To whom it may concern:

I was reading the book Flying Saucers from Outer Space when I came to this questionnaire which I am filling out and sending to you, because on August 1966 I sighted a strange object in the sky, like I have never seen before I am not saying that is was a Saucer but it may have been since there are a lot of unexplained objects which have been sighted out yet. I was not the only one who reported it to the Police Dept.

If this is not enough information or you wish to know more, I will be glad to tell all I know.

Yours truly
