COMMENTS		
<p>Due to the delay in receiving the initial report on this sighting and it's failing to meet the other criteria for investigation, no investigation has been authorized by this organization. This object has the characteristics of a meteor. The duration of the sighting, the fact that it crossed a major portion of the sky in a few seconds, and the description of the sighting lead to the conclusion of a POSSIBLE METEORITE.</p>		
CONCLUSIONS		
POSSIBLY ASTRONOMICAL
