Incident 312

Name and address of observer: Miss

Limona, Florida

Occupation and hobbies: Public Health Murse

Comments of Interrogator relative to intelligence and character of observer(s):

Appeared of high integrity and average intelligence but her estimates of speed and size is perhaps below normal.

MARRATIVE SUMMARY:

It was in sight for approximately fifteen minutes and had the appearance of an extremely bright moon with a rag ed flaming border but was not so bright as to blind the observer. The flaming border seemed to droop at the bottom, forming a short ragged tail-like effect. When first seen it appeared to be about the size of a dinner plate. When last seen, after it had moved some distance away, it appeared to be about the size of a tea saucer.

The object was first sighted to the west of the observer behind tree tops, it then rose with a quivering motion to about the height of a fourteen-story building. Then it moved slowly back and forth, up and down, and from side to side with an irregular quivering motion, working its way toward the west to eventually disappear below the horizon. The movements were not rapid.

There was no evidence of a trail or exhaust. No smoke and no odor. There were no clouds, haze, or smoke reportedly by the observer.

The object shone with a steady light for the entire period of observation.

There were no apparent means of support, propulation, or control. There were no air ducts, slots, or openings.

The estimated speed was similar to that of an airship, perhaps from twenty to forty miles per hour. It made no sound.

It disappeared from sight by dropping below the horizon.

APPROVED 1 JUNE 1948 (LEAVE BLANK) COUNTRY U. S. A. AIR INTELLIGENCE INFORMATION REPORT SUBJECT Unidentified Flying Object AREA REPORTED ON FROM (Agency) Intelligence Officer, MacDill AFB, Fla. Tampa, Fla. DATE OF REPORT DATE OF INFORMATION **EVALUATION** F-3 9 May 1949 4 May 1949 PREPARED BY (Officer) SOURCE Miss

USAF Air Intelligence Requirements Memo Number 4, dated 15 February 1949

SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112-Part II.)

At 0500Z, 3 May 1949, Wiss the front porch of her home in Limona, Florida (near Tampa, Florida) a bright shining object about the size of a dinner plate in the sky. Object estimated to be one-half mile to five miles away from observer when first sighted. It remained in sight about fifteen minutes, rising to an angle of about twenty degrees above the horizon before dropping again to disappear behind the horizon.

Significance of this report is unknown to reporting officer.

Intel. O., MacDill AFB, Fla.

REPORT NO.

PAGE

OF

PAGES

At 0500Z, 4 May 1949 Miss age 60, witnessed from the front porch of her home in Limona, Florida, a bright, shining and flaming object in the sky. This object was estimated to be anywhere from one-half mile to five miles away when first sighted. (Not knowing the size of the object she was unable to make a good estimate of the distance). When first sighted the object was shining through the tree tops but later rose to an angle of about twenty degrees above the horizon before dropping again to disappear behind the horizon.

It was in sight for approximately fifteen minutes and had the appearance of an extremely bright moon with a ragged flaming border but was not so bright as to blind the observer. The flaming border seemed to droop at the bottom, forming a short ragged tail-like effect. When first seen it appeared to be about the size of a dinner plate. When last seen, after it had moved some distance away, it appeared to be about the size of a tea saucer.

The object was first sighted to the west of the observer behind tree tops, it then rose with a quivering motion to about the height of a fourteen-story building. Then it moved slowly back and forth, up and down, and from side to side with an irregular quivering motion, working its way toward the west to eventually disappear below the horizon. The movements were not rapid.

There was no evidence of a trail or exhaust. No smoke and no odor. There were no clouds, haze, or smoke reported by the observer.

The object shone with a steady light for the entire period of observation.

There were no apparent means of support, propulsion, or control. There
were no air ducts, slots, or openings.

The estimated speed was similar to that of an airship, perhaps from twenty to forty miles per hour. It made no sound.

It disappeared from sight by dropping below the horizon. The following information is relative to the observer.

Miss decorpation: Graduate Public Health Nurse, employed by the City of Tampa Public Health Department, Tampa, Florida. Miss has no pertinent hobbies. Her color perception is good, her ability to estimate speed and size is only fair and perhaps below average. Her reliability as an observer should be excellent. No other observations of a similar nature have been made by her. Her attention was drawn to this sighting by her two dogs barking loudly in the yard and when she got out of bed to investigate the disturbance the light of the object attracted her attention. The dogs stopped barking soon after Miss Sherman came out into the yard. She was not able to establish what had aroused the dogs as everything outside in the yard seemed in order.

There were no other reported witnesses of this event, however an unconfirmed report reveals that several school children and one adult witnessed a similar object a few days previously.

Missetherman's report seemed completely reliable and she seemed a person of high integrity, average intelligence, and good character.

Officer who interviewed Misself and prepared original report upon which this account is based is: First Lieutenant Reuben N. Norman, AO-689887, Group Intelligence Officer, 307th Bombardment Group, 307th Bombardment Wing Medium, MacDill Air Force Base, Florida.

Following is MacDill Air Force Base weather report at the time of the incident.

6459Z observation: Ceiling 25,000 feet, thin broken 6/10, 8 miles visibility, Sea level pressure1021.7, temperature 74°, dew point 68°, wind east at 6 mph, altimeter setting 30.16.

1500Z winds aloft: Surface -- 90° at 4 k; 1000 ft-70° at 18 k; 2000 ft-60° at 12 k; 3000 ft-60° at 13 k, 4000 ft 60° at 12 k; 6000 ft-60° at 13 k; 8000 ft - 60° at 10 k; 10000 ft-60° at 15 k; 12000 ft-60° at 18 k; 14000 ft-50° at 17 k; 16000 ft -60° at 19 k; 18000 ft-60° at 21 k; 20000 ft-40° at 23 k; 25000 ft-40° at 28 k; 30000 ft-60° at 10 k.
