Dear Sirs:

I am interested in any information you may have regarding recent sightings of unidentified flying objects in the arctic region. I specifically refer to a large UFO sighted by the crew of an airliner en route from Reykjavik to Anchorage, which was reported to be as large as two aircraft carriers.

If you could supply me with any information regarding this sighting or any other sighting, including photographs and recordings of interviews with aircraft crew personnel, I would greatly appreciate it.

Enclosed is a check for \$25.00 to cover the cost of procurement of this information. Thank you for your cooperation.

Sincerely,

Matthew A. Bentley

Dear Mr. Engen:

I was quite interested to hear of the recent Japan Airlines UFO "sighting" that took place between Iceland and Anchorage. As an optometrist and perceptual lighting specialist, information regarding the nature of the "light belts" and the conditions during which they were observed could, potentially, prove quite significant in my ongoing research of the sensory aspects of color vision.

I am anxious to obtain relevant data concerning this incident. Would it be possible to obtain a copy of the official FAA report and a transcript of communications between the flight crew and ground controllers? Other data you may have on file could prove equally useful.

This information should be very helpful. I appreciate any assistance you may be able to provide.

Sincerely,

According to an article in the Chicago Tribune recently, it was stated that information pertaining to the incident of November of last year, involving the Japanese Air Lines pilot sighting of an Unidentified Flying Object, could be had by writing to request same. It was further stated that each form was 30 cent, and a cassette was 50 dollars. However, the article indicated that request of less than 5 dollars were to be provided free of charge.

I would like any and all information that can be obtained that total just under the 5 dollar limit for free information.

The Chicago also suggested that your agency was being deluged with similar request. I appreciate your taking the time to provide curious taxpayers such as me, with this information.

Thanking you in advance, for your anticipated favorable response.

Dear Sirs:

We are extreemly interested in obtaining information about the the Japan Air Lines sighting of a UFO last November somewhere above Anchorage.

We can't afford the \$194.30, but we would like to know what other materials, photos, any printed information, etc. on this spectacular event.

Were there any photos taken of the mother ship? How can we get the pilots spaceship drawings.

Enclosed is a self addressed stamped envelope for your convenience.

Thanks in advance.

Sincerely,

Tom Fee

Dear Paul -

I would appreciate it if you could send me some part of the "UFO" literature packet for my own information.

Incidentally, I heard your interview over National Public Radio some weeks ago, and I believe you did an excellent job with a unique subject!

I might point out that, re: my suggestion re: cockpit photo equipment, that film speeds of up to 10,000 ASA are possible today.

Best wishes

Dear Sirs:-

I read your P.R. article this morning in the San Francisco Chronicle and it obviously contains more dis- information and omissions than anything resembling the truth!

You left out the moral slappings cranked out by the FAA - "Swamp gas" You guys are slipping.

So begin with you did not include the fact that Captain Jernachi's entire crew witnessed exactly what he did and corroborated his account. Although the JAL Captain and his crew sighted the U.F.O.'s on Nov. 17, your people did not really convince yourselves that the peasants out there should know about it until January. What was the stall, hey? A fengleed hot line back and forth to Washington, trying to figure out some sort of a fairy tale?

In the seventh paragraph you state that Capt. Jernachi reported on Nov. 17 that his Boeing 747 cargo jet was shadowed by two belts of light - etc. In the following paragraph you say that "Jernachi also re- ported seeing a third aircraft" You said nothing about any other craft except "two belts of light."

In the same paragraph you write that: "He (Terauchi) radioed the sighting to Anchorage FAA flight controllers, who saw what they "thought" was an object on their screens". From Nov. 17 to January the story was changed and quite obviously the controllers were told by someone what they saw in November. To put it succinctly the picture on the radar screen had completely eroded from their minds! Voilà. Just like those guys during the Watergate hearings. One after the other lost their recollections completely.

You neglected to mention a second sighting by Captain Terauchi and his crew.

It is a mystery to me how Philip Klass can explain to Captain Terauchi what he and his crew witnessed for approx. 50 minutes and then again at another time thereafter.

How can you people crank out such utter drivel? Do you feel O.K.? I don't believe what I read. We are not all dummies out here, you know!

Yours truly,
Mr. Zane Boychuk.
