FLIGHT 3-H 4602D AISS
McGuire Air Force Base
Trenton, New Jersey

5 October 1954

SUBJECT: UFOB Report

TO: Commander
4602D Air Intelligence Service Squadron
Ent Air Force Base
Colorado Springs, Colorado

1. Inclosed is a form 112 with attached questionnaires on a UFOB sighting at Swarthmore, Pennsylvania, 23 August 1954.

2. Normally the questionnaires would not be forwarded, however since there is no SOP on preparing UFOB reports and since this is the first Flight 3-H has investigated, it was believed that all available information should be forwarded.

3. Arrangements have now been made for the Weather Squadron, Princeton Observatory and Filter Centers to give information over the telephone in accordance with prescribed format. This should reduce the time in preparing the report.

4. It is requested that this report be critique (as are the monthly reports by C&A) and returned so that Flight 3-H can avoid making similar mistakes in the future.

2. Dr. [redacted] the Princeton Observetory, stated that a meteor or comet could have passed over the area, leaving only it's trailing tail visible. This tail may seem as if it had no source, could create a strange phenonenon, and could be picked up on a radar screen for at least one-half hour according to its length and size. He offered this as a possible explanation.

3. In conjunction with this report, it was learned that Lt. Toughy of the Hq 24th A.A.A. Group, Swarthmore, Penn., observed these same objects throughout the entire period. However the lieutenant's report could not be obtained at this time due to the officer being on TDY at another station. A letter and USAF Technical Information Sheet was mailed to the lieutenant, and upon receipt of reply it will be immediately forwarded to Hq 4602D AISS (Ref) UFOB Report 3H-1.

As station proceeding this object was noticed because of its brightness and perfect round shape. It was seen at 0700 PM with the sky very bright, no stars, no moon. It drifted slowly away from and to my right. I lost sight of it when it completely faded from my view as though you turned a light off. The sun was still to my back and no appreciable shadows occurred between the time I first sighted the object and it disappeared
