#### SECTION D

22. In the following sketch, imagine your eye at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" to show where it was when you last saw it.

23. In the following sketch place an "A" at the position the object was when you first saw it, and a "B" at its position when you last saw it.

24. Draw a picture that will show the motion that the object made. Place an "A" at the beginning of its path and a "B" at the end of its path.

*Since we saw the objects for an hour & a half it would be impossible to describe the flight in its entirety. They changed directions frequently.*

25. Draw a picture that will show the shape of the object. Label and include in your sketch any details of the object that you saw and place an arrow beside the drawing to show the direction the object was moving.

*Toward the South - traveling east & west.*

30. Please add here any further comments which you believe are important.  
Use additional sheets of the same size paper, if necessary.

Aug. 17th at about six P. M. My sister and her husband, my husband and two daughters a little neighbor girl and my self were standing in the front yard when one of us happened to look up into the sky and we sighted a round white object very high in the sky. We called our next door neighbors who were out in their yard at the time also and we all stood watching it. Suddenly we saw another one near it. We saw them clearly for a few seconds, then one disappeared and in about 15 or 20 seconds later. The other one also disappeared. They were very high toward center of sky, seemed to be silvery and luminous. We all saw them and agreed that they were definitely not air planes.
