DATE FORM 5 30 Jan 56		
COMMENTS Contradictory statements (contrails 15,000 feet below object, and a ceiling of 20,000 feet) precludes accurate analysis of this sighting. The duration of the sighting, the fact that there were aircraft in the area at the time of the sighting, and the fact that the object seemed to pace the contrail, indicates the possibility of an aircraft generated sighting.		
CONCLUSIONS POSSIBLY AIRCRAFT
