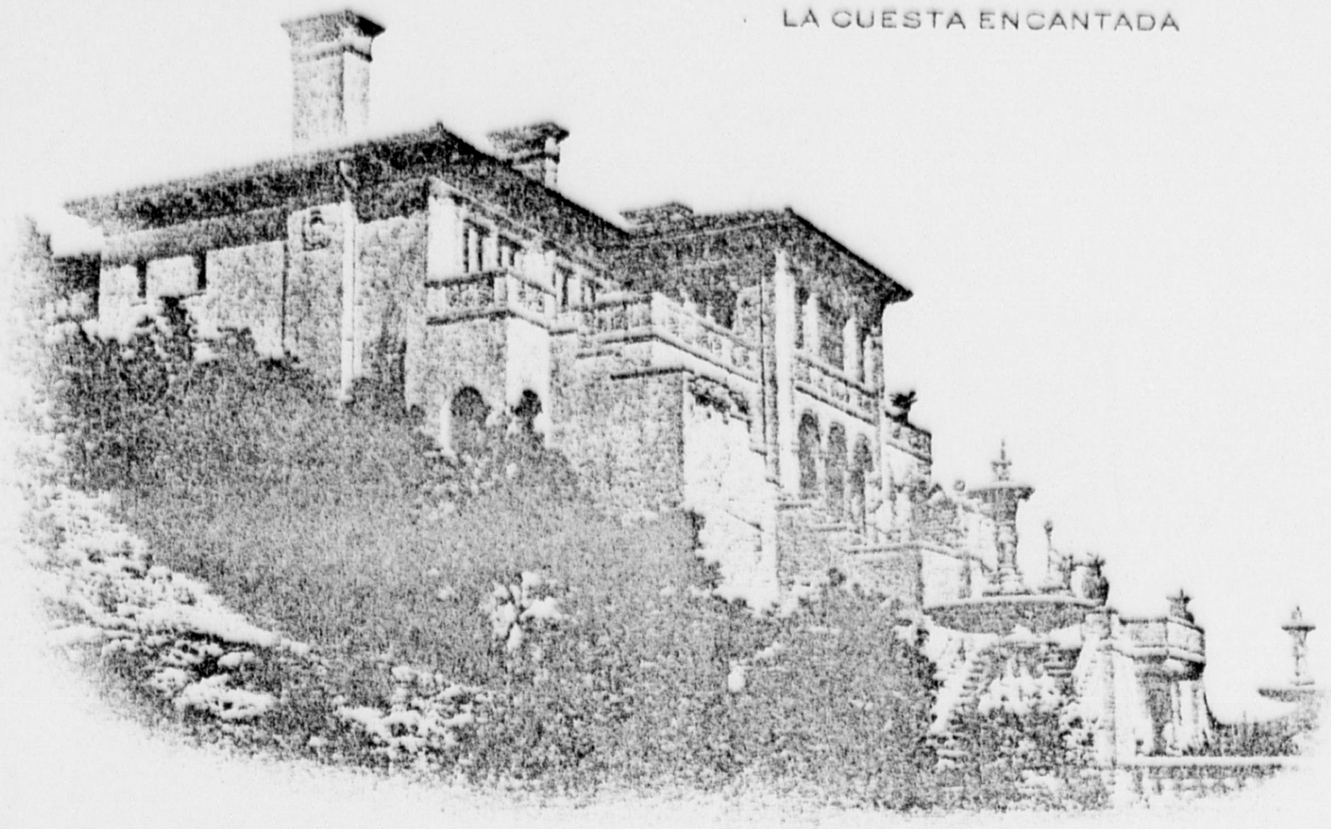
NARRATIVE SUMMARY:



LA CUESTA ENCANTADA

CASA DEL MAR

SAN SIMEON, CAL.

This is not main building, only a guest cottage, of which there are three, I have been with Mr. [redacted] for 21 years. You may have heard of him, I took time off from Sept. 42 to Sept. 45 to go in the armed forces, was 6 months overseas, returned to castle am night na chaman, was as when I saw the dises, which was after the last of October, did not know of any one to write to, about them. I am the only one in the Past, so concluded to write you. There were only a few of the early at time I saw the dises all dead altho we did not get any one sick

5-31

Diagram of what I saw. What the
headlights are
distance between two, about 3 miles
Mt. Rainier
Tacoma
valley.
direction of discs.
direction of discs. apparently 18 miles.
no obstruction
my position about
1 mile south of path of discs.
approximately 100 feet lower than discs.
atmosphere perfectly clear. no moon.
Cable
discs going at high speed. about two
minutes apart. all on same level.
continued from 9. A.M. until 11. A.M. two hours.

Paul since I predicted that I did
not get them up. but thought
they would like it if I could
get them there. I first noticed three
dives making my first round of the
night. at 9. A.M. same one. then nothing
of course to wonder about it. had heard
of dives before. well I stood there and
counted 16. coming at about two
minute intervals. started on around.
they kept coming, so just kept watch-
ing them. kept going until noon
0. Clock, saw about 60 of them.
all emerged from behind Red Rock
went out of sight behind Pat Garrity.
this is no special allusion. I
don't know. so that this is rather
in the hills. about 1900 feet above
sea level. about 4 miles from sea
shore. dives were tracking from
back in hills. toward coast, direc-
tion a little So. of West.

guess this is about all I can tell you. but I can dream them and no guess work about it. regret very much I was alone.

Very truly yours

[redacted]

San Simeon, Calif.

P. S. would appreciate hearing from you in regard to it

Following is copy of letter forwarded by Headquarters Sixth Army, Presidio of San Francisco, California, written by [redacted]

"San Simeon, Calif 4/12/49
To Gen Mark Clark

Dear Mr Clark,

Am writing you in regard to what I witnessed one night in late September, possibly some-thing no other person has ever seen. have wanted to write someone about it, but did not know whom to write, so saw clipping in S. F. Examiner last night, which I enclose. On about Sep 28, I was on duty at the castle, at night, at 9 o'clock was making my rounds. Saw a light going between the two mts, stopped to look at it. In about two minutes another. Of course I began to wonder, stood there and counted 16 discs pass between the two peeks. had of course read of flying discs. Well I watched them then. Kept coming at two minute intervals until eleven o'clock they were traveling at very high speed. This is mountainous country have often wondered where they could have come from, were apparently flat from where I stood. seemed to be about 20 in, in diameter.

Give you a little of my background so you will not think I have been seeing things. have been with Mr. Hearst for 21 years when the war come along I volunteered at age of 62 years in coast guard, served 3 years until Sep 1945, come back to ranch, spent most of my time in San Francisco, guard on the Embarcadero on ships and docks. Hoping this will be of some service to you.

I am, Yours Very truly,

[redacted]

P.S. these discs emerged from behind Red Rock and passed out of sight behind Pat Garrity.

[redacted]

_____ INCLS.

P.P.S. saw something Apr 6. 49, which is very mysterious to me and also to others whom I have talked to about it. Was also at night. Do not know if it would be of interest to you, so will not write about it unless requested to do so --

M.P."
