COUNTRY United States	REPORT NO. OID 1-53	(LEAVE BLANK) 505601
SUBJECT AIR INTELLIGENCE INFORMATION REPORT		
SUBJECT Unidentified Flying Objects		
AREA REPORTED ON Highway 91 between Wolf Creek & Craig, Montana	FROM (Agency) 29th Air Division (Defense)	
DATE OF REPORT 7 January 1953	DATE OF INFORMATION 02/0400 Z JAN 1953	EVALUATION F-6
PREPARED BY (Officer) Mario Cappelli, Captain, USAF	SOURCE Civilian	
REFERENCES (Control number, directive, previous report, etc., as applicable)		

SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112—Part II.)

- a. Shape: Two saucers face-to-face, a little higher on top than bottom.
- b. Size: 30-35 feet in diameter and 6-8 feet deep.
- c. Color: Silver.
- d. Number: One (1).
- e. Formation (if more than one object): None.
- f. Aerodynamic features: Unknown.
- g. Propulsion system: Unknown.
- h. Trail or exhaust: Red glow coming from bottom, increasing as object climbed. Haze around middle.
- i. Speed: Estimated at 3,600 MPH.
- j. Sound: None.
- k. Maneuvers: None.
- l. Manner of appearance: First sighted above horizon five (5) miles distant. Dove to about 100-200 feet above river at 50-100 yards from observers, then climbed out of sight. Object was in horizontal position at all times.
- m. Time of sighting: 02/0345 Z JAN 1953.
- n. Manner of observation: Visual.
- o. Location of observer during sighting: From automobile, then outside of vehicle when object appeared to be 50-100 yards distant.
- p. Identifying information on observer and estimate of reliability: Mr. Anderson, Mrs. Gerta Williams, and Miss Marlene Wills, all of Helena, Montana, are all responsible persons. Mr. Anderson was the only person to sight the object from outside the car, and since he does not drink, his observation is considered very reliable. He is an employee of Jurod's Photo Shop in Helena.
- q. Weather: Winds aloft slight; bright moonlight; clear.
- r. Existence of physical evidence: None.
- s. Known meteorological or other activity at time: None known.
- t. Interception or identification action taken: Unknown.
- u. Location of air traffic in general area at time of sighting: Unknown.

SECURITY INFORMATION

AFFIDAVIT

This is to certify that I, Warner Anderson, in company of Gerta Wills and Marlene Wills, on the night of January 1, 1953, at approximately 2045, sighted an object which to the best of my knowledge was a flying saucer. I was driving my car ten miles south of Cascade, near the Missouri River, on highway 91 when I saw this object. When I first saw the object I estimate that it was five miles away, and it came right at me, and when it was 100 to 200 feet over the river and directly opposite me, it started to climb rapidly, staying in a horizontal position at all times. It continued to climb until out of sight.

The closest the object came to me was about 100 yards away, and approximately 50 to 100 feet above the river. The object was silver in color, shaped as a saucer, and had a reddish glow from the bottom. The weather conditions were clear, a bright moonlight night, with a slight wind.

The object appeared from the south-west and headed towards the north-east when out of sight. I estimate that I saw the object when it was five miles in front of me, and kept it in sight until it was five miles away from me. I estimate that it was in my sight for approximately ten seconds, therefore I estimate the speed at 3600 miles per hour.

Warner E Anderson
