I. CONTENTS:

PART ONE: Reliability of Mrs Anne Chamberlin, 2740 Ludwig Street, Ponbroek, Pennsylvania, (GJPL 1118).

II. SUMMARY: Unidentified Flying Objects were sighted by [REDACTED] GOC Observer at Harrisburg, Pa, on 12 July 1955 as well as on previous occasions. As directed by Headquarters 4602d AISS per telephone conversation, 13 July 1955, a telephonic investigation was conducted by Flight 3F to determine reliability of SOURCE. SOURCE was interviewed by telephone on 13 July 1955 and her immediate USAF supervisor was contacted and questioned regarding her reliability on 15 July 1955. This reliability report is a result of interviews with SOURCE AND with source's immediate USAF supervisor. The Commanding Officer of the 648th AC&W Squadron, which made all of the preliminary UFOB reports in these cases, and the officer who had conducted the preliminary investigation were contacted but neither could give any information regarding SOURCE'S reliability.

I. SOURCE: [REDACTED]

Address: [REDACTED]

Age: 42

Occupation: Housewife

Qualifications: [REDACTED]

II. RELIABILITY: On 13 July 1955 Mrs Anne Chamberlin, was telephonically interviewed concerning her sightings of UFO's to determine her reliability. Mrs Chamberlin advised that she was 42 years of age, that her sole occupation was that of housewife, and that she possessed no technical education or experience along these lines. She stated further that she is an observer for the Ground Observer Corp, Harrisburg, Pennsylvania and that she has observed similar sightings as those she reported over a period of 4 1/2 years, since operation "Skywatch" began. She stated that she had been alone when observations were made but that other observers during periods of duty had reported similar observations. [REDACTED] could not specifically describe these and alternately referred to these as tinsel, paper and/or cardboard of silver color with yellow centers. During entire conversation [REDACTED] was unable to be specific concerning observations and described objects differently each time. It was difficult to maintain conversation on this topic alone as SOURCE continued to emphasize her desire to be cooperative and of her patriotic regard of duty at present and of her efforts during the war as woman. Based on above, it appeared that [REDACTED] was ever-zealous in her desire to be of service, and because of these factors and lack of technical background, reliability of SOURCE is rated as poor.

S/Sgt Arthur E Bray, AF 19 387 463, Det 4, 4670th GOC, Harrisburg, Pa was telephonically interviewed and advised that he is USAF supervisor of [REDACTED] and described her as tending to be somewhat eccentric. Sgt Bray stated further that he believed [REDACTED] to be sincere, however she was overly cooperative and often exaggerated. Sgt Bray stated that she has made such observations over a long period of time and that he has expended a great amount of time at [REDACTED] post but was never able to observe or verify such sightings. It was therefore Sgt Brays opinion that reliability of [REDACTED] in these matters would be rated as poor.
