SUMMARY: (Enter concise summary of report. Give significance in last one-sentence paragraph. List inclusions at lower left. Begin text of report on AF Form 112-Part II.)

1. The pilot of Maritime Central Airways-64 aircraft observed an unidentified object 130 miles southwest of Goose Air Base 2 May 1953 at 0825Z.

2. Statement of Second Lieutenant H. L. Brown, 107th AC&W Squadron:

"At 02/0825Z the Tower gave me the following information by land line telephone: Pilot Warden of MCA-64 sighted a luminous object, size unknown. Object was sighted 500 feet off the starboard wing, object stayed alongside aircraft three or four seconds, then picked up speed rapidly and left the aircraft. Another 'Moon Shaped' object was sighted directly in front of the first object. Both objects were 'Moon Shaped'."

COMMENTS of Preparing Officer:

1. No other aircraft were in the area at the time of sighting. It therefore appears that this incident represents an aerial object caused by either a meteorological phenomena or some physical aberration, such as reflection from the aircraft.

2. Lack of sufficient information precludes the possibility of concrete evaluation or thorough analysis of the incident.

3. This information is of interest to Air Technical Intelligence Center, ATTN: ATIAA-A2c, Wright-Patterson AFB, Dayton, Ohio.

THE SIGHTING TOOK PLACE 15 MILES SOUTHWEST OF THE BASE. AT THE TIME OF THE FIRST SIGHTING I WAS AT 24000 FEET AND THE OBJECT WAS ABOUT 10000 FEET BELOW ME, GIVING OFF A WHITE LIGHT. THE OBJECT SHOWED DEFINITE MANEUVERABILITY AND I ATTEMPTED TO MAKE CONTACT BUT WAS UNSUCCESSFUL BECAUSE THE OBJECT EMPLOYED EVASIVE ACTION. MY RADAR OPERATOR NEVER DID GET RADAR CONTACT WITH THE OBJECT. THERE WAS NO EVIDENCE OF JET OR ROCKET EXHAUST. THE WEATHER AT THE TIME WAS CAVU AND THERE WERE NO HIGH ALTITUDE WINDS. I WAS UNABLE TO GET PICTURES OF THE OBJECT AND DID NOT NOTICE ANY CHANGE IN COLOR OF THE LIGHT." TO ME CHECKED WITH THE ABOVE AND ALSO INCLUDED THE STATEMENTS MENTIONED AS FOLLOWS: THE PINTAIL 46 AIRCRAFT WAS HEADING SOUTH WHEN HE OBSERVED AN OBJECT HEADING NORTH IN A PORT ORBIT. THE PILOT TRIED TO CUT IT OFF BUT OBJECT SEEMED TO NOTICE HIM. CAPT EMBERY SAID THE OBJECT ORBITED AROUND HIM KEEPING 10 TO 15 MILES OUT OF HIS RANGE. PILOT SAID OBJECT WAS MOVING AT A SPEED MUCH IN EXCESS OF HIS OWN AND ESTIMATED IT AT 6000 KNOTS. IT WAS TOO DARK FOR ANY IDENTIFICATION BUT PILOT SAID THAT THERE WAS A WHITE LIGHT COMING FROM THE OBJECT THAT LOOKED LIKE AN F-94 WITH AFTER BURNER. PILOT FURTHER SAID THAT HE WAS UNABLE TO GET RADAR CONTACT WITH OBJECT. ESTABLISH GROUND CONTROL INTERCEPTION ALSO DID NOT HAVE RADAR CONTACT. WHEN I CHECKED THE GOOSE TOWER, FLIGHT OFFICER BLAKE SAID THAT FLIGHT OFFICER CARNIRE AND LEADING AIRCRAFTMAN CLAYTON WERE ON DUTY. FO BLAKE SAID THEY TOLD HIM THE OBJECT GAVE OFF A PURPLE LIGHT AND WAS MOVING VERY FAST. AT 020825Z THE TOWER GAVE ME THE FOLLOWING INFORMATION BY LANDLINE TELEPHONE: PILOT WARDEN OF MARITIME CENTRAL AIRWAYS - 64 SIGHTED A LUMINOUS OBJECT SIZE UNKNOWN. OBJECT WAS SIGHTED 500 FEET OFF THE STARBOARD WING; OBJECT STAYED ALONG SIDE AIRCRAFT 3 OR 4 SECONDS, THEN PICKED UP SPEED RAPIDLY AND LEFT THE AIRCRAFT. ANOTHER MOON SHAPED

OBJECT, BOTH OBJECTS WERE MOON SHAPED, WAS SIGHTED DIRECTLY IN FRONT OF THE FIRST OBJECT. THE CO-PILOT OF MARITIME CENTRAL AIRWAYS-YR CONFIRMS PILOT WARDEN'S STATEMENT. AT THE TIME OF THE REPORT THE VISIBILITY WAS UNLIMITED. THE SIGHTING TOOK PLACE 130 MILES SOUTHWEST OF GOOSE AIR BASE. OUR RADAR STATION (ANC2 PS-5) DID NOT HAVE RADAR CONTACT WITH THE OBJECT OR AIRCRAFT AT THAT TIME." D/I NEAC COMMENT: SIGHTING BY PILOT AND RO OF F-94 EVALUATED AS UNIDENTIFIED OBJECT DUE TO CORRELATION FLIGHT PLANS AIRCRAFT, EXCESSIVE SPEED OF OBJECT, AND DARKNESS PRECLUDED IDENTIFICATION BY CONFIGURATION. SIGHTING BY PILOT WARDEN AND CO PILOT OF MARITIME CENTRAL AIRWAYS, POSSIBLE RELATED TO OTHER SIGHTING, EVALUATED AS UNIDENTIFIED OBJECT. MESSAGE RECEIVED THIS HQ 031430Z.

SACINTSUM No. 726 - Goose Bay, Labrador

At 0305Z and at 0825Z on 2 May 1953 two unidentified objects were observed from Goose Bay area. The first consisted of a sighting of an unidentified light by an F-94 under CAVU conditions. As the F-94 gave chase, the light out ran it. A similar object, believed to be the same one as the F-94 sighted, was reported from the Goose Bay tower and described as going at a "terrific rate of speed". According to this source, the light was probably an unidentified a/c.

The second observation was also from the air, when the pilot and copilot of a commercial airlines reported sighting two luminous objects approximately 500' off the right wing of their a/c. The plane was located 130 miles SE of Goose Bay at the time of sighting.
