For \$194, a UFO Package Deal

Anchorage, Alaska (AP) — If you want an inside look at a Japan Air Lines pilot's recent claim that he saw a UFO, the Federal Aviation Administration will send you everything it has about the incident for \$194.30.

The complete package includes tapes of interviews with crew members, spaceship drawings by the JAL pilot and air controllers' statements, even four glossy color photos of regenerated radar data.

The unusual FAA mail-order offer is an effort to cope with enormous public interest in the November sighting, said spokesman Paul Steucke. Since the pilot's claim was publicly disclosed, the FAA's Anchorage office has received information requests from more than 200 members of the news media, as well as 46 requests from individuals.

The agency is also offering 20 individual

items, ranging from a \$50 cassette tape of communications between the controllers and the flight crew to a 30-cent copy of an FAA form summarizing the sighting. Orders of less than \$5 are free. The FAA address in Anchorage is 701 C St., Box 14, Anchorage, Alaska 99513.

JAL Capt. Kenjyu Terauchi reported on Nov. 17 that his Boeing 747 cargo jet was shadowed by two belts of light as it crossed into Alaska on a flight from Iceland. Terauchi also reported seeing a huge spaceship the size of two aircraft carriers. He radioed the sighting to Anchorage FAA flight controllers, who saw what they thought was an object on their radar screens.

Philip J. Klass, an editor with Aviation Week and Space Technology and a longtime investigator of claimed UFO sightings, said the pilot was actually seeing an unusually bright image of the planet Jupiter and possibly Mars.

DEAR SIR:

MY NAMED IS MARVIN SMITH FROM
MANCHESTER, NEW HAMPSHIRE. YOUR
GOVERNMENT HAS BEEN COVERING UP ON
UFOS FOR A VERY, VERY, LONG TIME NOW.
AND NOW YOU WANT TO RELEASE IT TO
THE AMERICAN PUBLIC, THAT'S COOL, BUT WHY
SHOULD WE PAY YOUR GOVERNMENT \$194.30.
FOR THIS INFORMATION ON THOSE AIR PILOTS
WHO SAW THE UFOS.

YOU HAVE KNOW RIGHT OF MAKING US PAY
FOR THAT INFORMATION, YOU WERE THE ONES
WHO COVER IT UP IN THE FIRST PLACE, NOT
US. YOUR GOVERNMENT DON'T WANT US TO
~~PAID~~ PANIC, THAT'S WHY. WE ARE GOING TO
PANIC SOON ALL LATER. I THINK YOUR
GOVERNMENT IS AFRAID WHAT MIGHT
HAPPEN, THAT'S WHY YOU RELEASE THIS
INFORMATION TO THE PUBLIC. NOBODY IS
GOING TO BUY THAT TAPE FOR SO MUCH
YOU MUST BE KIDDING.

I KEEP UPDATE ON ALL THE UFO SIGHTINGS AROUND THE WORLD. I HAVE A NOTEBOOK ON UFOS, COVER-UPS, LIFE IN SPACE. I EVEN GOT TAPES ON MESSAGES FROM UFOS AND OTHER TAPES I HAVE ON UFOS. I ALSO KNOW ABOUT THE SPACE ALIENS INVASION, THEY COULD ATTACK EARTH IN 1993. A LOT OF MY FRIENDS ARE IN UFOS JUST LIKE ME. WE TRY TO GET AS MUCH INFORMATION AS WE CAN.

WE DON'T WANT TO BUY THE TAPE, BUT WE WOULD LIKE MORE INFORMATION ON PAPER ABOUT THE JET PILOTS WHO SAW THE UFOS IN THE SKIES. IF YOU CAN'T SEND US ANY INFORMATION A LETTER WOULD BE NICE. TIME IS RUNNING OUT FOR THIS PLANET, EVEN PRESIDENT REAGAN IS JOIN FORCES WITH SOVIET PREMIER LEADER MIKHAIL GORBACHEV. THEY HAVE SATELLITES ALREADY IN EARTH ORBIT WHICH WILL FIRE THEIR LASER RAYS AT ATTACKING ALIENS STARSHIPS WHILE THEY ARE STILL IN DEEP SPACE.

THEY ARE ALIENS ON THIS PLANET KNOWS ABOUT THIS AND THEY ARE READY TOO. SO THEREFORE YOUR GOVERNMENT DON'T STAND A CHANCES OF WINNING. BESIDES YOUR GOVERNMENT STARTED IT FIRST, NOT THE ALIENS. THEY COME TO EARTH TO TALK PEACE AND YOUR GOVERNMENT BELOW THEM OUT OF THE SKIES AND THEN YOU COVER-UP. YOUR GOVERNMENT WAS WARN BEFORE ABOUT SENDING MISSILES IN SPACE. AND NOW THE ALIENS ARE NOT PLAYING AROUND. AND THAT'S THE REAL REASON.

UFO WEAPON DIRECTED BEHAVIOR OF STALIN'S DAUGHTER TO LEAVE RUSSIA AND COME TO UNITED STATES TO LIVE.

Scientists Discover How to Read Minds by Decoding Brain Waves

In the most incredible breakthrough in the history of mankind, top American scientists have unlocked the secret of the brain — and are using electronics to read minds!

Employing an amazing technique, University of Missouri researchers have actually been able to monitor brain waves — and decode them into words.

Already, stunned experts are terrified the technique can be turned into a diabolical "tool of terror" — to steal military secrets, read the minds of world leaders, destroying privacy and ultimately enslave entire populations.

And the CIA is monitoring the stunning development.

"We are aware of the work — and we are following it," CIA spokesman Dale Peterson revealed to The ENQUIRER.

Even Dr. Donald York, a neurophysiologist and co-developer of the technique — admits: "Our findings could be open to abuse in the wrong hands. Secrets of the brain will be secrets no longer!"

In extensive tests, Dr. York and his colleague, speech pathologist Dr. Thomas Jensen, read the thoughts of about 40 subjects.

Their only tool was an electroencephalograph (EEG) machine — a device that picks up brain wave patterns and traces them on paper.

After attaching the EEG's electrodes to a subject's scalp, the scientists asked the person to repeat a specific word.

REPEAT

through," declared Dr. Henry Montell, a top physicist at Sandia Laboratories, one of the country's most prestigious research facilities.

But Dr. Montell — who has worked on weapons and computer projects — warned of the technique's dangers.

"Russians could kidnap the secretary of defense, attach him to a brain wave decoding EEG computer — and know all our military secrets, our

"These patterns were generated when the subject thought the word."

Although the work is still in its early stages, the researchers are already able to identify brain wave patterns for about 27 words and syllables.

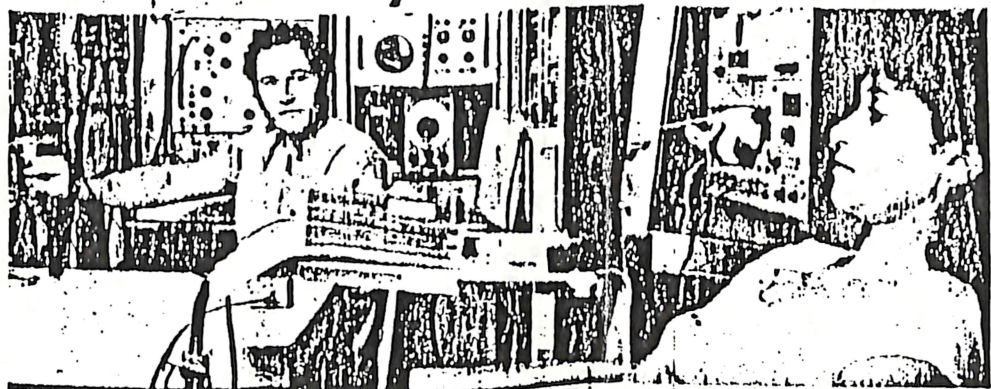

"And so far there is no end in sight!" says Dr. Jensen.

"It's an incredible break-

They recorded the brain wave pattern which occurs right before the subject uttered the word. Astonishingly, the researchers found that the word had its own characteristic pattern.

And, incredibly, when the subjects merely thought the word without actually speaking it out loud — the pattern still appeared.

The scientists realized that words, whether just thought of or spoken, had their own unique brain wave patterns. "We broke the code of the brain!" declared Dr. York. "We discovered that reading a person's thoughts was a matter of recognizing certain brain wave patterns."

MONITORING INSTRUMENTS, neurophysiologist Dr. Donald York reads the thoughts of a volunteer by checking her brain wave patterns.

weak points and strengths."

He added, "We would have no secrets from the government, the police or the IRS."

Former Interrogation expert L.H. Hitchcock — who worked for U.S. Army Intelligence for 30 years — told The ENQUIRER:

"This scares me. Used improperly, or in the wrong

hands, it would be disastrous — a tool of terror."

American military attaches stationed around the world could be kidnapped — and classified information could be stolen by reading their brain waves, he warned.

Dr. Frank Mesich — a nuclear physicist and a chemist who is a top executive with a computer research firm — declared:

"The next step in brain wave decoding is to utilize electromagnetic waves produced by the brain so that it would not be necessary to attach electrodes to the subject's scalp."

The brain waves, travelling like a radio signal, could be tuned in on a receiver operated by a spy — and then fed into a computer that would decode the brain wave patterns into words.

Marcel Vogel, a senior IBM scientist who helped develop advanced memory systems for computers, added: "It's like a James Bond thriller. It is a wonderful breakthrough."

but with potentially disastrous results."

Said Dr. Montell: "With brain wave decoding capabilities plus nuclear energy, a country could rule the world."

But used properly, mind reading could be a great boon to mankind. For example, Dr. York said the technique would allow a stroke victim who lost his powers of speech to communicate.

The patient's brain waves would be fed into a computer, put into words and then transformed into speech played through a loudspeaker. Already Dr. York and Dr. Jensen are programming a computer with a brain wave vocabulary to make this possible.

Dr. George Constant — a psychiatrist and neurologist who is co-director of the dept. of electroencephalography at Citizens Memorial Hospital in Victoria, Tex. — concluded: "It's fascinating... a real breakthrough."

President Jimmy Carter

On September 5, 1977, when the spacecraft Voyager I was launched, its destination was the far reaches of the galaxy, its mission was to explore three planets. Fifteen days later, Voyager 2 was launched on the same mission—to fly by the galaxies outer planets, encountering Saturn in 1981 and Uranus in 1986.

On March 13, it was announced that the planet Jupiter, the first of the three to be probed, was encountered on schedule.

Discovered were the first active volcanoes (outside the earth's) in the solar system, on Io, one of Jupiter's major moons; its highly sensitive and ultra-sophisticated equipment disclosed that volcanic ash and dust are shooting out of Io's six active volcanoes at speeds more than 1,000 miles per hour.

The knowledge being gleaned by the spacecraft probes as they conduct a scientifically detailed investigation of our neighboring planets, will be of enormous significance.

This thought was prominent in the minds of scientists and world leaders everywhere as news of the probe reached home.

One of the messages placed on board both spacecraft as they left earth veering into the unknown

nearly two years ago, was one by President Jimmy Carter, himself interested in the enigma of outer space:

"This is a present from a small distant world. A token of our sounds, our science, our images, our music our thoughts and our feeling. We are attempting to survive our time so that we may live in yours. We hope, someday, having solved the problems we face, to join a community of galactic civilization, and; we send our good will to a vast and awesome universe..."

Carter's interest and concern with outer space and the phenomena it presents stems from the time he was Governor of his home state of Georgia, when he saw a UFO.

His sighting took place in October, 1969. A member of the Lion's Club, Mr. Carter had been waiting with others outside the club's headquarters for their 7:30 meeting to begin.

Describing the UFO, Jimmy Carter added that it appeared "blueish at first—then reddish—but not solid."

At the time, he told the International UFO Bureau in Oklahoma City that the UFO "came close, moved away, came close again, and then moved away. It appeared as bright as the moon."

The UFO was visible for an estimated ten to twelve minutes during which time it changed shape and color. The UFO made no sound and was sharply outlined. The press, in publicizing the incident, said it was "a big, shining light in the shape of a flying saucer hovering overhead."

The incident was mentioned on the Paul Harvey national radio program, and newspapers across the southern portion of the United States headlined it as one of the biggest UFO sightings in history. The object was estimated to be "maybe 300 to 1000 yards away."

Towards the end of 1978, President Carter had asked NASA to take a bigger interest in UFO while they probe the unknown universe. □

Stopping Americans' abuse of Valium and other tranquilizers has been the goal of Dr. Sidney Wolfe and his consumer advocate agency for more than a decade.

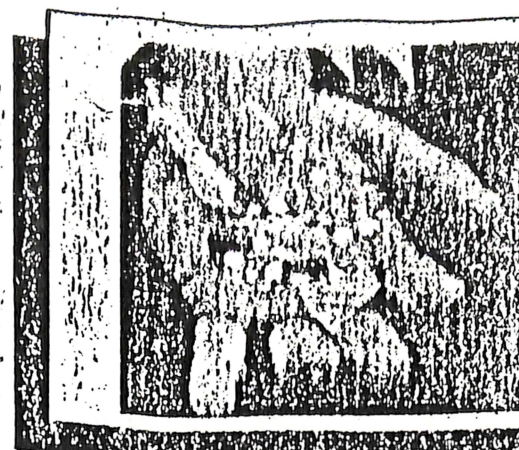

In his new book, "Stopping Valium" (Warner Books, \$5.95), the director of the Public Citizen Health Research Group, along with co-authors Dr. Eve Bargmann and Joan Leylin, attacks drug companies that tout how Valium delivers peace of mind to tense, irritable people.

The nation's 10 million-plus tranquilizer users rarely know the important facts about harmful side effects, Wolfe writes. Valium and similar drugs can cause loss of memory and alertness, impaired driving, confusion, hallucinations, periods of sudden rage, addiction and death.

Through clever advertising, drug companies underplay the side effects of tranquilizers, he says. "Drug companies train doctors, who train people that there are chemical solutions for every ill," Wolfe said in a recent interview in Detroit. "And that's a dangerous philosophy."

INSTEAD, HE said, most benzodiazepines — the basic chemical in Valium and similar drugs — merely mask symptoms caused by stressful situations. "Prescribing Valium or any tranquilizer for a situational problem is like giving a man with a broken leg morphine for his pain and telling him to keep walking," Wolfe writes.

These drugs, designed to calm and relax, should not be used as a substitute for problem-solving or psychotherapy, he says. Instead, he prescribes talking about stress and tension with counselors and friends. "You need a certain amount of stress and anxiety to move the world forward,"

Where to look for help

Michigan treatment centers for Valium or related drug users include the Office of Substance Abuse Services, Department of Public Health (call 1-517-373-8803, 8 a.m.-5 p.m. weekdays); the Veterans Administration Medical Center Drug Dependence Treatment Program (call 1-800-555-1212 anytime); and the Licensing, Evaluation and Data Service, National Institute on Drug Abuse (call 1-517-373-8358, 8 a.m.-5 p.m. weekdays).

he counsels. "You shouldn't blunt it out."

More than 70 million prescriptions for the tension reliever Valium and its chemical cousins — Librium, Ativan, Centrax, Dalmane, Paxipam, Restoril, Serax, Tranxene and Xanax — were filled in 1980, Wolfe writes.

Of the 10 million Americans who take drugs from the Valium family, 1.5 million may become addicted after prolonged use, facing withdrawal symptoms such as anxiety, convulsions and nausea — symptoms often more serious than those experienced by heroin users. More than 8,000 emergency room visits a year result from tranquilizer addiction, and about 4,500 people each year enter drug treatment centers for care, Wolfe writes.

FOR THOSE hooked on tranquilizers, he suggests a three-step withdrawal plan: a professional evaluation of the

addiction problem; detoxification, or gradual reduction in drug use; and counseling, to cope with stress without drugs. Other sources of help are Veterans Administration medical facilities and branches of the National Institute on Drug Abuse.

He attributes the 45 percent drop in Valium use since 1980 to the nation's focus on communication and to exercise, another method of tension relief.

Wolfe advises tranquilizer users to talk with their doctors about the possibility of addiction, and about why they need the drug. If the doctor tries to say he or she knows best and denies the problem of abuse, then find another physician, he says.

On occasion, Valium and similar tranquilizers are neces-

sary to induce sleep or treat severe epilepsy. In these cases, Wolfe has rules for safer use of tranquilizers, including prescriptions for fewer than 20 pills, no refills, a daily self-evaluation of tension problems and reduced dosages, in consultation with a doctor.

Because tranquilizers dull alertness and can be deadly in combination with other depressants or medication, Wolfe warns against driving, drinking alcohol or using birth control pills while taking Valium or similar drugs. He also says elderly people should not take drugs in the Valium family because the drugs can cause confusion, which is mistakenly branded as senility. Pregnant women should not take the drugs because they can cause birth defects.

And he cautions against taking tranquilizers during times of grief; mental problems could develop, he says. "The grief reaction is delayed and surfaces a year or two later, out of context."

Although "Stopping Valium" offers little that's new, its concise form and clear writing give consumers a comprehensive picture of tranquilizer use and abuse.

Wolfe and Bargmann, a part-time consultant and researcher with the Public Citizen Health Research Group, both specialize in internal medicine. Leylin is the group's lawyer. Wolfe, well known for his fight against drug abuse, also has written "Pills That Don't Work" (Farrar, Straus, Giroux, \$6.95) and "Over the Counter Pills That Don't Work" (available from the research group for \$7; write: Public Citizen Health Research Group, 2000 P. St. NW, Washington, D.C. 20036).

Currently, the research group has pending suits against the federal government and drug companies. In one \$3 million suit, a woman who took prescribed amounts of Valium for 10 years claims Hoffmann-LaRoche did not inform her doctor about possible side effects, such as addiction.

By DAN SCHWARTZ

WARNING! As many as 20 million Americans are taking powerful tranquilizers — unaware that these dangerous drugs can damage their brains and cause severe mental illness, psychiatrists say.

The culprit drugs are powerful tranquilizers and include the brand names Mellaril, Thorazine, Prolixin, Haldol and Ritalin, the experts say.

"Between 10 million and 20 million Americans are being given these major tranquilizers for a variety of problems when they

shouldn't be," declared Dr. Robert Seidenberg.

"These drugs — which are supposed to control psychiatric disorders — are themselves triggering other seri-

ous psychological problems."

Some people who take these drugs actually develop paranoia, an irrational fear of other people, or schizophrenia, a severe mental dis-

order in which a victim loses touch with reality.

Others become extremely passive, almost zombielike, with uncontrollable facial tics and movements of the

body, Dr. Seidenberg explained.

Still others experience radical mood swings, from deep depression to wild euphoria. Often the damage is irreversible, he added.

Schoolchildren are given the drug Ritalin to control problems of hyperactivity, Dr. Seidenberg pointed out, adding:

"This indiscriminate use of these drugs is absolutely unconscionable."

Another psychiatrist, Dr. Peter Breggin, agreed:

"Approximately 10 million Americans are unfortunately receiving these drugs when they shouldn't be.

"Psychiatrists must stop prescribing them. Their use cannot be justified, considering their dangerous side effects, no matter what a person's psychological condition is.

"These drugs are toxic to the brain — they cause a progressive deterioration of the brain."

Dr. D. Frank Benson, a neurologist, agreed: "Most assuredly, major tranquilizers can produce dementia (brain damage) in patient who take them on a long term basis."

Experts interviewed for the article above were Dr. D. Frank Benson, professor of neurology, UCLA; Dr. Robert Seidenberg, clinical professor of psychiatry, State University of New York's Upstate Medical Center, Syracuse, and Dr. Peter Breggin, psychiatrist and author of "Psychiatric Drugs: Hazards to the Brain."

(Washington, D.C.) - A decision is expected soon in the appeal of a Freedom of Information Act lawsuit against the U.S. Central Intelligence Agency for the release of over 200 documents on Unidentified Flying Objects.

The legal effort is being pressed by Ground Saucer Watch, Inc. of Arizona and Citizens Against UFO Secrecy, a Washington-area public interest organization.

The organizations are appealing a Federal District Court decision which allows the agency to keep over 200 pages of UFO documents secret. A hearing in the appeal took place on May 1 in the U.S. Court of Appeals in Washington.

Part of the cost of the litigation was provided by the Fund for UFO Research, Inc., a scientific, nonprofit organization which channels public contributions into UFO research and education projects.

"Organizers of the Fund await the court's decision with extreme interest", says Chairman Bruce Maccabee, a physicist.

" I HAVE VISITED MARS "

MARS IS INHABITED

MORE THAN A DECADE AGO, NARCISO GENOVESE STARTED A GRAND SCANDAL BY PUBLICLY ANNOUNCING THAT HE HAD TRAVELED TO MARS.

HE DID NOT SPEAK OF TELEPATHY "CONTACT" WITH EXTRATERRESTRIALS SOMETHING THAT IS SO "IN" TODAY, BUT RATHER OF A TOTALLY PHYSICAL TRIP TO THE RED PLANET, WHICH WAS PATRONAGED BY ITS OWN INHABITANTS.

AT THAT TIME HIS CASE PRODUCED VIOLENT CONTROVERSY, MANY PEOPLE THOUGHT IT WAS MERELY FANTASY, WHILE OTHERS THOUGHT THAT THE VISIT TO MARS HAD TRULY TAKEN PLACE.

TODAY WHILE THE THEME OF UFOS AND THE EXTRATERRESTRIAL VISITS HAVE SURFACED AGAIN.

GENOVESE'S FAMOUS BOOK, RELATES HIS BIZARRE EXPERIENCES AND HAS PUBLISHED IT IN GERMAN AND SPANISH, IT HAS BEEN BROUGHT BACK BY POPULAR DEMAND BY THE PEOPLE WHO ABSORBED HIS PREVIOUS EDITIONS AND THERE IS NO END IN SIGHT.

AS THE READER CAN PROVE, NARCISO GENOVESE'S EXPERIENCES IS ONE OF THE MOST SIGNIFICANT IN THE HISTORY OF "CONTACTS".

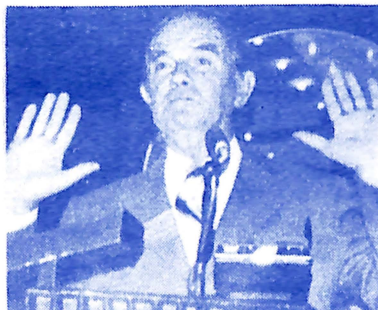

STUDENT OF THE WISE GUILLERMO MARCONI, OWNER OF A CULTURE AND SCIENTIFIC FORMATION THAT IS ASTONISHING, HAS HAD NO DIFFICULTY IN BACKING HIS AFFIRMATIONS DOWN TO THE LAST CONSEQUENCE.

HE HAS HAD NO COMMERCIAL INTEREST, NOR ANYTHING LIKE THAT, ONLY THE STRONGEST CONVICTION THAT HE HAS TO COMMUNICATE HIS EXPERIENCE TO THE WORLD. IT IS BECAUSE OF HIS CONVICTION THAT WE SAY THAT HIS CASE IS THE ONLY AUTHENTIC ONE AND SHOULD BE KNOWN BY AS MANY PEOPLE AS POSSIBLE.

NARCISO GENOVESE

NARCISO GENOVESE EXPOSING HIS EXPERIENCES DURING THE FIRST NATIONAL CONGRESS ON THE PHENOMENON OF UFO'S CELEBRATED IN OCTOBER OF 1976 IN GERMANY

IMARTE ESTA HABITADO!

Hace más de diez años, Narciso Genovese produjo todo un escándalo al anunciar públicamente que había viajado a Marte. El no hablaba de un "contacto" telepático con seres extraterrestres —lo que está tan de moda actualmente—, sino de un viaje enteramente físico al planeta rojo, auspiciado por sus propios habitantes. Su caso produjo violentas polémicas en aquella época, ya que para muchos sólo se trataba de una mera fantasía, mientras que para otros la travesía y la visita a Marte realmente se habían efectuado.

Ahora, cuando el tema de los OVNIS y las visitas extraterrestres han cobrado actualidad de nuevo, aparece el famoso libro donde Genovese narra su experiencia. Publicado ya en alemán, vuelve a imprimirse a petición del público que absorbió las anteriores ediciones con una rapidez sin precedentes.

Como podrá comprobar el lector, el caso de Narciso Genovese es uno de los más significativos en la historia de los "contactos". Discípulo del sabio Guillermo Marconi, y dueño de una cultura y una formación científica impresionantes, no ha tenido reparos en sostener sus afirmaciones hasta las últimas consecuencias. No ha habido en él interés comercial ni cosa parecida, sino exclusivamente la firme convicción de que debe comunicar al mundo su experiencia. Es en este sentido que decimos que su caso es único y debe ser conocido por el mayor número posible de personas.

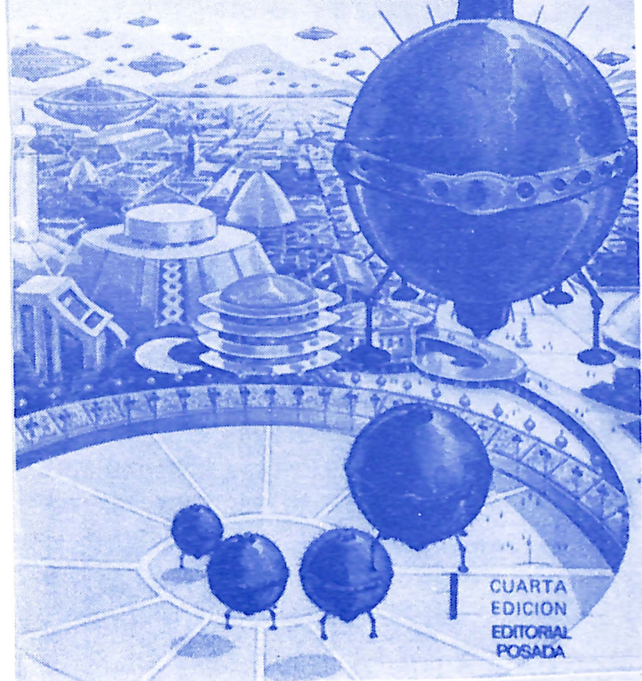

Narciso Genovese exponiendo su experiencia durante el primer Congreso Nacional sobre el Fenómeno OVNI, celebrado en octubre de 1976.

FROM THE SKY TO THE EARTH

Adoniesis warns:

You travel upon an extremely dangerous road! Among all the disasters which you create, that which thrives upon your animal lasciviousness is the worst, the most depraved for the spirit. You know very well against Whom you proceed if you continue perservering in this diabolic tendency. You know well that there is no hope of salvation.

To confuse the Universal Law with these practices means the second and total death of the spirit and in consequence a long and atrocious suffering.

You cannot understand clearly what I want to tell you, but I assure you that when you are able to understand, by the sake of experience itself, it will be too late to be able to emerge from the well of desperation in all its cold and dark profundity and thus desperation will be your only companion in that place during the interminable period of the second death.

Turn! Turn! Turn away for all temptation of this kind because in truth I say to you: IT IS A TERRIBLE THING TO SUCCUMB TO ANY TEMPTATION. THE CONSEQUENCES ARE TERRIBLE AND PAINFUL IN THE EXTREME.

Believe me, I implore you to believe me.

May my light illuminate you.

According to what is heard and seen, it is not difficult to understand that this generation is dangerously nearing the horrible tendency of sodomy which caused the complete destruction of Sodom and Gomorra. We have irrefutable but undivulgable proof that the sensual frenesi unleashed impels both men and women toward relations with animals.

It is the complete destruction of all moral order!

It is the total destruction of spiritual values!

It is man's return to the level of animals!

It is the disintegration of all the senses!

PORNOGRAPHY

About this problem Adoniesis says: It is an aberration of the physical environment which destroys slowly and inexorably the natural emotions and the most exalted sentiments of your spiritual being. It is a diabolical tendency that impels all the inhabitants of Sodom and Gomorra toward the progressive degeneration until reaching the confines of your generation wherein it speaks of its most cynical outcome. In this tendency which has impelled the peoples of Sodom and Gomorra to the limits of God's tolerance and has attracted "The Wrath of His Holy Justice", with the consequences that are known to you. Do you wish to suffer the same end? Continue and you will surely suffer it!

Is it possible that you still don't understand the True Law which governs you? You could change your infernal existence if only you would consent to loving with moderation and discernment. You have a conscience that speaks clearly to you, but you listen with difficulty. I tell you: you are no better than the animals when you act thusly, you are inferior to them. You are not the governors of that which has been conceded to you by God but are disciples of the Malignant; you are the scum of the vilest species. This is a cruel destiny for man who has the privilege of being able to represent God on earth. Meditate and think.

Yours, ADONIESIS

Regarding organ transplants ADONIESIS SAYS:

Earthly medical science is on the way to committing terrible crimes as to the spiritual development. To mutilate a body before the third day, that is, before the redimensioning process has been realized, signifies a disengagement of the psycho-physical connexions that continue to subsist on the dimension levels, which levels continue to be ignored by earthly medical science.

To remove a vital organ, before the third day, causes irreparable harm to the deceased. He is deprived of the indispensable necessity to conceive experience and transfer it on a spiritual-soul plane, on which plane reside all the other lived experiences. But the science of this planet which ignores this immutable law (a law confirmed by the Universal Genius of Jesus Christ), allows itself to be won over by the illusory conviction that such art does not result in any harm and the practice of it constitutes a benefit for mankind. I affirm that this art purports an enormous injury, quite irreparable, one which permits the most horrible crimes ever committed by mankind. The way taken by earthly medical science to conquer the anomalies of the cardiac muscle and of the other deteriorated vital organs, deteriorates by negativity. This way is false and heavy with unhappy twists too numerous to mention. I limit myself to place in evidence the reality of these subconscious acts which your science realizes with a light-hearted cynicism devoid of all sense of Christian responsibility.

It is certain that while you do not recognize the harmony in the elements that govern the energy structures of the vital force, you —and we even less— will not be able to resolve the painful question of your diseases, physical as well as mental. Numerous terrestrials ask themselves why we don't forcibly intervene in order to radically change these negative situations that afflict human nature. My reply to this is that your obdurateness impedes such action, as you do not wish to create those conditions which we ask of you.

Your science believes itself capable of resolving everything by means of manipulating the matter, ignoring the positive eternal values that are present, albeit invisible, in the matter, and which values govern the structural harmony of all its components which manifest themselves as much in the physical dimension as in the superior soul-spiritual dimension. One of these values, positive and eternal, is the law of refusal, the innate incompatibility in the energy structures as one organ relates to another. It is a law that acts and determines, even if your science guesses it and would like to change the determination, which, temporarily impeded, remains latent and willing to react against the smallest traumatic disorder in psychic activity. I confirm that the transplants are terrible crimes and their consequences are immensely serious.

I have spoken.

UFO IDENTIFIED FOR A PRICE

For \$194.30, FAA sends tapes, drawings and color photos

ANCHORAGE, Alaska (AP) — If you want an inside look at a Japan Air Lines pilot's recent claim that he saw a UFO, the Federal Aviation Administration will send you everything you ever wanted to know about the incident for \$194.30.

The complete package includes tapes of interviews with crew members, spaceship drawings by the JAL pilot and air controller statements, even four glossy color photos of regenerated radar data.

The unusual FAA mail-order offer is an effort to cope with enormous public interest in the November sighting, said spokesman Paul Steucke.

Since the pilot's claim was publicly disclosed, the FAA's Anchorage office has received information requests from more than 200 members of the news media, as well as 46 requests from individuals.

Steucke said the information requests exceed those that fol-

lowed the 1983 downing of a Korean Air Lines jet by the Soviets. "Without a doubt, this thing has had the most inquiries," Steucke said.

For those on tight budgets, the FAA's UFO package can be broken down. The agency is offering 20 individual items, ranging from a \$50 cassette tape of communications between the controllers and the flight crew, to a 30-cent copy of an FAA form summarizing the sighting. Orders of less than \$5 are

free.

"We wanted to be as responsive as we can to the public. We don't want them to spend \$100 for data they don't need," Steucke said.

JAL Capt. Kenjyu Terauchi reported on Nov. 17 that his Boeing 747 cargo jet was tailed by two belts of light as it crossed into Alaska airspace on a flight from Iceland to Anchorage.

In an encounter that lasted

UFO/A-7

UFO

Continued from page A-1

about 50 minutes, Terauchi also reported seeing a third aircraft, a huge spaceship which he said was the size of two aircraft carriers. He radioed the sighting to Anchorage FAA flight controllers.

Philip J. Klass, an editor with Aviation Week and Space Technology and a longtime investigator of claimed UFO sightings, has investi-

gated the incident and concluded that the pilot was actually seeing an unusually bright image of the planet Jupiter and possibly Mars.

Klass said astronomical calculations show that on Nov. 17, Jupiter was extremely bright and was visible precisely where the pilot reported that he saw the UFO.

The FAA is scheduled to release on March 5 the results of its investigation of the sighting.

The FAA address in Anchorage is 701 C St., Box 14, Anchorage, Alaska, 99513.

Dear Sirs

I am writing for a price list and a description of all the material you have on the anchorage upo sighting of Nov 17, 1986. JAL FLIGHT 1628. a Boeing 747, piloted by Kenji Terauchi. I heard on the paul Harvey news Cast that the material was accessible to the general public, and is not Classified. which I find extremely interesting if not absolutely unbelievable. especially since the report is verified from three different locations. I'm really surprised that they have not tried to Censor or discredit the report, which is the normal procedure in such Cases. I'm just so glad that you have Thoroughly investigated and made it attainable to the general public. all of you have my deepest gratitude and admiration.

Dear Folks,

Enclosed is a copy of my recommended UFO publications, organizations, etc. for 1987. This listing is one that I have been doing for 17 years now and I use it as a "service" to worldwide correspondents and as handouts for my occasional illustrated lectures and for my students at the different college UFO courses I teach from time to time.

The listings include 58 sources for UFO information from the USA, Canada, England and Australia with 53 items coming from 19 different states.

Some of the items listed include old and current books, UFO membership organizations worldwide, Freedom of Information Act documents, symposium proceedings, cookbooks, sighting forms, T-shirts, bumper stickers, trivia booklets, phone hotline numbers, video film tapes, FAA kits, clipping services, UFO Museum prospectus, lecture flyers, book catalogs, UFO journals, magazines and other publications.

Since this is my 42 year of UFO investigation and research and since June 24, 1987 is the 40th anniversary of UFOs in modern times I have made this listing four pages long for interested persons desiring to find out more about the UFO subject from reliable sources. I have compiled this listing as a special project for the 3rd Annual National UFO Information Week, which this year is set to be observed the week of August 10-August 17.

If you are a book publisher, I would appreciate it very much if you would send me a complimentary copy of your UFO books if you have not already done so. You might want to keep me in mind for future listings also.

If you publish UFO journals, magazines, bulletins, newsletter, catalogs, you might run a free ad, telling persons that they can obtain the four page listings of recommended UFO items (58 sources in all) for 1987 by mailing me a long 39¢ stamped, self-return addressed envelope, along with a check for \$2, made out to me to help defray the cost of the printings for the "service."

If you are an interested person, publisher or whatever, I would appreciate it very much if you would talk it up with your friends to let them know of the UFO listing availability and how it can be obtained.

I want to thank you in advance should you have already done the above on my behalf? If you have future listings please keep me in mind.

PS Am helping to promote your FAA publications this way and plan to do some additional free and paid advertising as well. Hope you will in lieu of this send me some complimentary materials on the UFO incident.

Sincerely,

He gave out an address and said that ~~tapes~~ could be purchase concerning this incident.
