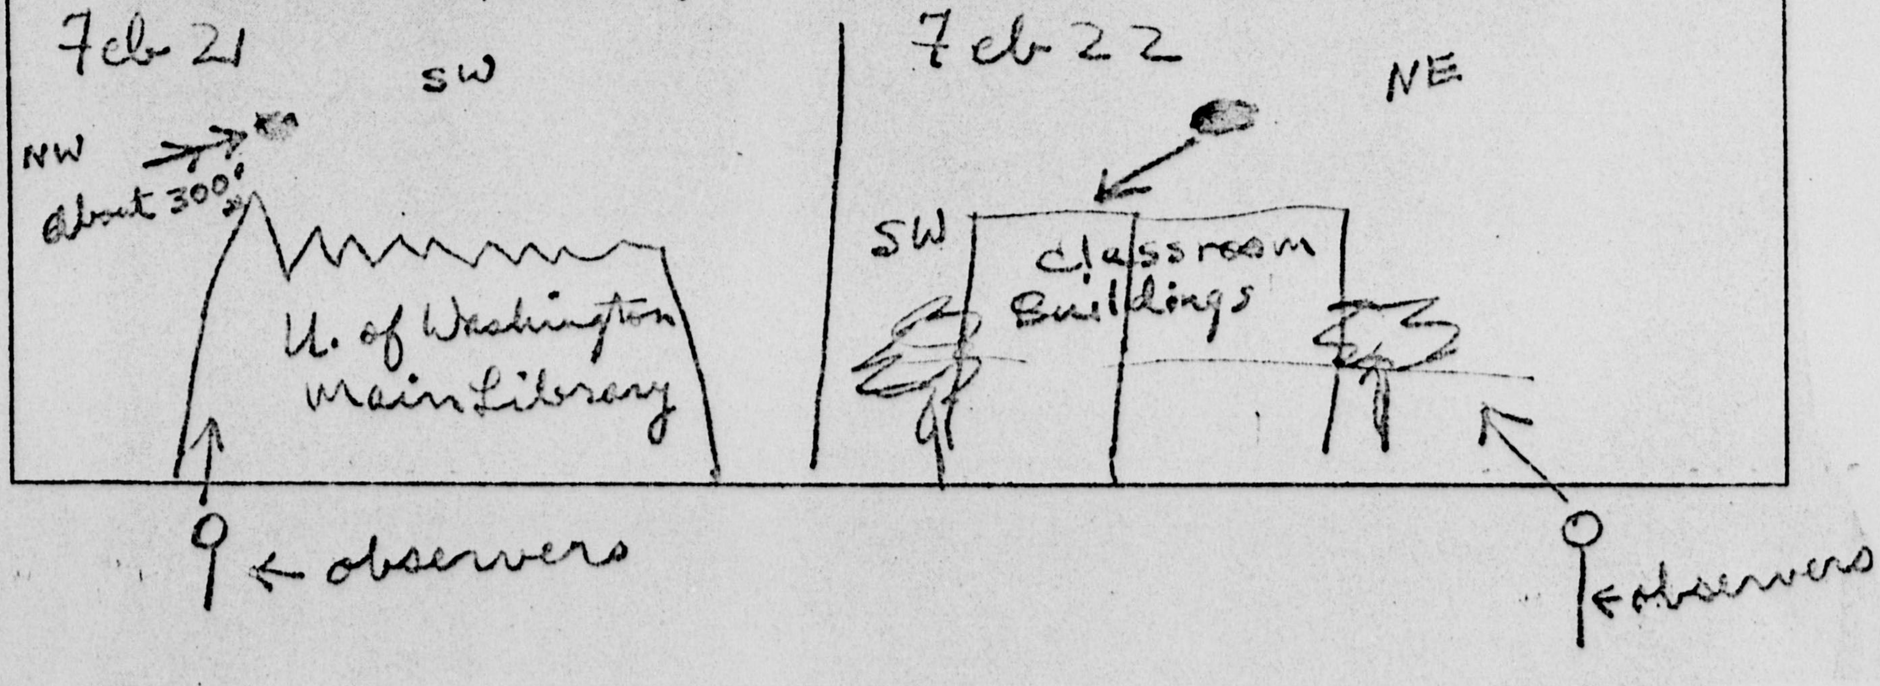
17. Tell in a few words the following things about the object:

a. Sound only a bang when exploded, otherwise silent

b. Color glowing reddish-orange - both nights

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head? all of it

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.



UFO form continued

20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) No

IF you answered YES, then what speed would you estimate? slower than an airplane very slow, almost imperceptible movement

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) ~~No~~

IF you answered YES, then how far away would you say it was? much less than a mile because sound of explosion sounded very close

22. Where were you located when you saw the object?

(Circle One):

a. Inside a building
b. In a car
(c.) Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other on a college campus in a residential sec. of city

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

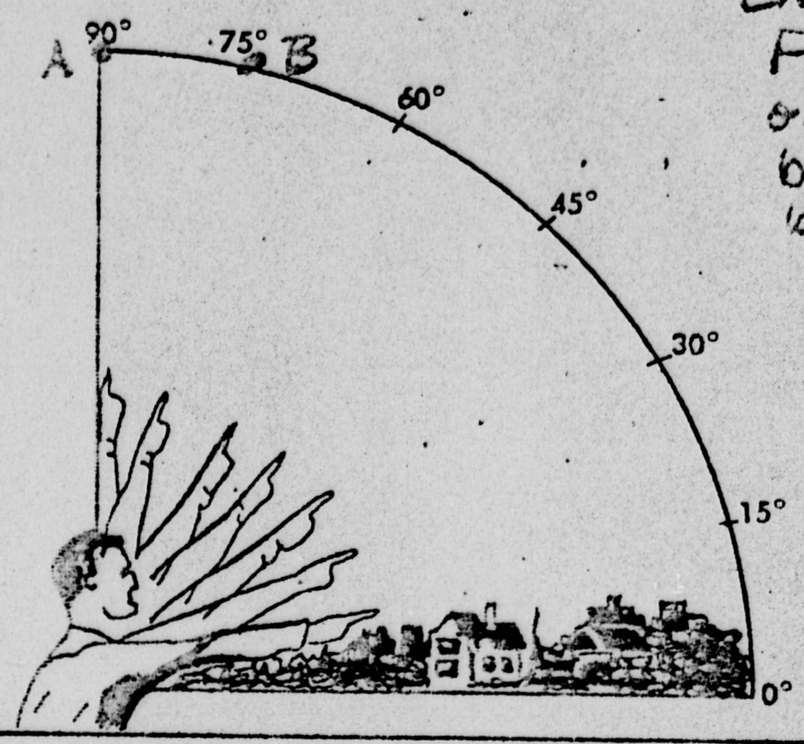
26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

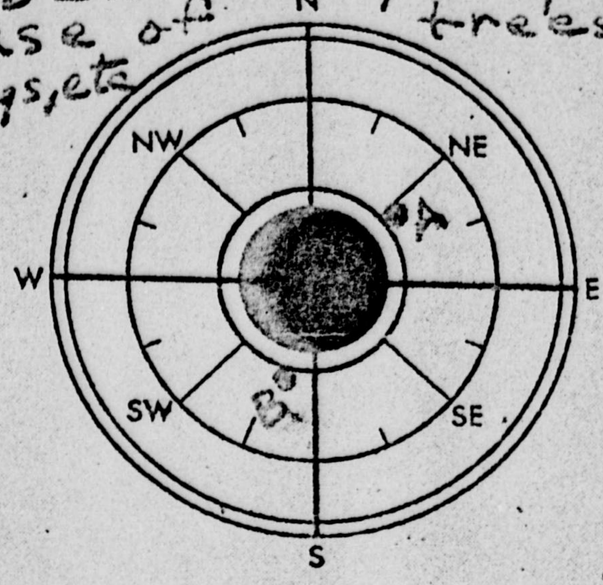
The only thing I can compare it with is the "Dog Star" - Sirius, with which I am familiar or Venus. It was about 2 or 3 times larger than these constellations Also a more orangered than Sirius which twinkles blue-red and green. It glowed steadily rather than "twinkling" like a star. It was not brilliant like Venus but dull glowing perhaps like a red hot coal. Also, of course, it was moving and then disappeared. I was as close as a low flying airplane.

Official U.S. Air Force

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass when you *last* saw the object.

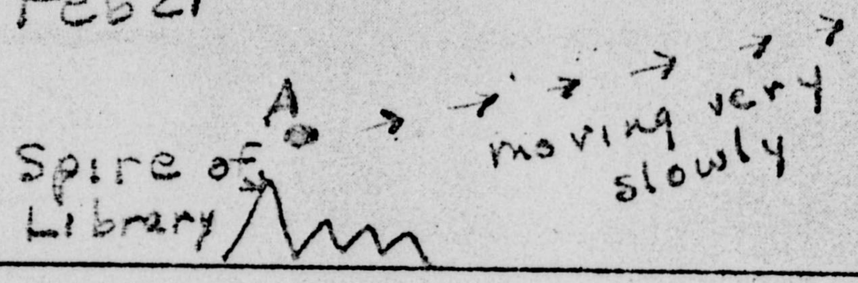
this is object sighted on Feb 21. The object seen on Feb 22 is very complicated because of trees, buildings, etc



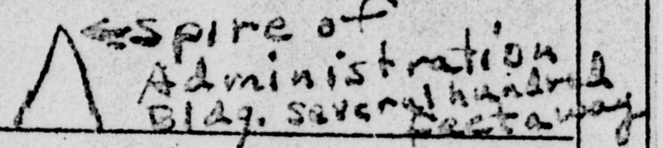


28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

Feb 21



B stopped completely + stayed there about 30 secs. then exploded with a bang.



29. IF there was MORE THAN ONE object, then how many were there?_____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

UFO form continued

30. Have you ever seen this, or a similar object before. If so give date or dates and location.
Only the two successive nights above mentionned:
Feb21 + Feb22

31. Was anyone else with you at the time you saw the object? (Circle One) (Yes) No

31.1 IF you answered YES, did they see the object too? (Circle One) (Yes) No

31.2 Please list their names and addresses:

Feb21
[redacted]
Seattle, Wash. 98105

Feb22
[redacted]
Seattle, Wash. 98105

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) Seattle (City) 98105 (Zone) WASH. (State)

TELEPHONE NUMBER [redacted] AGE 26 SEX F

Indicate any additional information about yourself, including any special experience, which might be pertinent.
I have watched the stars all my life and am very familiar with them. I have also seen many, many aircraft, both day and night since there are many military and commercial planes flying over Seattle at all times. also I observed the Russian Sputnik with the naked eye when it passed over our house in 1957. I have seen the Aurora Borealis over our house once, shooting stars, moon dogs, etc.

33. When and to whom did you report that you had seen the object?
[redacted]21 (Day) Feb (Month) 1967 (Year)
Seattle Post Intelligencer, Committee on Aerial Phenomena, Seattle

Official U.S. Air Force U

34. Date you completed this questionnaire: 27 (Day) Feb (Month) 1967 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

The first night, Feb 21, after I had watched the red object explode, a boy + girl (college students), who had been standing about 10 yds. from us during the sighting, came over + told me that they had seen the object for quite some time before I had spotted it. They said it had appeared "enormous" and had flowed a more orangey red. They said it travelled at tremendous speed then slowed down, until, when I observed it, it was hardly moving. It must have gone much higher into the sky because by the time I saw it it was only a little bigger than a star or an airplane light. They said it had come from the northeast and we watched it go toward the southwest, but higher into the sky, then stop + hover, then explode + disappear. Unfortunately I did not get their names. When I called to report this to the UFO committee (not the Air Force) they told me there had been a red glowing object sighted in

JFO form continued

southwest seattle (several miles from campus) earlier the same night. (Feb 21)
The night of Feb 22, I sighted the exact same color + shape object, but it seemed larger and closer this time and travelled faster. It was visible for a much shorter time and disappeared behind some buildings. It was lower on the horizon and spotted coming out of the northeast, approximately a block from where I had seen the object the previous night. This sighting was at 9:20 p.m. in the company of another witness, above mentioned. I was never so surprised to see such a similar object the second night, in fact I was so surprised the first night, because I never thought I would ever see such unusual objects!
There was no noise for the second object at all. Both were completely alone.

34. Date you completed this questionnaire: 27 (Day) 2 (Month) 1967 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

First, I was amused to read of the "Lubbock Lights" in this magazine. Was it this proved to be a "hoax"?

My sighting was not a plane. Speed was much greater than anything I have seen. It could have been a weather ballon in the jet stream reflecting the light from the setting sun, but I really doubt this very much. As I said, I didnt report it because of the way the air force discounts such sightings, as I feel sure this one will be, but I thought I would join 'the crowd' and report just the same.

I will be glad to cooperate any way I can on this matter.

OFFICIAL U.S. AIR FORC

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

24 (Day) FEB (Month) 67 (Year)

2. Time of day: 6 (Hours) 44 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): (a. Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b. Standard)

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) DARIEN (City or Town) CONN. (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) _____ (Minutes) 20-30 (Seconds)

a. Certain
(b. Fairly certain)
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? We used watch

5.2 Was object in sight continuously? Yes ✓ No ____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a. Bright)
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

NICAP MASSACHUSETTS INVESTIGATING SUBCOMMITTEE

13 Friend Court
Wenham, Massachusetts

SUBJECT: UFO Report

DATE: 26 February 1967

TIME: 6:00 to 7:30 PM E.S.T.

LOCATION: Webster, Massachusetts

WITNESSES: Three

1. [redacted]: Part-time reporter, Worcester Telegram & Gazette
Student, Senior at Clark University
41 Mayflower Road, Leicester, Massachusetts

2. [redacted] Salesman
[redacted]
Webster, Massachusetts

3. [redacted]: High School Student (Age 15)
[redacted]
Webster, Massachusetts

DATE OF INTERVIEWS: 2 March 1967 - 6:55 to 8:10 PM E.S.T.

INVESTIGATORS: [redacted]

INTERVIEWERS: Witness #1 - [redacted]
Witness#2,#3 - [redacted]

BACKGROUND:

This report was brought to the attention of the NICAP MASS SUBCOM by the enclosed newspaper report obtained through F. Pechulis and via the N.E. Newsclip Service. The interviews were conducted at the Webster Office of the "Worcester Telegram and Gazette" at the times and date listed above.

Due to the temporary scarcity of Report Forms, Investigator Pechulis had two witnesses answer the questions on the Forms onto lined paper. These answers were later transferred onto the Report Forms. The original signed work-around answer wheets are attached to the Report Forms.

NARRATIVE:

The UFO sighting started at approximately 6:00 PM on February 26, 1967 as a result of a telephone call from an unidentified woman at Oxford, Massahhusetts to the "Worcester Telegram and Gazette" saying that she saw a UFO in the area.

The newspaper apparently sent a teletype message concerning the sighting to the local offices. Mr. [redacted] was at this time working in the Webster office, preparing a story on a local fire. Messrs. [redacted] and [redacted] were also present in the office being friends of Mr. [redacted] Mr. Canty obtained a Rolliflex 3.5 camera loaded with Kodak Tri-X Panchromatic Film and all three left the office in his car to see the object. They spotted the object shortly after leaving the office and while travelling slowly over roads in and around Webster, stopped periodically to take pictures. Mr. [redacted] states that the object was visible in the West and Southwest most of the time and appeared stopped periodically. Approximately 80 still pictures were said to have been taken at the widest aperture (f 3.5) and the slowest shutter speed available (1 sec.) After approximately 1.5 hours of "chasing" the object, the group returned to the newspaper office.

FILM EVALUATION:

Approximately 4 rolls of #120 Tri-X Film and one 35mm X 36 exposure Tri-X Film was available to the NICAP Investigators for examination. They had been developed by the "Worcester Telegram & Gazette" photo-lab and were considered to be technically the property of the newspaper. A definite attempt was made to obtain one of the #120 film strips for supporting analysis by NICAP Investigators but said attempt was fruitless. The one roll of film in question was the only roll of film containing any images of interest to the naked eye, the others being apparently clear and blank. It was the opinion of Investigator O'Neill that the images visible on the one roll of were excellent examples of images of brighter stars resulting from a hand-held camera exposure of from 1/2 to 1 second duration. [redacted] based his opinion on the following points which were consistent with a star-image interpretation.

1) All frames contain multiple traces, none of which were as much as 1/4 inch total length.

2) The multiple images of all frames were of varying density and irregularly spaced.

3) On all frames, the varying density traces were so configured that any and all variations from a straight line evidenced by one trace was duplicated in all other traces to the extent that any one trace could be superimposed over any other trace at some point.

4) In addition, any pair of traces could have their high and low points connected by straight lines that would be parallel.

The above conditions could only be normally met as a result of camera and film movement during exposure of light sources in a fixed telationship to each other. The newspaper photograph is an enlargement of one of the traces on a frame which contained at least three other similar traces of various densities. Mr. Canty said he was quite surprised that multiple images appeared in the pictures since the area of sky toward which the camera was pointed was almost void of stars and the camera was aimed only at the UFO.

During Investigator O'Neill's inspection of the negatives, Mr. [redacted] continually asked his opinion of the images and was as often told that an opinion was not completely relevant. At the end of the interviews, he again repeatedly asked O'Neill's opinion in the presence of all. When the opinion was finally given, both qualified and reserved and based on a lack of full facilities for analysis, he was very insulted and ready to

take the position that O'Neill was attacking his veracity as regarding the whole affair.

Typed almost verbatim from the notes of:

NICAP MASS INVESTIGATOR: John O'Neill
NICAP MASS INVESTIGATOR: Frank Pechulis

CHAIRMAN'S EVALUATION

There were major descrepancies regarding the following: The UFO's shape varied from that of a light source to circular or saucer-shape; The size varied from that of a silver dollar to an orange; and, the distance estimated varied from 1000 yards, 1/2 to 1mile, and 2 miles or greater. There were other differences in opinion as would be expected. It stems from the fact that it is hard to estimate apparent size of an object as compared with a common object at arm's length and the fact that unless an object passes in-front-of something with a known distance, the best that can be hoped for is an estimate of distance based upon personal impression.

I phoned Mr. Canty and talked to him myself. I tactfully suggested that what he and his friends might have observed was the planet Venus. He was very annoyed with me and stated that he knew what Venus looked like and that this was not Venus. However, the UFO was constantly viewed in the W to SW and Venus is very prominent in this area. This in addition to the fact that Venus set on or about the time the witnesses stopped observing the UFO leads me to the conclusion that most likely the witnesses were observing Venus.* Their general excitement and movement in the automobile plus the slow movement of Venus must have given them the impression that they were observing a moving brightly-lit object. This is further borne out by the 1 and 1/2 hours sighting duration and basic photo-evaluation by Investigator O'Neill. The photos were unavailable to NICAP but I have heard that Mr. Hoaglund from the Springfield, Massachusetts Museum of Science was obtaining them for analysis. He is very efficient in getting to UFO sighting witnesses and obtaining photos sometime before our Investigators arrive. This has prevented a full analysis on our part in some cases. However, Mr. Hoaglund has assured NICAP MASS and NICAP CONN that any pertinent information will be turned over to NICAP WASHINGTON. It is hoped that he will follow through with his statements.

Ordinarily, NICAP MASS would not have pursued a "Venus suspect" sighting so thoroughly but due to the photographs, publicity and apparent veracity of the witnesses involved, it was felt that a full investigation was warranted.

VENUS SET APPROX 7:40 PM E.S.T.

Respectfully submitted,

Raymond E. Fowler, Chairman
NICAP MASSACHUSETTS SUBCOMMITTEE

A Gazette reporter photographed this object about 6:30 p.m. in Hall Road. The object, because it was described as a "saucer type," appears as an "S" when photographed moving at high speeds.

VENUS MOVEMENT & EARTH'S ROTATION

Oxford-Webster Area

UFO Sighting Claimed by Six

VENUS SET (?)

By EDWARD J. CANTY
Gazette Staff Reporter

WEBSTER — Residents of the Oxford-Webster area are still speculating today about the unidentified flying object that was sighted in the sky about 6 p.m. yesterday.

I was told that an Oxford man had sighted a UFO near Route 20 in Oxford.

Along with a 35 mm camera, I was accompanied on the investigation by Harvey Burwick, 24, of 71 Myrtle Ave., and David Obuchowski, 15, of 23 Poland St.

We spotted the object slowly drifting in our direction from Oxford. We then drove towards the object which was hovering near Hall Road.

We stopped the car on Hall Road and began to shoot pictures of the oval shaped disc.

We were joined by Mr. and Mrs. Ernest Adams who were visiting relatives in that area.

Amber Color

Mrs. Adams described the object as very bright and far too low to be a star. She said that the object was amber in color and that the object systematically turned red at different intervals. I agreed with this description as did the two Webster residents.

We suddenly noticed that the object was no longer stationery in the sky. The object was moving at high speed toward Dudley.

We chased the object to Dudley Hill and from that high ground, shot pictures as the UFO drifted towards Southbridge.

Burwick said that "it was strange. It was too low in the sky to be a star. All of a sudden," Burwick said, "the object changed to red and disappeared going in a south-westerly direction toward Southbridge.

Obuchowski said, "I have viewed the skies before with a telescope and have never seen a light such as this one. It was a bright object moving towards Dudley. It was not a star because it was too low in the sky."

Doubtful Existence

Previous to this sighting, I had been quite doubtful as to the existence of UFOs. I feel that many people in the past have been hoodwinked by UFO sights that have been later proven to be false. I feel that one has to actually sight an object such as this in order to give credence to the matter.

Early this morning, I called officials at the Westover Air Force Base. Offiicals recorded my story on tape and refused to comment on it.

This sighting was not the first for this area. Last week in Putnam, 20-25 miles from Webster, a UFO was sighted by a police captain who had officers from the local force verifying the sighting.

O'NEILL FELT THAT MOVEMENT OF UFO ONLY "APPARENT" CAUSED BY CAR MOVEMENT (FROM HIS INTERVIEW)

! (?)

18. Was the object —

a. Self-luminous? yes
b. Dull finish? no
c. Reflecting? yes
d. Transparent? no

19. Did the object(s) rise or fall while in motion? Seemed to rise in motion.

20. Tell the apparent size of the object(s) when compared with the following held at arm's length:

a.	Pinhead	d.	Nickel	g.	Orange
b.	Pea	e.	Half dollar	h.	Grapefruit
c.	Dime	f.	Silver dollar	i.	Larger

Or, if easier, give apparent size in inches on a ruler held at arm's length.

21. How did you happen to notice the object(s)? Understood Okt[illegible] called the office

22. Where were you and what were you doing at the time? Waiting fire station

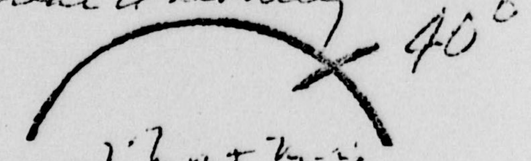
23. How did the object(s) disappear from view? Just blacked out the sky.

24. Compare the speed of the object(s) with a piston or jet aircraft at the same apparent altitude.

25. Were there any conventional aircraft in the location at the time or immediately afterwards? If so, please elaborate.

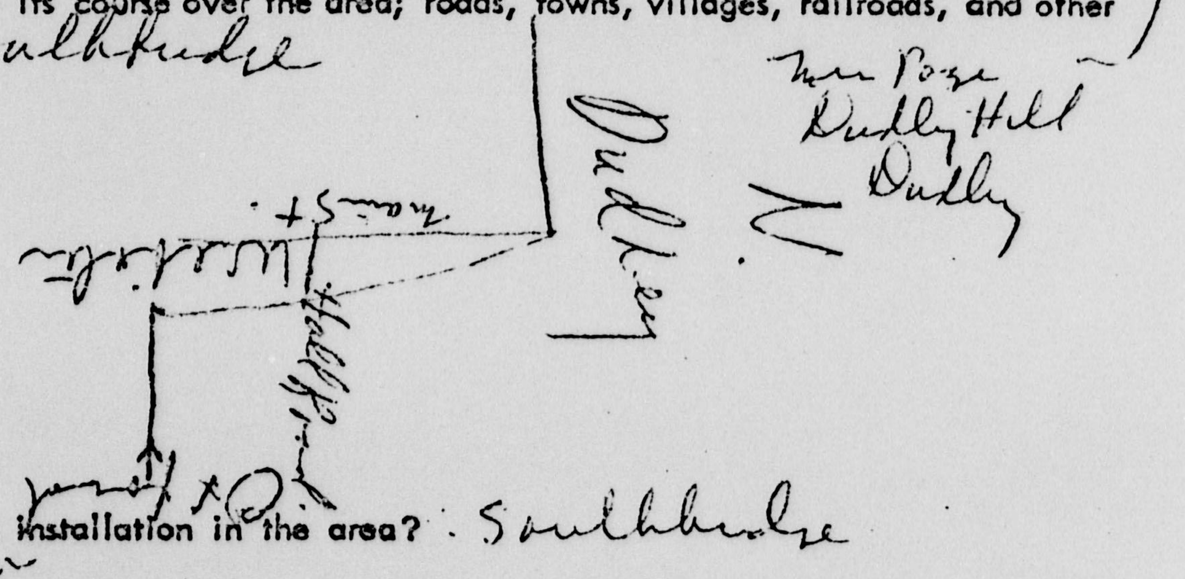
26. Please estimate the distance of the object(s). small airport runway Hanscom Field Southbridge 1000 yard.

27. What was the elevation of the object(s) in the sky? Please mark on this hemisphere sketch:



28. Names and addresses of other witnesses, if any. Mary Barbuto Myrtle Ave Webster } Mr + Mrs Adams, Lake David Obenkowski Poland St" Barbour - Webster }

29. Please draw a map of the locality of the observation showing North; your position; the direction from which the object(s) appeared and disappeared from view; the direction of its course over the area; roads, towns, villages, railroads, and other landmarks within a mile.



30. Is there an airport, military, governmental, or research installation in the area? Southbridge

31. Have you seen other objects of an unidentified nature? If so, please describe these observations, using a separate sheet of paper.

32. Please enclose photographs, motion pictures, news clippings, notes of radio or television programs (include time, station and date, if possible) regarding this or similar observations, or any other background material. We will return the material to you.

33. Were you interrogated by Air Force investigators? By any other federal, state, county, or local officials? If so, please state the name and rank or title of the agent, his office, and details as to where and when the questioning took place.

Were you asked or told not to reveal or discuss the incident? If so, were any reasons or official orders mentioned? Please elaborate carefully.

34. We should like permission to quote your name in connection with this report. This action will encourage other responsible citizens to report similar observations to NICAP. However, if you prefer, we will keep your name confidential. Please note your choice by checking the proper statement below. In any case, please fill in all parts of the form, for our own confidential files. Thank you for your cooperation.

You may use my name. (✓) Please keep my name confidential. ( )

REPORT ON UNIDENTIFIED FLYING OBJECT(S)

This form includes questions asked by the United States Air Force and by other Armed Forces' investigating agencies, and additional questions to which answers are needed for full evaluation by NICAP.

After all the information has been fully studied, the conclusion of our Evaluation Panel will be published by NICAP in its regularly issued magazine or in another publication. Please try to answer as many questions as possible. Should you need additional room, please use another sheet of paper. Please print or typewrite. Your assistance is of great value and is genuinely appreciated. Thank you.

2. Date of Observation 2/26/67 — Time AM 6:30 PM EST Time Zone

3. Locality of Observation FROM HALL ST, WEBSTER

4. How long did you see the object? 1 Hours 30 Minutes Seconds

5. Please describe weather conditions and the type of sky; i.e., bright daylight, (nighttime), dusk, etc. CLEAR WEATHER

6. Position of the Sun or Moon in relation to the object and to you. UNK

7. If seen at night, twilight, or dawn, were the stars or moon visible?

8. Were there more than one object? 1 OBJECT If so, please tell how many, and draw a sketch of what you saw, indicating direction of movement, if any.

9. Please describe the object(s) in detail. For instance, did it (they) appear solid, or only as a source of light; was it revolving, etc? Please use additional sheets of paper, if necessary. CIRCULAR AND BRIGHT, CHANGING FROM WHITE TO RED AT TIMES

10. Was the object(s) brighter than the background of the sky? YES

11. If so, compare the brightness with the Sun, Moon, headlights, etc. ABOUT AS BRIGHT AS A HEADLIGHT

12. Did the object(s) — (Please elaborate, if you can give details.)

a. Appear to stand still at any time? YES
b. Suddenly speed up and rush away at any time? YES
c. Break up into parts or explode? NO
d. Give off smoke? NO
e. Leave any visible trail? NO
f. Drop anything? NO
g. Change brightness? NO (JUST COLORS)
h. Change shape? NO
i. Change color? YES

13. Did the object(s) at any time pass in front of, or behind of, anything? If so, please elaborate giving distance, size, etc, if possible.
NOT TO MY RECOLLECTION

14. Was there any wind? YES If so, please give direction and speed. UNK

15. Did you observe the object(s) through an optical instrument or other aid, windshield, windowpane, storm window, screening, etc? NO What?

16. Did the object(s) have any sound? NO What kind? How loud?

17. Please tell if the object(s) was (were) —

a. Fuzzy or blurred. BLURRED
b. Like a bright star. YES
c. Sharply outlined. NO

18. Was the object —

a. Self-luminous? YES
b. Dull finish? No
c. Reflecting? No
d. Transparent? No

19. Did the object(s) rise or fall while in motion? No

20. Tell the apparent size of the object(s) when compared with the following held at arm's length:

a.	Pinhead	d.	Nickel	g.	Orange
b.	Pea	e.	Half dollar	h.	Grapefruit
c.	Dime	f.	Silver dollar	i.	Larger

Or, if easier, give apparent size in inches on a ruler held at arm's length.

21. How did you happen to notice the object(s)? BY ANOTHER PERSON CALLING IN

22. Where were you and what were you doing at the time? NOTHING

23. How did the object(s) disappear from view? JUST HAPPENED RATHER FAST.

24. Compare the speed of the object(s) with a piston or jet aircraft at the same apparent altitude.

25. Were there any conventional aircraft in the location at the time or immediately afterwards? If so, please elaborate.
YES AT ONE TIME A PLANE FLEW OVER THE OBJECT.

26. Please estimate the distance of the object(s).
AT LEAST 2 MILES OR MORE.

27. What was the elevation of the object(s) in the sky? 90° Please mark on this hemisphere sketch:

28. Names and addresses of other witnesses, if any.

29. Please draw a map of the locality of the observation showing North; your position; the direction from which the object(s) appeared and disappeared from view; the direction of its course over the area; roads, towns, villages, railroads, and other landmarks within a mile.

30. Is there an airport, military, governmental, or research installation in the area? No

31. Have you seen other objects of an unidentified nature? If so, please describe these observations, using a separate sheet of paper.
No

32. Please enclose photographs, motion pictures, news clippings, notes of radio or television programs (include time, station and date, if possible) regarding this or similar observations, or any other background material. We will return the material to you.

NATIONAL INVESTIGATIONS COMMITTEE ON AERIAL PHENOMENA
1536 Connecticut Avenue N. W.
NOrth 7-9434 Washington 6, D. C.

REPORT ON UNIDENTIFIED FLYING OBJECT(S)

This form includes questions asked by the United States Air Force and by other Armed Forces' investigating agencies, and additional questions to which answers are needed for full evaluation by NICAP.

After all the information has been fully studied, the conclusion of our Evaluation Panel will be published by NICAP in its regularly issued magazine or in another publication. Please try to answer as many questions as possible. Should you need additional room, please use another sheet of paper. Please print or typewrite. Your assistance is of great value and is genuinely appreciated. Thank you.

1. Name DAVID ORUCHOWSKI
   Address 23½ POLAND ST
   WEBSTER, MASS
   Telephone 943-3012
   Place of Employment ST
   Occupation STUDENT (HIGH SCHOOL) AGE 15
   Education
   Special Training
   Military Service

2. Date of Observation 2/26/67 Time E AM 6:30-7:00 PM Time Zone EST

3. Locality of Observation HALL ROAD, WEBSTER

4. How long did you see the object? 1½ Hours Minutes Seconds

5. Please describe weather conditions and the type of sky; i.e., bright daylight, nighttime, dusk, etc. CLEAR NIGHT

6. Position of the Sun or Moon in relation to the object and to you. UNK

7. If seen at night, twilight, or dawn, were the stars or moon visible? STARS VISIBLE

8. Were there more than one object? ONLY ONE If so, please tell how many, and draw a sketch of what you saw, indicating direction of movement, if any.

9. Please describe the object(s) in detail. For instance, did it (they) appear solid, or only as a source of light; was it revolving, etc? Please use additional sheets of paper, if necessary. IT WAS A VERY BRIGHT LIGHT AND AT TIMES IT CHANGED RED MOST OF THE TIME IT WAS STATIONARY BUT MOVED AT TIMES

10. Was the object(s) brighter than the background of the sky? YES

11. If so, compare the brightness with the Sun, Moon, headlights, etc. IT WAS BRIGHTE THAN THE MOON.

12. Did the object(s) — (Please elaborate, if you can give details.)

    a. Appear to stand still at any time? YES
    b. Suddenly speed up and rush away at any time? IT MOVED AT TIMES
    c. Break up into parts or explode? NO
    d. Give off smoke? NO
    e. Leave any visible trail? NO
    f. Drop anything? NO
    g. Change brightness? YES (WHEN IT WAS MOVING OFF).
    h. Change shape? NO
    i. Change color? YES

13. Did the object(s) at any time pass in front of, or behind of, anything? If so, please elaborate giving distance, size, etc, if possible. NO

14. Was there any wind? YES If so, please give direction and speed. UNK

15. Did you observe the object(s) through an optical instrument or other aid, windshield, windowpane, storm window, screening, etc? NO What?

16. Did the object(s) have any sound? NO What kind? How loud?

17. Please tell if the object(s) was (were) —

    a. Fuzzy or blurred. NO
    b. Like a bright star. YES
    c. Sharply outlined. NO

18. Was the object —

a. Self-luminous? YES
b. Dull finish? YES
c. Reflecting? NO
d. Transparent? NO

19. Did the object(s) rise or fall while in motion? NO

20. Tell the apparent size of the object(s) when compared with the following held at arm's length:

a.	Pinhead	d.	Nickel	g.	(Orange)
b.	Pea	e.	Half dollar	h.	Grapefruit
c.	Dime	f.	Silver dollar	i.	Larger

Or, if easier, give apparent size in inches on a ruler held at arm's length.

21. How did you happen to notice the object(s)? IT WAS CALLED TO OUR ATTENTION (OVER TELETYPE)

22. Where were you and what were you doing at the time? AT PAPER OFFICE (WORCESTER TELEGRAM & GAZETTE)

23. How did the object(s) disappear from view? WE LEFT AS IT WAS FADING AWAY

24. Compare the speed of the object(s) with a piston or jet aircraft at the same apparent altitude. NO COMPARISON.

25. Were there any conventional aircraft in the location at the time or immediately afterwards? If so, please elaborate.
YES AIRPLANE ABOVE OBJECT.

26. Please estimate the distance of the object(s). 1/2 TO 1 MILE.

27. What was the elevation of the object(s) in the sky? Please mark on this hemisphere sketch:

30° TO 40°

28. Names and addresses of other witnesses, if any.

29. Please draw a map of the locality of the observation showing North; your position; the direction from which the object(s) appeared and disappeared from view; the direction of its course over the area; roads, towns, villages, railroads, and other landmarks within a mile.

30. Is there an airport, military, governmental, or research installation in the area? NO

31. Have you seen other objects of an unidentified nature? If so, please describe these observations, using a separate sheet of paper.

32. Please enclose photographs, motion pictures, news clippings, notes of radio or television programs (include time, station and date, if possible) regarding this or similar observations, or any other background material. We will return the material to you. NO

33. Were you interrogated by Air Force investigators? By any other federal, state, county, or local officials? If so, please state the name and rank or title of the agent, his office, and details as to where and when the questioning took place.

Were you asked or told not to reveal or discuss the incident? If so, were any reasons or official orders mentioned? Please elaborate carefully. NO

34. We should like permission to quote your name in connection with this report. This action will encourage other responsible citizens to report similar observations to NICAP. However, if you prefer, we will keep your name confidential. Please note your choice by checking the proper statement below. In any case, please fill in all parts of the form, for our own confidential files. Thank you for your cooperation.

OFFICIAL U.S. AIR FORC

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

28 (Day) Feb. (Month) 1967 (Year)

2. Time of day: 7:00 (Hours) 8 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. Eastern
(b. Central)
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b. Standard)

4. Where were you when you saw the object?

3[redacted] (Nearest Postal Address) Alton (City or Town) Madison (See) (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) 12 (Minutes) _____ (Seconds)

a. Certain
(b. Fairly certain)
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? By clock

5.2 Was object in sight continuously? Yes _____ No V

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a. Bright)
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

8. IF you saw the object at

8.1 STARS (Circle One):

12. The edges of the object w

(Circle One): a. Fuz
b. Like
c. Sha
d. Don

13. Did the object:

a. Appear to stand still
b. Suddenly speed up
c. Break up into parts
d. Give off smoke?
e. Change brightness?
f. Change shape?
g. Flash or flicker?
h. Disappear and reap

FORM FTD OCT 62 164 This form supersedes FTD 164, jul 61, which is obsolete.

IR FORCE UFO FORM

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight—pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

It had lights on it like red headlights.

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember

e. Other_____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

r Force UFO form continued

Page 3

Page 4

20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) No

IF you answered YES, then what speed would you estimate? 40-100

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? 400-500 yards

22. Where were you located when you saw the object?
(Circle One):

a. Inside a building
(b. In a car)
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b. In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
(e. South)
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? 30 miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	(Yes)	No	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

Nothing I know can compare in appearance with this object.

64

Official U.S. Air Force UFO form

14. Did the object disappear while you were watching it? If so, how? Yes. It descended slowly behind some houses.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): (Yes) No Don't know. IF you answered YES, then tell what it moved behind: It descended behind some houses just a small distance away.

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound It made no sound.

b. Color Red, white, and dull gray.

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

About 1/5 of the object or less.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

As we watched the object, (the object was moveing south), it decreased in speed and then hovered just above some houses not far away. It then descended slowly, at an angle, untill it disappeared behind some houses. 3 seconds after it had descended behind the houses and out of sight, a jet plane ~~passed~~ passed over! Like, I just can't find words to discribe it. It was just fantastic.

TDET/UFO OFFICIAL FILE COPY

City Police Department,
Sault Ste. Marie, Ontario,
March 1, 1967.

REGARDING UNIDENTIFIED FLYING OBJECT

At approximately 8:25p.m., February 28, 1967, I received, by phone, a report of an object in the sky in the area of Gros Cap.

A Mr. [redacted], stated that he and his wife could see the object and that it was changing colours, the rotation of which was brilliant red, brilliant green, brilliant yellow and back to red again. Mrs. [redacted] reported that changing of the colours did not cease and that the object was bright.

Car #4, Constables Rathbone and Shortt were dispatched to the area of Neff's Hill, Second Line, to try and locate this particular object. At this time a telex message was received from the OPP detachment, Blind River, advising us that Chief Constable Collins of the Blind River police had observed an object down there, and requesting us to notify Kincheloe Air Force Base, Michigan, of the object so that they might try and get it on their radar. The time that this message was received was marked down at 8:32p.m.

Also at 8:32p.m. a Mr. [redacted], reported observing the object and that it was headed towards Gros Cap.

At 8:43p.m. Constables Rathbone and Shortt reported that they could also see the object. A short time later at 9:11p.m. Constables Rathbone and Shortt reported that the object could now be seen in the northeast section of the city in the general direction of Hwy. 17 North, and the Fifth Line. At this time I went up on the roof of the police station and located an object towards the east north east at about twenty degrees off of the horizon. This object appeared to me to change colour from a bright red to a reddish orange or dirty yellow and then to a bright green. The colours continued to rotate in this sequence and the object as near as I could determine was motionless. It is my opinion that this object might be twenty to thirty miles away. I viewed this object and compared it with a star in the same area, and this object seemed closer and changing colour, while the star remained a bluish white. Since I was unable to keep a constant check on this object I was unable to say where it finally went, but it was in the sky until approximately 10:13p.m., when on checking it was no longer there.

The following is a list of other persons reported as having seen this object.

S/Sgt. Mellowskii

Cpl. E. Clark, Detective C. Pollard

P. J.F. [redacted]

At 1430p.m. First Lieutenant Andrew S. Knight, Information Officer, Kinchelow Air Force Base, called the station requesting information on the above occurrences and names of people sighting same, this information was supplied. -First Lieutenant Andrew Knight will be contacting the Chief Constable in the morning, March 1, 1967, for copies of statements on the occurence.

Respectfully submitted,

C. Ritchie, Sgt.

City Police Department,
Sault Ste. Marie, Ontario,
March 1, 1967.

REGARDING UNIDENTIFIED FLYING OBJECT

On duty in car #4, Division #4, on February 28, 1967, at 8:30p.m. in company of P.C. Ronald Shortt, received a call from the station to proceed to [redacted] re Mr. [redacted] saw a flying object.

On our arrival at approximately 8:37p.m. we talked to Mr. & Mrs. [redacted]. Mr. LaCrosse stated his sister-in-law, who lived next door at 4 Arbor Street had seen a flying object and had come to his house to tell him. Mr. LaCrosse's house is on the east side of Arbor Street facing west. He could see a flying object from his front window. He said it was a little bigger than a star. The colour of the object was red, green and an amber colour. The object seemed to revolve in a circle. They watched the object, and then it disappeared into the west.

We talked to Mrs. [redacted] LaCrosse at 4 Arbor Street, and she stated her son was the first to see the object, and she gave the same description as her brother-in-law. They both watched the object through a pair of field glasses.

Mr. LaCrosse said that the people at 8 Windfield Drive, Ken Conway's residence, had also seen the object.

At approximately 8:47p.m. we left Arbor Street, and were notified to check along Second Line for the flying object by the station. We checked out as far as Cros Cap. When we were returning to the city along the Second Line at the Town Line, we observed what appeared to be the flying object. It was situated approximately at the Fifth Line and Highway 17 North. The object was round and flashing colours of green, red and amber, and sat in one place, but seemed to revolve.

We then returned to [redacted], and Mr. [redacted] identified it as the same object he had seen. He stated it was much bigger when he had seen it before.

The object was seen by several of the division cars, and also by Sgt. Ritchie and Cpl. Clark.

Respectfully submitted,

(signed) [redacted]

City Police Department,
Sault Ste. Marie, Ontario,
March 1, 1967.

REGARDING UNIDENTIFIED FLYING OBJECT

On February 28, 1967 at approximately 8:37p.m., in company with P.C. Donall Mathbone, I answered a call to the [redacted] residence, [redacted], regarding an unidentified flying object.

Mr. [redacted] and his wife both stated that they had seen an object in the sky at about 8:30p.m. The object was described as an intermittent flash of red, green and yellow light. It appeared to be round and rotating, and moving up and down in a westerly direction until it disappeared over the horizon.

Mrs. [redacted], also saw this object and watched it through a pair of binoculars. She described it as rotating, and as it rotated it showed red, green, and yellow light, the yellow being the brightest. At one point in the rotation the object seemed to come to a point, and the rest of the time it appeared to be round.

P.C. Mathbone and I patrolled the Cross Cap area in search of the object, and at about 9:15p.m., from a point on the Second Line between the Town Line and the Carpin Beach Road, we observed a distant flashing light northeast of us. This object was flashing red, green and yellow. When first sighted this object seemed to move from left to right and back several times, then it would remain stationary.

At 9:20p.m. we returned to [redacted] and pointed the light out to all three persons mentioned above, and they stated that it was the same type of light which they had originally seen, only that it was closer and larger before.

Respectfully submitted,

(signed) R.L. Shortt, P.C.
