14 COMMENTS A check of the Radio Facility Charts and Georef map of the area reveals that the observer is located with a aerodrome on the east, an aerodrome on the west and a beacon light to the north. It is the opinion of this headquarters that the observer has been seeing a combination of lights, i.e., lights of aircraft circling the above airports and the beacon light to the north of the observer. The flight path to Edwards AFB is located over the observer's house.
