13 AISOP FORM 5 13 July 1955		
14 COMMENTS This headquarters has received a total of three (3) UFOB reports from this source within the last week. Two of these reports were very fantastic and this headquarters doubts the veracity of the reports. Flight 3-F has been authorized to investigate the reliability of the source. After the results of the investigation and the return of the ATIC Form 164 which was sent to the observer, analysis and evaluation will be made, results to be recorded hereon.

AISS-9MEMORANDUM FOR RECORD

1. Telephone conversation between A/IC DeRudder, Headquarters, 4602d AISS, and 1/Lt Copas, Flight 3-F, 4602d AISS.
2. It was requested that Flight 3-F conduct a telephonic investigation to ascertain the reliability of the observer of three (3) separate UFOB sightings at Penbrook, Pennsylvania.
3. It was suggested that the investigator exercise extreme care in the interrogation of the source and to use the pretext of helping the source with the ATIC Form 164 which was mailed to her by this headquarters.
4. A complete write-up of the investigation was requested.

SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112-Part II.)

I. CONTENTS:

PART ONE: Reliability of [REDACTED]
 Penbrook, Pennsylvania, (GJPL 1118).

II. SUMMARY: Unidentified Flying Objects were sighted by [REDACTED] Harriburg, Pa, on 12 July 1955 as well as on previous occasions. As directed by Headquarters 4602d AISS per telephone conversation, 13 July 1955, a telephonic investigation was conducted by Flight 3F to determine reliability of SOURCE. SOURCE was interviewed by telephone on 13 July 1955 and her immediate USAF supervisor was contacted and questioned regarding her reliability on 15 July 1955. This reliability report is a result of interviews with SOURCE AND with source's immediate USAF supervisor. The Commanding Officer of the 648th AC&W Squadron, which made all of the preliminary UFOB reports in these cases, and the officer who had conducted the preliminary investigation were contacted but neither could give any information regarding SOURCE'S reliability.

AIR INTELLIGENCE INFORMATION REPORT

FROM (Agency)	REPORT NO.	PART ONE
Flight 3F, 4602d AISS		PAGE 1 OF 1 PAGES

I. SOURCE:

[REDACTED] Pennsylvania

Age: 42

Occupation: Housewife

Qualifications: [REDACTED]

II. RELIABILITY: On 13 July 1955 [REDACTED] was telephonically interviewed concerning her sightings of UFOs to determine her reliability. [REDACTED] advised that she was 42 years of age, that her sole occupation was that of housewife, and that she possessed no technical education or experience along these lines. She stated further that she is an [REDACTED] Ground Observer Corp, Harrisburg, Pennsylvania and that she has observed similar sightings as these she reported over a period of 4 1/2 years, since operation "Skywatch" began. She stated that she had been alone when observations were made but that other observers during periods of duty had reported similar observations. [REDACTED] could not specifically describe these and alternately referred to these as tinsel, paper and/or cardboard of silver color with yellow centers. During entire conversation [REDACTED] was unable to be specific concerning observations and described objects differently each time. It was difficult to maintain conversation on this topic alone as SOURCE continued to emphasize her desire to be cooperative and of her patriotic regard of duty at present and of her efforts during the war as an auxiliary policeman. Based on above, it appeared that Mrs Chamberlin was ever-zealous in her desire to be of service, and because of these factors and lack of technical background, reliability of SOURCE is rated as peer.

S/Sgt Arthur F Bray, AF 19 387 463, Det A, 4670th GOC, Harrisburg, Pa was telephonically interviewed and advised that he is USAF supervisor of Mrs Chamberlin and described her as tending to be somewhat eccentric. Sgt Bray stated further that he believed [REDACTED] to be sincere, however she was overly cooperative and often exaggerated. Sgt Bray stated that she has made such observations over a long period of time and that he has expended a great amount of time at [REDACTED] post but was never able to observe or verify such sightings. It was therefore Sgt Brays opinion that reliability of [REDACTED] in these matters would be rated as peer.
