~~REDACTED~~ 2AFICB 1647. FLYOBRPT. FOL INGO ON UNIDENTIFIED
FLYING OBJECT SUBMITTED TO THIS OFFICE BY MAJ JACK D SWICKARD, 11430A,
FWD IN COMPLIANCE WITH AFL 202-5, WO APR 53: PAR 1. OBJECT APPEARED
TO BE REDDISH BALL OF FIRE, APRX THREE TIMES SIZE OF LARGE STAR. OBJECT
MOVED VERY FAST AND LEFT STREAK IN SKY. SPEED OF OBJECT DESCRIBED
CONSIDERABLY FASTER THAN JET ACFT AND JUDGED BY SEVERAL B-47S IN TRAFFIC
PATTERN IN GEN VICINITY OF OBSERVATION. PAR 2. SIGHTING OCCURRED SHORTLY
AFTER 2100 HRS, 11 AUG 53 LENGTH OF SIGHTING DESCRIBED AS ONLY MATTER OF
SECONDS. PAR 3. THIS WAS VISUAL SIGHTING. PAR 4. AT TIME OF SIGHTING,
MAJ SWICKARD AND BASE GAME WARDEN, S SGT OTIS RECTOR, 14340799, WERE

PAGE TWO JESBA 27

BOTH AT NORTH END OF FLAGG LAKE SITUATED IN NORTH CENTRAL PART OF BARKSDALE RESERVATION. UNIDENTIFIED OBJECT APPROACHED FROM NORHTERLY DIRECTION AND MOVED TOWARD SOUTHEAST, MOVING ALMOST PARALLEL TO EARTH'S SURFACE AND RISING SLIGHTLY BEFORE DISAPPEARING FROM VIEW. PAR 5. MAJ SWICKARD IS ACFT OBSR AND BELIEVED VERY RELIABLE. HE STUDIED ASTRONOMY AND VERY DEFINITELY STATED UNIDENTIFIED OBJECT NOT "SHOOTING STAR". S SGT RECOTR CAUGHT ONLY SLIGHT GLIMPSE OF OBJECT WHEN MAJ SWICKARD SHOUTED "LOOK" TO HIM. HOWEVER, S SGT RECTOR STATED HE HAS OBSERVED SIMILAR OBJECTS ON THREE OTHER OCCASIONS, BUT DID NOT REPT THEM BECAUSE OF FEAR OF RIDICULE. PAR 6. WEATHER AT TIME DESCRIBED BY MAJ SWICKARD AS VERY CLEAR, CLOUDLESS NIGHT WITH SKY FULL OF STARS. HOWEVER, NO MOON AT TIME OF SIGHTING. PAR 7. AT 2100 HRS, ON DT OF OBSERVATION, BARKSDALE WEATHER STA RELEASED WEATHER BALLOON. PAR 8. NO FRAGMENTS, PHOTOS, ETC, OBTAINED. PAR 9. NO KNOWN INTERCEPTION ATTEMPTED. PAR 10. AT TIME OF SIGHTING, SEVERAL B-47 ACFT SHOOTING LANDINGS IN GEN VICINITY. HOWEVER, B-47 ACFT STILL QUITE DISTANCE FROM OBSRS. IM AFTER OBSERVATION, ONE B-47 PASSED OVERHEAD AND FORMED BASIS FOR MAJ SWICKARD'S JUDGMENT OF SPEED OF UNIDENTIFIED OBJECT. ANOTHER OBSERVATION: LOCAL NEWSPAPER STATED SEVERAL PEOPLE IN DOWNTOWN SHREVEPORT REPTD SIGHTING UNIDENTIFIED FLYING OBJECT AT

PAGE THREE JESBA 07

1930 HRS ON SAME NIGHT MAJ SWICKARD MADE HIS OBSERVATION. OBJECT
DOWNTOWN DESCRIBED ABOUT 10 FT IN DIAMETER AND ROUND IN SHAPE.
BARKSDALE AIR POLICE LATER REVEALED IT MIGHT HAVE BEEN BALLOON THEY
SAW BLOWN UP AT 1920 HRS ON DOWNTOWN STREET AND RELEASED. DESCRIBED
APRX 10 FEET IN DIAMETER.

SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112—Part II.)

An unidentified flying object was sighted by Major Jack D Swickard and S Sgt Otis Rector at 2100 hours, 11 August 1953.

The two men agreed that the object was traveling at a high rate of speed, almost parallel to the earth's surface and appeared to be a red ball of fire.

AIR INTELLIGENCE INFORMATION REPORT

FROM (Agency)

D/Intelligence, Hq 2AF

REPORT NO.

IR-36-53

PAGE

2

OF

3

PAGES

The following information on an unidentified flying object was submitted to this office by Major Jack D Swickard, 11430A:

1. The object appeared to be a reddish ball of fire, approximately three times the size of a large star. The object moved very fast and left a streak in the sky. The speed of the object was described as considerably faster than a jet aircraft and was judged by several B-47s in the traffic pattern in the general vicinity of the observation.

2. The sighting occurred shortly after 2100 hours on 11 August 1953. The length of the sighting was described as only a matter of seconds.

3. This was a visual sighting.

4. At the time of the sighting, Major Swickard and a base game warden, S Sgt Otis Rector, 14340799, were both at the north end of Flagg Lake situated in the north central part of the Barksdale reservation. The unidentified object approached from a northerly direction and moved toward the southeast, moving almost parallel to the earth's surface and rising slightly before disappearing from view.

5. Major Swickard is an Aircraft Observer and believed very reliable. He has studied Astronomy and very definitely stated that this unidentified object was not a "shooting star". S Sgt Rector caught only a slight glimpse of the object when Major Swickard shouted "look" to him. However, S Sgt Rector stated that he has observed similar objects on three other occasions, but did not report them because of fear of ridicule.

6. The weather at the time was described by Major Swickard as a very clear, cloudless night with the sky full of stars. However, there was no moon at the time of the sighting.

7. At 2100 hours, on the date of the observation, the Barksdale Weather Station released a weather balloon.

8. No fragments, photographs, etc, were obtained.

9. There was no known interception attempted.

10. At the time of this sighting, there were several B-47 aircraft shooting landings in the general vicinity. However, the B-47 aircraft were still quite a distance from the observers. Immediately after the observation, a B-47 passed overhead and formed the basis for Major Swickard's judgment of the speed of the unidentified object.

Another Observation: A local newspaper stated that several people in downtown Shreveport reported sighting an unidentified flying object at 1930 hours on the same night Major Swickard made his observation. The object downtown was described as about 10 feet in diameter and round in shape. Barksdale Air Police later revealed that it might have been the balloon they saw blown up at 1920 hours on a downtown street and released. It was described as approximately 10 feet in diameter.

COMMENTS of Preparing Officer:

DOWNGRADED AT 3 YEAR INTERVALS
DECLASSIFIED AFTER 12 YEARS
DOD DIR 5200.10

Major Swickard stated that he had studied Astronomy and did not believe the unidentified object as any type of meteorological phenomenon. He further stated that

There was only a very slight breeze blowing at the time of the observation. This would seem to rule out the possibility of the object being the weather balloon which was released at approximately the same time as the observation because of the high rate of speed attained by the object while paralleling the surface of the earth.
