Dear Sir,

I have been employed at the Bflo Trap + Field Club for the past 17 years and this is where I received your Address from some one with the Aero Club. I told them of my Experience and they advised my writing you.

Last September 1st we moved to the country. It is about 10 miles from Attica - we are on a secondary road, no street light about 3 miles or so from the main road. As of Sept 25th of last year I've had about 40 sightings and kept a rough record of such, but after a while got tired of it.

my 3 daughters have seen,
not dom neighbors & also
other neighbors. My brother
[redacted] who is now in
Vet Nam was home on leave
& everytime we talked about
it he would declare the insane.
However 3 days before he left
he saw with his own eyes
what we were talking about.
As yet I have seen no one, but
it wouldn't surprise me to
come face to face one day.
They are still around. They
are definitely landing nearby.
It is very strange & weird.
One nite Sue & I were coming
home from bowling and saw
a very large bright star -
We watched it for miles -
Then it turned colors & I couldn't
believe my eyes - it looks a
large ship - the size of a

Zeppelin - It was aimed right at us - It was dull gray - noiseless a big yellow light in front + 3 large lights in the rear. The center was a yellowish gold color, transparent + a red flame shot thru the center. It was like a plane coming in for a landing + went right over our heads - I know it landed, It had to but I saw was driving + wouldn't stop, when we first moved, out here 2 different shaped objects followed me home - launched right in the sky along with the car, She tried in vain to get pictures, Its hard - She have so many chances - one thing for sure I'm interested has scared to death, I shake all over,

I asked [redacted] why I'm seeing these things so much.

I know darn well it is nothing of ours — He said either someone from our area is contacting these objects or else someone in our area is from another planet.

I never really believed this till we moved to the country & have seen what I have — If I could only get pictures I'd be famous. At least once a week I see something! I do have some slides but it only a dot. Can't tell too much — Why doesn't someone investigate this? I'm sure other people have reported this! They could really learn something if they camped in our back yard. We have 5 acres.

Sincerely,

[redacted]

[redacted]
