Dear [REDACTED]:

Your recent report of unidentified aerial phenomena has been received by the Air Technical Intelligence Center. Inclosed is a questionnaire, which, when completed by you and returned in the inclosed, self-addressed envelope, will aid in standardizing the data and will provide a complete record of the occurrence.

Your interest in reporting the matter and your public spirited desire to be of service are greatly appreciated.

Sincerely yours,

ROBERT E. KENNEDY

Sir; I don't know if what I am reporting will be of any help to you or not but since you have asked that people report any strange objects or lights seen in the sky I thought perhaps it is my duty to report this.

Last evening at eight o'clock I was sitting on my front East porch and happened to turn my eyes to the southeast and there was a strange light in the sky. It seemed far away and was about as high as the sun at about 1 1/2 hours up. It seemed about four or five times as large as the morning star but a different color and much brighter. The light was much brighter than a star with an extremely bright center with an orange color periphery. It did not seem to be moving at all. I sat and

watched it intently for an estimated
one minute. Then it suddenly went out
like turning off a light. It definitely
was not a meteor. A neighbor, [REDACTED]
[REDACTED] also saw it.

(Circle One): Yes or No

29.2 Please list their names and addresses:

30. Please add here any further comments which you believe are important.
Use additional sheets of the same size paper, if necessary.

In regards to Question 20, these objects were merely lights. I have not the slightest idea how high they were, so I cannot estimate their speed. However, the hills to the North-East are between 2000 and 3000 feet, and assuming the objects were at an altitude equal to the hills, my speed estimate for them would be 1200 to 1500 miles per hour.

These lights were definitely not:

1. meteors
2. balloons
3. Jet aircraft
4. a hallucination
5. Reflections from the city
(there was no surface to reflect.)

I have a commercial pilot's license with Instrument and Multi-Engine Ratings. My license number is ~~XXXXXXXXXX~~. I have seen many meteors and jet aircraft. These lights were neither. My home is situated on the ~~XXXXXXXXXX~~ Alameda Naval Air Station, and I can assure you I am familiar with seeing them over my head at all hours, mainly at 0300 at about 400 ft. They make enough noise to take off the roof, and these lights (which I first assumed to be navigation lights) were soundless.
