LENGTH OF OBSERVATION a Insufficient Outa for Evaluation The Unknown 2 sec 11. COMMENTS IO. BRIEF SUMMARY OF SIGHTING

Civilian pilot, an inactive AF reserve captain, sighted a flaming orange-red football shaped object traveling on collision course with his light a/c Object pulled up and shot over windshield moving in opposite direction from course of plane. Object was traveling at 700 mph.

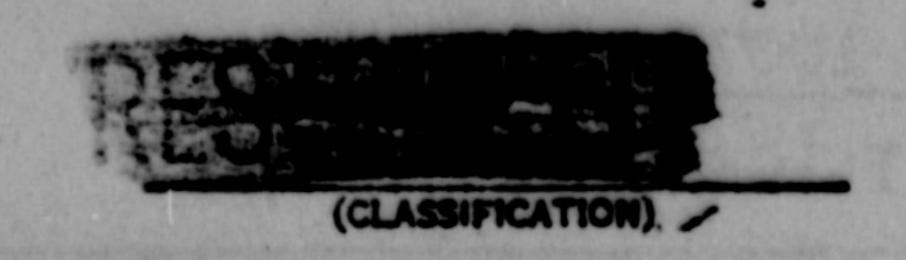

1. The brevity of observation and the description give the impression of a meteor. However, the objects change of direction upward is inconsistent with this theory.

### AIR INTELLIGENCE INFORMATION REPORT

FROM (Agency)	REPORT NO.			
57 Broad St., New York 4, N. I.	2b-0-16b	PAGE	OF	PAGES
NAME OF THE OWNER, OF THE OWNER, OF THE OWNER, OF THE OWNER, OWNER, OWNER, OWNER, OWNER, OWNER, OWNER, OWNER,		STREET, STREET	THE RESERVE THE PERSON NAMED IN	- NAME AND ADDRESS OF THE OWNER,

on the windshield. I feel reasonably sure it was not.
"I regret now that I did not make this report immediately but the experience was so brief that I hesitated to report it until I saw the enclosed newspaper report."

- 2. The newspaper report referred to by the party, was obtained from the newspaper, Newark Evening News, Newark, New Jersey, dated 18 September 1952, titled "Flying Saucer Seen in Morris" which is set forth verbatim below:
  - reported hovering over this community last night by six persons, each of whom termed it a "flying saucer".
    "One of those who saw it, an artist, will put her impression of the object on canvas.
  - "Mr. and Mrs. Walling red ball with a tail". The tail's density changed, they said. The object hung motionless at an estimated altitude of 4,000 feet for 20 minutes before moving slowly westward in the direction of Hackettstown, they declared.
- 3. The original copy of letter remains on file at the District Office.
