TENTATIVE
OBSERVERS QUESTIONNAIRE - 4687.00

SECTION A

1. When did you see the object:

1.1 Date: Wed 5th November 1952
Day Month Year

1.2 Time of day: 6 PM _____ A.M. or P.M. (Circle One)
Hrs. Min.

1.3 Time Zone: (Circle One):

a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. (Daylight Saving)
b. Standard

1.4 Circle one of the following to indicate how certain you are of your answer to the above question 1.2:

a. (Certain)
b. Fairly certain
c. Not very sure
d. Just a guess

2. Where did you see the object?

[redacted] Washington D.C. U.S.A.
Postal Address City or Town State Country

3. Where were you located when you saw the object:

(Circle One): a. Inside a building
b. In a car
c. (Outdoors) seated on bench
d. In an airplane
e. At sea
f. Other _____

3.1 Were you:

(Circle One): a. In the business section of a city?
b. (In the residential section of a city?)
c. In open countryside?
d. Flying near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

2-73-7

4. How did you happen to notice the object? I was seated on my front porch and just happened to glance up at the time.

5. When did you report to some official that you had seen the object?

____ August 1952
Day Month Year

SECTION B

6. What were you doing at the time you saw the object? I had just walked out on the porch a few minutes previous looking aimlessly around.

6.1 What had you been doing for the 30 minutes before you saw the object? Try to list the activity or activities, and the approximate amount of time spent on each.

I can't remember doing any specific thing.

7. Were you moving at any time while you saw the object? (Circle One):

Yes or (No.)

IF you answered YES, then complete the following questions.

7.1 What direction were you moving?

(Circle One):

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

7.2 How fast were you moving? _____ miles per hour.

7.3 Did you stop at any time while you were looking at the object?

(Circle One): Yes or No

8. What direction were you facing when you first saw the object?

(Circle One):

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

8.1 What direction were you facing when the object disappeared?

(Circle One):

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

8.2 Circle one of the following to indicate how certain you are of your answer to the above two questions. (8 and 8.1).

a. Certain
b. Fairly certain
c. Not very sure
d. Just a guess

9. Were you wearing eye glasses when you saw the object? (Circle One):

Yes or No

10. How was the object seen?

(Circle One):

a. Through window glass
b. Through windshield
c. Through binoculars
d. Through telescope
e. Through theodolite
f. Through sun glasses
g. Through open space
h. Other _____

11. What do you remember about the weather conditions at the time you saw the object?

11.1 CLOUDS (Circle One)

a. Clear sky pretty sure
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds
e. Don't remember

11.2 WIND (Circle One)

a. No wind
b. Slight breeze
c. Strong wind
d. Don't remember

11.3 WEATHER (Circle One)

a. Dry
b. Fog, Mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

11.4 TEMPERATURE (Circle One)

a. Cold
b. Cool
c. Warm
d. Hot
e. Don't remember

SECTION C

12. Estimate how long you saw the object? ____ 10-15 ____
Hours Minutes Seconds

12.1 Circle one of the following to indicate how certain you are of your answer to Question 12:

a. Certain
b. Fairly sure
c. Not very sure
d. Just a guess

13. Did the object look: (Circle One) Solid or Transparent?

14. Did the object at any time:

(Circle One for each question)

14.1	Change direction?	Yes	No	Don't know
14.2	Change speed?	Yes	No	Don't know
14.3	Change size?	Yes	No	Don't know
14.4	Change color?	Yes	No	Don't know
14.5	Break up into parts or explode?	Yes	No	Don't know
14.6	Give off smoke?	Yes	No	Don't know
14.7	Change brightness?	Yes	No	Don't know
14.8	Flicker, throb, or pulsate?	Yes	No	Don't know
14.9	Remain motionless?	Yes	No	Don't know

15. Did the object give off a light? (Circle One): Yes No Don't know

15.1 IF you answered YES, what was the color of the light? bright red orange

16. Tell in a few words the following things about the object?

16.1 Sound I thought I heard a noise similar to that from a plane - It really did seem to come from the object

16.2 Color It was a bright red orange - the object came black

17. IF there was MORE THAN ONE object, then how many were there? ____
Draw a picture of how they were arranged, and put an arrow to show the direction they were traveling.

18. Did the object at any time:

18.1 Move behind something? (Circle One) Yes (No) Don't know

IF you answered YES, then tell what it moved behind.

_____

18.2 Move in front of something? (Circle One) Yes (No) Don't know

IF you answered YES, then tell what it moved in front of.

Something moved in front of it

18.3 Blend with the background? (Circle One) (Yes) No Don't know

19. Which of the following objects is about the same actual size as the object you saw? (Circle One):

a. Pea
b. Baseball
c. Basketball
d. Bicycle wheel
e. Office desk
f. Automobile
g. Small airplane
h. Large airplane
i. Dirigible
j. Other about the size of a breadbasket

19.1 Circle one of the following to indicate how certain you are of your answer to Question 19.

a. Certain
b. (Fairly certain)
c. Not very sure
d. Uncertain

20. Try to tell the following things about the object:

20.1 How high above the earth was it? I don't know at the time I felt I was very close _____ feet. a plane as high

20.2 How far was it from you? ? feet or ? miles

20.3 How fast was it going? object was not _____ miles per hour. at one time it did spin.

20.4 Circle one of the following to indicate how certain you are of your answer to the above questions:

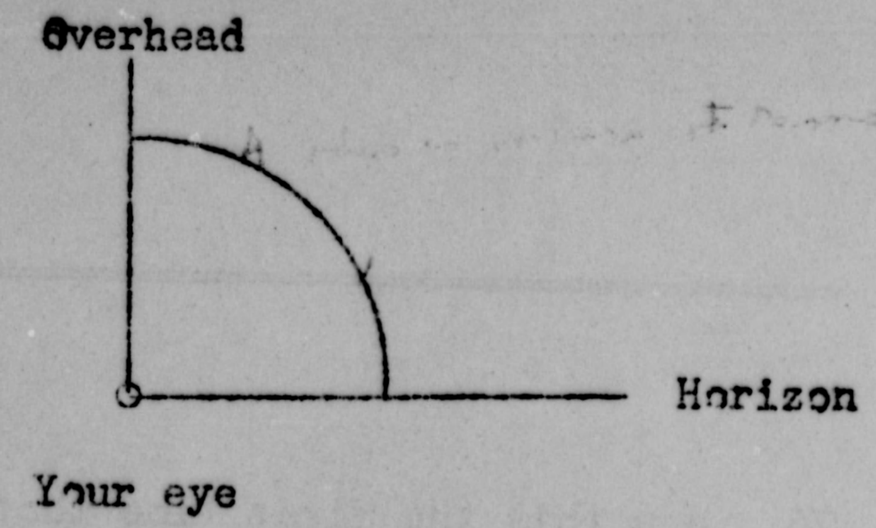

a. Certain
b. Fairly certain
c. Not very sure
d. Just a guess

21. How did the object disappear from view?

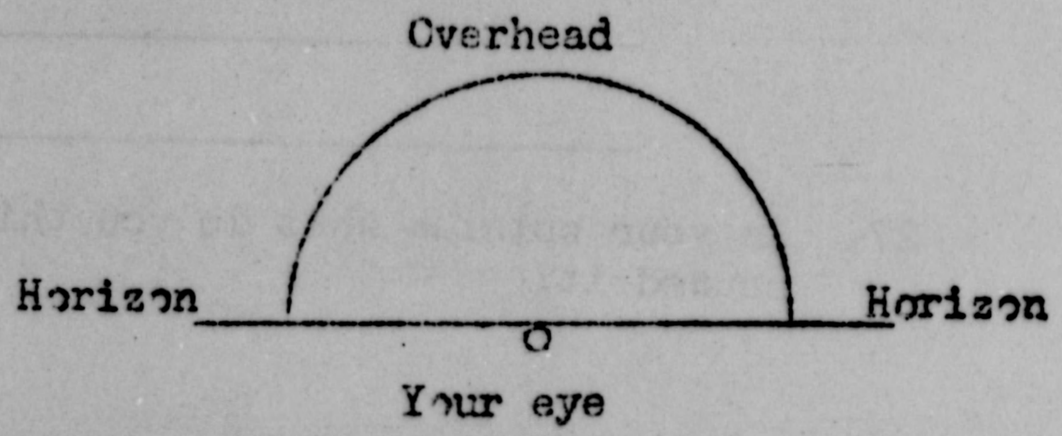

(Circle One): a. Suddenly
b. Gradually
c. Other Disappeared to have
d. Don't remember

SECTION D

22. In the following sketch, imagine your eye at the point shown. Place an "A" on the curved line to show how high the object was above the horizon when you <u>first</u> saw it. Place a "B" to show where it was when when you <u>last</u> saw it.

23. In the following sketch place an "A" at the position the object was when you first saw it, and a "B" at its position when you last saw it.

24. Draw a picture that will show the motion that the object made. Place an "A" at the beginning of its path and a "B" at the end of its path.

I seem to be repeating myself — the object never moved altho at one time it seemed to open but [illegible] very short time — the opening seemed to take place within its body.

25. Draw a picture that will show the shape of the object. Label and include in your sketch any details of the object that you saw, and place an arrow beside the drawing to show the direction the object was moving.

I will answer this question on page eight which will include complete information of the object as I saw it.

SECTION E

26. Was this the first time that you have seen an object like this?
(Circle One): (Yes) No

26.1 IF you answered NO, then when, where, and under what conditions did you see other ones? _____

_____

_____

27. In your opinion what do you think the object was and what might have caused it?

It is beyond my comprehension.

28. Give the following information about yourself:

NAME [redacted] [redacted] [redacted]
Last Name First Name Middle Name

ADDRESS [redacted] Washington D.C. _____ _____
Street City Zone State

TELEPHONE NUMBER [redacted]

What is your present job? Housewife and Mother - Part time Substitute

Age 42

Sex Female

Last School Attended Odd Class at Roosevelt High School

Year of last attendance at this school about 3 years ago

29. Was anyone else with you at the time you saw the object?

(Circle One): Yes or No

29.1 IF you answered YES, did they see the object too?

(Circle One): Yes or No

29.2 Please list their names and addresses:

30. Please add here any further comments which you believe are important. Use additional sheets of the same size paper if necessary.

SPOT INTELLIGENCE REPORT

SUBJECT: (Unclassified) UNIDENTIFIED SUBJECT(S):
Sighting of Unconventional Aircraft,
Westover AFB, Mass., 0045 hours,
5 August 1952

TO: Director of Special Investigations
Headquarters USAF
Washington 25, D. C.

INFORMATION COPY FOR CG, AMC

SYNOPSIS:

On 5 August 1952 a report was received at Headquarters, 1st District OSI (IG) USAF, Westover AFB, Mass., relative to a sighting of three (3) unidentified objects by three Airmen at Westover AFB, Mass. Details of interview with observers set forth. No activities or conditions developed that accounts for sighting.

DETAILS:

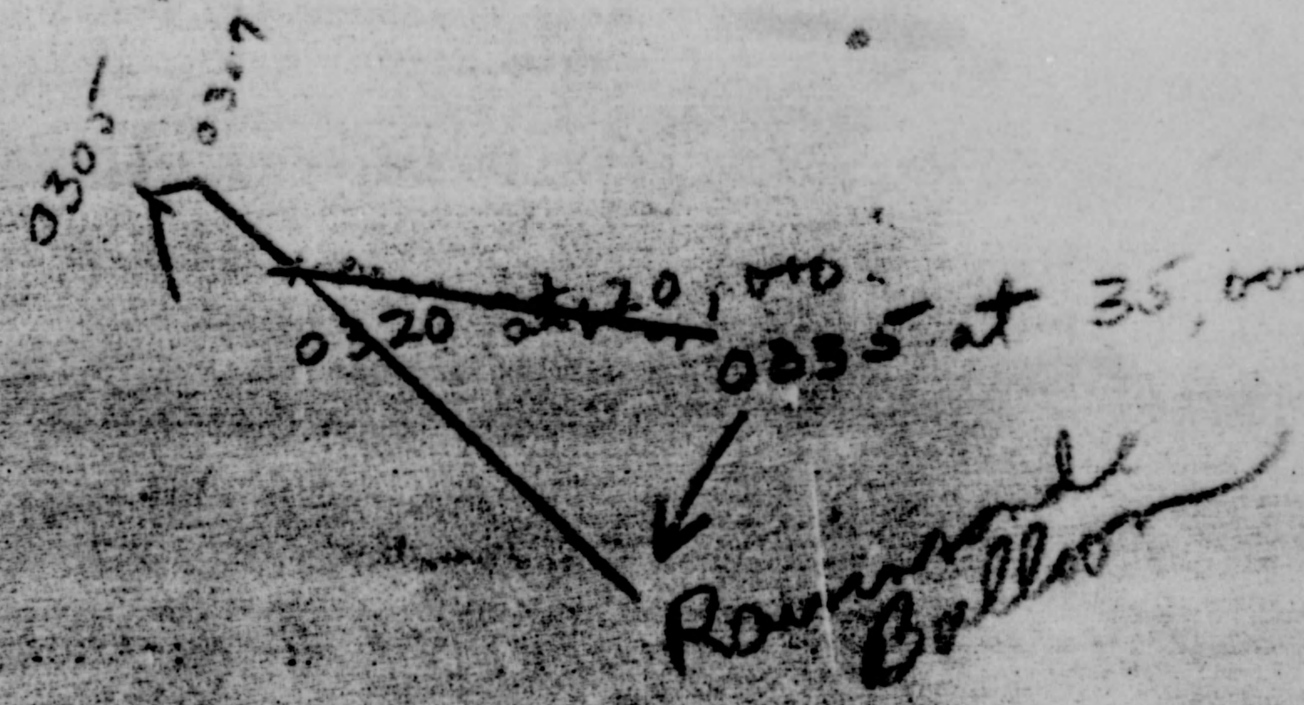

1. On 5 August 1952, a report was received at Headquarters, 1st District OSI (IG) USAF, Westover AFB, Mass., to the effect that three (3) unidentified object had appeared over Westover AFB, Mass., at approximately 0045 hours EDT, on 5 August 1952.

2. On 5 August 1952, A/2C [redacted], S Sgt [redacted], A/2C [redacted], all of the 15th Air Transport Squadron, Westover AFB, Mass., were interviewed by Special Agent JAMES J. HALPIN, JR., and offered the following information:

a. Description By [redacted] three bright white lights approximately the size of a discus with no aerodynamic features moving without sound or exhaust trail at a speed much faster than a jet plane, at an estimated altitude of six (6) to seven (7) hundred feet. By [redacted]

Three objects approximately the size of a white Very flare moving without sound or exhaust trail at an approximate altitude of 5000 feet at a speed greater than any plane ever observed by him. [redacted] described the objects as being of an indefinite shape, with the second object being half the size of the first object, and the third object being half the size of the second object. By [redacted] Three white lights, the largest of which was about the size of an automobile headlight, traveling at a speed much faster than a jet plane, without sound or shape.

NOTE: [redacted] and [redacted] were in wide variance regarding the altitude of sighted object but each insisted that the estimate of the altitude was correct.

b. Formation: By [redacted] Objects appeared to be moving in a triangular formation. Observer gave no estimate to the distance between objects, although he stated that they seemed to be almost within each other. The formation did not change during the maneuvers described in succeeding paragraphs. By [redacted] Objects appeared to be moving in a formation directly behind each other. Observer could not estimate the actual distance between the lights. The formation did not change during the maneuvers described in succeeding paragraphs. By [redacted] This observer's description of the formation corresponds to that given by [redacted]

c. Maneuvers: All three (3) observers stated that they first observed the lights to the north of the observation point and that the lights moved in a direct course from north to south over the north-south runway of Westover AFB, Mass. [redacted] stated he first observed the lights in a position approximately five (5) degrees above the horizon, and that they disappeared approximately 45 degrees above the horizon. [redacted] stated that the formation seemed to be climbing toward the part which he had under observation.

d. Manner of Disappearance: All observers stated that the lights disappeared suddenly at the same time, apparently going behind a cloud bank in the southern skies.

e. Time Sighted: All observers stated that the approximate time of sighting was 0045 hours, 5 August 1952 and that the total time of observation was from two (2) to five (5) seconds.

f. Manner and Location of Observation: No optical or mechanical aids were employed. All observers were standing in the parking space assigned to the 1600th Air Transport Wing Headquarters, which is located approximately in the center of Westover AFB, Mass. [redacted] and [redacted] noticed the objects first and called [redacted] attention to them.

g. Identifying Information on Observers: A/2C [redacted], is 21 years of age, a graduate of West Philadelphia High School and Radio Mechanic School at Scott AFB, and enlisted in the USAF on 26 August 1950. [redacted] assigned as a Form 5 Clerk in the 15th Air Transport Sq., Westover AFB, Mass., and has approximately thirty (30) hours flying time as a passenger and scanner. He has been familiar with aircraft in flight and on the ground for approximately two (2) years and attributes his ability to distinguish between conventional aircraft including jets, and other flying objects to good vision and training in aircraft identification received in the USAF. S Sgt [redacted], is 25 years of age, has six (6) years of service in the USAF and two (2) years with the U. S. Navy as an Anti-Aircraft Gunner. He has been an airplane mechanic for six (6) years with the USAF and has worked on multi-type aircraft. [redacted] has sixty-five (65) hours of flying time as crew chief on a C-54 type aircraft and has been selected as an aviation cadet. [redacted] considered that his experience with the Air Force, gives him the ability to distinguish between conventional aircraft and other flying objects. A/3C [redacted], is 20 years of age and has been a clerk-typist in the USAF for nine (9) months. He is a graduate of High School and the Clerk-typist course sponsored by the USAF at Missouri State Teachers College. He has no flying time and is familiar with aircraft types through observation and training in aircraft identification.

h. Weather Conditions: All observers described the sky as clear to the north, with scattered clouds in the southern portion of the sky. Weather conditions at 0025 EST, 5 August 1952, were reported by the Weather Service, Westover AFB, Mass., as follows: Ceiling 1500 to 2100 broken, visibility 8 miles, wind south at 10 knots.

i. Existing Conditions that might Account for Sighting: None; however, records were checked at the Operations Center, 60th Fighter-Interceptor Squadron, Westover AFB, Mass., and reflected that there was no jet activity over Westover AFB, Mass., at the time of alleged sighting. No other evidence connected with this sighting could be established.

ACTION:

Two (2) copies of this report have been forwarded to the Commanding General, Air Material Command, Wright-Patterson Air Force Base, Dayton, Ohio, Attention: MCIB, and one (1) information copy for the Commander, Atlantic Division, MATS. No further action is contemplated by this District Office.

1. The following article appeared in the Singapore Standard Newspaper on 5 August 1952.

'SAUCER' SEEN OVER PENANG

Penang, Mon.- Several residents in Tanjong Tokong believed that they saw the flying saucer travelling at a great speed from the direction of the sea towards the land twice last night.

At 7:40 p.m., they first saw a very bright round "object" travelling from the sea towards the land. About two hours later, another similar object was seen speeding in the same direction.

One Chinese resident said today that the "object" travelled at a terrific speed without any noise. When it was overhead, the size was like that of a moon, but it was very high up in the sky.

"Suddenly, it disappeared before I could look at it carefully", he said.

Last Thursday evening, excitement was also caused in Ayer Itam when villagers there noticed a bright "saucer" speeding across the sky.

The object was said to have radiated a bright greenish light and disappeared behind the hills near Bukit Penara.

AIR INTELLIGENCE INFORMATION REPORT

FROM (Agency)	REPORT NO.	PAGE 2 OF 2 PAGES
3540th Flying Training Wing Pinecastle Air Force Base Orlando, Florida	IR-33-52	

Between 0700 and 1010 hours 5 August 1952, an unidentified object was observed over Orlando, Florida, by [redacted] of Roosevelt Park, Orlando, Florida.

The object appeared to be a solid silver ball, with no audible sound or visible exhaust. The diameter of the object was estimated to be slightly less than the length of T-33 type aircraft.

The object was first observed at 0700, hovering at an estimated 5000 feet altitude. Object was in sight approximately ten minutes when it flew east towards the main section of Orlando at a very high rate of speed and disappeared. This was repeated several times in the next three hours, with duration of sightings ranging from three to ten minutes.

At each sighting the object appeared to hover, with little or no lateral or vertical movement, and then leave the area at a very high rate of speed.

Just prior to acceleration the object appeared to glow, as though from intense heat.

At 0930 hours 5 August 1952, the object was observed by [redacted], and [redacted] Orlando, Fla. These observers were on top of the Angebilt Hotel when they observed an object hovering above the city. Movement and description of the object was identical to that as described by [redacted] and [redacted]

At the time of sightings visibility was unlimited, with 7/10 coverage of cumulus clouds.

No interceptions were made and no photographs were taken.

The observers have had no previous experience in aircraft observation.

Aircraft from this base were flying in the vicinity during period of observation, but there were no reports of unidentified objects received from the pilots. No aircraft from Macdill Air Force Base, Patrick Air Force Base, or Sanford Naval Air Station were reported in this area during time of observation.

Major, N.S.A.F.
Air Adjutant General
Dear Sir:

Herewith is the questionnaire you sent me, filled out to the best of my ability.

I was a 12 year old boy that was with me with the Masters duty, me Accounts Dept. at 1257, 21st Street, in the

sky, at about 1500 - 2000 feet, we saw it. The "Flying Saucer". It was in the sky long enough to call the office, and ask the secretary, if a naval report blimp objects in the sky. and the secretary asked "the Boss" if it was U.F.O. & she said, he says report it immediately, to the air force & say what we saw. I proceeded to ask a lot of questions by the Sheriff certain. and that's, as to me I was sketching what I was looking at. Certainly I was excited, especially in that time, the way conditions are in the world.

Now, I ask to have, don't track afraid this to any one, as it is a matter of grave importance, we will keep it as a "Military Secret". The Sheriff turned white, he was that scared, and said I promise.

I have only known this report to my knowledge & did not contact the secretary about it, but will if you request so.

Hoping that I have been able
to do my duty in some small
way for Our Holy country, for which
I have the most profound respect.
If I can be of further service
please let me know.

Very Sincerely,

[redacted]
