AIR INTELLIGENCE INFORMATION REPORT

FROM (Agency)	REPORT NO.	Part one
HOU, 4602D AISS	HOU-UFOB-1-56	PAGE 2 OF 6 PAGES

I. SOURCE: [redacted]

Address: [redacted], Pueblo, Colorado

Age: 38

Occupation: [redacted] Repairman

Education: High School Graduate
OJT Sheet Metal
Carpenter

Qualifications: GOC Observer

II. RELIABILITY: The sincerity and civic cooperation of SOURCE cannot be doubted. However, corrective eye lenses were worn by SOURCE. Judgement of height and distance by SOURCE were considered inaccurate; when SOURCE was asked to estimate distance of Pueblo Airport beacon from GOC post, an estimate of 15 miles was given. The beacon is located exactly 8 miles from GOC spotter's post.

III. SOURCE'S DESCRIPTION OF SIGHTING: SOURCE reported five (5) sightings. The first four were reported in the business section of PUEBLO (FJAJ 2415) at the following times: 01/0426Z, 01/0445Z, 01/0455Z, 01/0516Z. The fifth sighting was in the residential part of the city at 02/1635Z. Objects appeared circular in shape.

Although it was difficult to estimate the size of the objects, they appeared to be the size of a base ball 5" in diameter.

The color of the first three (3) sightings appeared to be fluorescent white with dullness. The forth and fifth sightings seemed bright and white. SOURCE estimated the speed of the objects as being three (3) times as fast as any jet SOURCE had seen.

No trail or sound was associated with the objects.

During the first sighting, object travelled from West to East abruptly gaining in altitude in an eliptical pattern, levelling off and disappearing.

Second object travelled in a straight line from East to West and disappearing.

Third sighting was spotted directly overhead, seemed to travel in a southerly direction, turned in an arc to the Southeast and disappeared.

Fourth sighting travelled from East to West in a straight line and disappeared.

Fifth sighting moved in an arc from North to East and disappeared.

The time in sight of the objects was from five (5) to eight (8) seconds duration.

At times of sightings there were no traces of daylight in the sky; there were many bright stars in the sky and no moonlight. Although the objects were brighter than the sky background, the brightness was not like that of an automobile headlight.

The objects resembled a solid clear plastic globe with a fluorescent bulb inside.

Age: 40

Occupation: [redacted] Ch. Petty Off. USNR.

Education: High-school Graduate, one and one half ( ) years high-school post-graduate work.

Qualifications: GOC Observer

II. RELIABILITY: SOURCE wears corrective eye lenses; aside from the fact that SOURCE is a GOC observer, his degree of reliability is unknown.

III. SOURCE'S DESCRIPTION OF SIGHTING: SOURCE made one (1) sighting at 030455Z May 56 from atop the Pueblo Court House, situated in the business district of Pueblo, Colorado (FJAJ 2415). Object appeared solid, circular in shape, and appeared to be size of baseball held at arm's length. Object appeared white and resembled a light. Object's brightness equal to that of auto headlights seen from several blocks' distance. Edges of object appeared same as those of a bright star. SOURCE cannot estimate object's speed, but indicated that the speed remained constant without sudden acceleration or deceleration. The object was in sight five (5) to eight (8) seconds. No trail or sound associated with object. Object first noticed at the position ninety (90) degrees above horizon, ninety (90) degrees from true North.

Object travelled in straight trajectory to a position one hundred and fifty (150) degrees from true North, thirty (30) degrees above horizon, where it disappeared. SOURCE estimated object to be at a sixty to seventy (60 - 70) mile distance.

At time of sighting there were no traces of daylight or moonlight in the sky. Many stars were visible. When object was seen, the sky was clear, the weather dry, the temperature was cool and there was no wind.

SUPPLEMENTARY INVESTIGATIVE EFFORTS:

1. A check of all airline flights gave a positive result with no correlation. The pilot of a DC-3 which landed at Pueblo, Colorado, at the approx time of the UFOB sightings, Mr. [redacted] Continental Airlines, Denver, stated that he did not observe any unusual objects.

2. Balloon launching times were obtained from the Pueblo Memorial Airport, At 020146Z May 56 a launched balloon proceeded in a Westerly direction between five to ten thousand feet, from twelve to twenty-five thousand feet, balloon took an easterly heading, winds at time of launching were calm West to Northwest.

3. Mr. [redacted] the only known operator of a mobile searchlight unit in Pueblo, stated that his searchlight was not used on the date of the UFOB sightings. Mr. [redacted] was emphatic in the belief his searchlight was the sole searchlight in the Pueblo area.

4. Investigators were dispatched to the GOC spotter post in the Pueblo. When the investigators definately identified meteors on two different days, the spotters on duty were reluctant to accept the high speed objects as meteors.

COMMENTS OF PREPARING OFFICER:

1. It is the opinion of the preparing officer that this sighting was caused by meteors since it conforms to meteor characteristics relating to shape, size, speed, sound, and time in sight.

2. Speed of object eliminates balloon hypothesis.

3. Speed of object precludes aircraft possibility.

4. During the week following the above sightings, 3 May 56 - 10 May 56, personnel of the 4602d AISS spent three (3) evenings with the GOC spotters atop the Pueblo Court House, Colorado. The above 4602d AISS personnel observed objects which were positively identified as meteors. It was the observation of the 4602d AISS personnel that GOC spotters were visibly shaken.

5. Five additional UFOB sightings were turned in by this GOC post within a week's period. It is believed that the original sighting caused psychological manifestations which distorted explainable phenomena into unidentified objects.

U. S. AIR FORCE TECHNICAL INFORMATION SHEET

This questionnaire has been prepared so that you can give the U. S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes, and will be regarded as confidential material. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that, if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

3 (Day) / JULY (Month) / 56 (Year)

2. Time of day: 9 (Hour) 37 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time zone:

(Circle One): a. Eastern
b. Central
(c. Mountain)
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b. Standard)

4. Where were you when you saw the object?

COURT HOUSE BUILDING (Nearest Postal Address) / PUEBLO (City or Town) / COLORADO (State or Country)

Additional remarks: GOC Post.

5. Estimate how long you saw the object. _____ Hours / 1 Minutes / _____ Seconds

5.1 *Circle one* of the following to indicate how certain you are of your answer to Question 5.

(a. Certain)
b. Fairly certain
c. Not very sure
d. Just a guess

6. What was the condition of the sky?

(Circle One):
a. Bright daylight
b. Dull daylight
c. Bright twilight
d. Just a trace of daylight
(e. No trace of daylight)
f. Don't remember

* G. Haze

7. IF you saw the object during DAYLIGHT, TWILIGHT, or DAWN, where was the SUN located as you looked at the object?

(Circle One):
a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

ATIC FORM NO. 164 (13 OCT 54)

Declassification Authority NND 923007

8. IF you saw the object at NIGHT, TWILIGHT, or DAWN, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
(b. A few)
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
(c. No moonlight) — pitch dark
d. Don't remember

9. Was the object brighter than the background of the sky?

(Circle One): (a. Yes) b. No c. Don't remember

10. IF it was BRIGHTER THAN the sky background, was the brightness like that of an automobile headlight?:

(Circle One) a. A mile or more away (a distant car)?
b. Several blocks away?
c. A block away?
d. Several yards away?
e. Other Not Like Headlight

11. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	(No)	Don't Know
b. Suddenly speed up and rush away at any time?	Yes	(No)	Don't Know
c. Break up into parts or explode?	Yes	(No)	Don't Know
d. Give off smoke?	Yes	(No)	Don't Know
e. Change brightness?	Yes	(No)	Don't Know
f. Change shape?	Yes	(No)	Don't Know
g. Flicker, throb, or pulsate?	Yes	(No)	Don't Know

12. Did the object move behind something at anytime, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

13. Did the object move in front of something at anytime, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, than tell what it moved in front of: _____

14. Did the object appear: *(Circle One)*: (a. Solid?) b. Transparent? c. Don't Know.

15. Did you observe the object through any of the following?

a. Eyeglasses	(Yes)	No	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

Declassification Authority NND 923007

16. Tell in a few words the following things about the object.

a. Sound NO SOUND

b. Color FIGURES DK

17. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

18. The edges of the object were:

(Circle One): (a. Fuzzy or blurred)
b. Like a bright star
c. Sharply outlined
d. Don't remember

e. Other _____

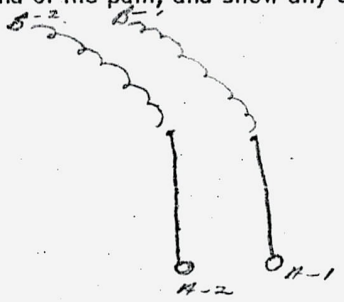

19. IF there was MORE THAN ONE object, then how many were there? 2.

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

Declassification Authority NND 923007

20. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

Rolling motion

21. IF POSSIBLE, try to guess or estimate what the real size of the object was in its longest dimension.
Will Guess ____ feet. SIZE OF BASEBALL

22. How large did the object or objects appear as compared with one of the following objects *held in the hand* and at about arm's length?

(Circle One):

a. Head of a pin
b. Pea
c. Dime
d. Nickel
e. Quarter
f. Half dollar
g. Silver dollar
h. Baseball
i. Grapefruit
j. Basketball
k. Other _____

22.1 *(Circle One* of the following to indicate how certain you are of your answer to Question 22.

a. Certain
b. Fairly certain
c. Not very sure
d. Uncertain

23. How did the object or objects disappear from view? FADED GRADUALLY

24. In order that you can give as clear a picture as possible of what you saw, we would like for you to imagine that you could construct the object that you saw. Of what type material would you make it? How large would it be, and what shape would it have? Describe in your own words a common object or objects which when placed up in the sky would give the same appearance as the object which you saw.

WOULD MAKE IT FROM FOGGY PLASTIC ABOUT THE SIZE OF A BASEBALL WITH A LIGHT INSIDE.

Declassification Authority NND 923007

25. Where were you located when you saw the object? *(Circle One):*

a. Inside a building
b. In a car
(c. Outdoors)
d. In an airplane
e. At sea
f. Other _____

26. Were you *(Circle One)*

(a. In the business section of a city?)
b. In the residential section of a city?
c. In open countryside?
d. Flying near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

27. What were you doing at the time you saw the object, and how did you happen to notice it?

ON Duty AS Spotter FOR GOC. SPOTTING AIRCRAFT.

28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

28.1 What direction were you moving? *(Circle One)*

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

28.2 How fast were you moving? _____ miles per hour.

28.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

29. What direction were you looking when you first saw the object? *(Circle One)*

(a. North)
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

30. What direction were you looking when you last saw the object? *(Circle One)*

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

MEMORANDUM FOR RECORD:

1. Telephone conversation between S/Sgt DeRudder, this headquarters, and Mr. [redacted] Continental Airlines Pilot, Denver.

2. The undersigned called Mr. [redacted] the pilot of a DC-3 which landed at Pueblo, Colorado, at the approximate time of the UFOB sightings reported in that town. Mr. [redacted] was queried as to cloud cover, searchlights, and any other unusual lights or objects he may have seen on his flight of that night. Mr. [redacted] stated that he did not observe any unusual objects, lights, or searchlights in the Pueblo area. The pilot further stated that he flew VFR in Colorado and that the only possibility of clouds he could remember would have been high scattered clouds in the southern Colorado area.

At 7:55 this morning Colonel McLann called Major Jones and inquired about the Pueblo UFOBs. Major Jones said you would call back and pass info:

Our score for last night was 2 meteors, 2 birds & 2 bats.

Preliminary evaluations are as follows:

1 May sighting - probably meteor

2 May sighting - possibly birds

3 May sighting - possibly meteors

5 May sighting - possibly aircraft

6 May sighting - no evaluation, more reports forthcoming

8 May sighting - probably meteor

A sighting on 9 May in Colorado Springs has been evaluated - was astronomical.

Air Force Investigating Unidentified Lights

Mystery Objects in Pueblo Sky

COLORADO SPRINGS, May 10—(AP)—Sightings of unidentified flying objects for six successive nights near Pueblo were reported Thursday by the Air Force.

The first report was made to the 4602d Air Intelligence Service Squadron at Peterson Field here by the Pueblo Ground Observer Corps.

Capt. Vincent Fintery, a member of the Air Force's Air Defense Filter Center here, said he knows of no attempt to investigate the sightings with interceptor aircraft.

There is no Air Force establishment at Pueblo, 44 miles south of here.

Sgt. Gilbert Nelson, a member of the Intelligence squadron, has been sent to Pueblo to investigate.

He reported he observed six appearances of the objects between 9 p.m. and midnight Monday.

"They were dull, more or less fluorescent glows," he said, "faint but bright enough to see. Most of them were triangular in shape, but one was round and brighter than the rest."

Nelson said the objects were visible for only five or six seconds at a time, so great was their speed.

The Air Force said it sent another team to Pueblo on Tuesday, but gave no report of its findings, if any.

Being a member of the L.O.C. and reporting for 2 hours of watch at the observation post Saturday May 5, 1956 I encountered 2 other L.O.C. personell there and was told about the flying ofjets they had been observing since Tuesday May 1, 1956. Personally I thought I had a couple goof balls on watch with me until a few minutes later convinced me my snap judgement was wrong. at 10:21 PM - 5/5/56 an object appeared traveling at a great rate of speed and maneuvered about for about 7 seconds. it first appeared green about the size of a silver dollar out of the west & turned headed north the color appeared green then it changed to Orange white with a little pink thrown in, a minute later another appeared looking the same color and traveled at a great rate of speed the height & distance away could not be defenitely told as a comparison of any ofject is impossible at night

Declassification Authority NND 923007

there is definitely no sound of motor no exhaust trails but one thing I noticed in common was the leading edges good of a Red glow this isn't a brilliant glow but bright enough to distinguish it. About 7 seconds are all they can be seen

I have seen 12 of these objects starting 5/6/56 1 — 5/6/56 / 5/7/56 5/8/56 and the large delta wing object Sunday 5/6/56 — between 9 + 10:30 P.M. MOSTLY

One object was brilliant Emerald Green & started off due west heading East at a terrific speed it cut an arc A ° ——— ° B 95° in 1½ minutes approximate

Another object was brilliant white size of a pea it was observed for about 1½ minutes and traveled about 60 miles before disappearing this one was observed by binoculars.

The delta wing object appeared overhead + was spotted by one of the observers his remark was "good god what is that thing." directly overhead was the object which I have drawn for you there was no sound of any motor jet or otherwise. The bottom was Green Blue the leading edge was red not a brilliant glow the rear parts as drawn were faint white. The object wasn't traveling

Declassification Authority NND 923007

as fast as the others we observed, it headed south & the rear view of the object could be seen it looked like the personell of any bus viewing the city, dipped slightly to the East & circled towards East over the city & maybe as far as the steel mill. then turned East & I saw it shoot off at a good amount of speed - some other members may not have traced it as far East as I did

The information I have given you is not for publication in any way. If there is any further information you desire feel welcome to write, phone etc.

I hope this information will be of some help to the Air Force.

On May 6th 1956, I was an interested spectator at the U.S.C. Post atop the County Court House Building, sometime between 9 and 10 o'clock P.M. I saw a Delta-winged shaped object come directly overhead from the Northeast, it turned slightly to the left & proceeded South for a ways & then turned left again & went out of sight in a Southeast direction. This object was in view for approximately 20 seconds, the leading edge of the object showed Red, then further back from the leading edge it had an orange color, then Yellow. No noises such as exhaust or similar sounds were emitted. No movements other than the travel of the object were noted. Object appeared to be traveling at High rate of speed, & due to size of object & color was visible for quite some time.
