AIR INTELLIGENCE INFORMATION REPORT												
SUBJECT Unidentified Flying Objects (UFOB)												
AREA REPORTED ON Newburyport, Massachusetts	FROM (Agency) 6520th Test Support Wing, Laurence G Hanscom Field, Bedford, Mass.											
DATE OF REPORT 29 April 1954	DATE OF INFORMATION 28 April 1954	EVALUATION										
PREPARED BY (Officer) FRANCIS W. HENNIN, Captain, USAF	SOURCE Civilian Interview											
REFERENCES (Control number, directive, previous report, etc., as applicable) AFR 200-2, dtd 26 August 1953 and AFR 200-2a, dtd 2 November 1953												
SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112-Part II.)												
<u>INTERVIEW I</u> (1) (a) The unidentified object was in the shape of a ring with a protrusion within the ring near the top inside of ring. Configuration of object being similar to a ring with the center dark, the ring portion being silver white and extremely bright. (b) The object was the size of a silver dollar at about arms length. (c) Color of object being a silver white ring with center dark and a haze or white trail behind object. (d) One object sighted. (e) No formation of objects. (f) Odd shape of center with haze or white trail behind object when in approach position to observer. (g) Object disappeared as a solid shaped disc, the haze section seemed to be the trail portion of object. The haze or trail quickly faded with the disappearance of object. (h) Sound attracted attention at first. The sound was a distinct roar similar to a jet engine noise, however extremely loud and intense. Sound lasted for about 5 seconds. (i) Object disappeared as a solid silver disc. (2) (a) Sound of object first called the attention of the observer. (b) The approximate angle of elevation of the object was about 60° to the observer when descending. (c) Object descended EAST by NORTHEAST and ascended EAST by SOUTHEAST from the observers at an angle of approximately 45°.

- (f) Object a plain round disc.
- (g) No visible trail or exhaust.
- (h) Sound drew attention to object. A high droning sound seemed to get louder on descent.
- (i) No other unusual features.
- (2) (a) Object dropped in a Southeast direction.
- (b) Angle of object to observer approximately 60°.
- (c) Object moved in a Southeast direction and disappearing at a 60° angle.
- (d) No unusual flight path maneuvers.
- (e) Object disappeared as a disc with color remaining the same.
- (f) Observed for approximately one minute.
- (3) (a) Ground - visual
- (b) Negative
- (c) N/A
- (4) (a) 1930Z 26 Feb 54
- (b) Day
- (5) Observer standing in automobile parking lot at rear of Newburyport High School, Newburyport, Massachusetts.
- (6) (a) Mrs. [REDACTED], Age 45, [REDACTED], Andover, Mass. Occupation - Housewife, Telephone [REDACTED] (Statement attached as Incl #2)
- (7) (a) Sky clear except for a few clouds in northern portion.
- (b thru f) Attached as Incl #5.
- (8) No unusual activity at point of observation.
- (9) Negative
- (10) N/A

INTERVIEW III

- (1) (a) Round shaped object.
- (b) Approximate size of a weather balloon.
- (c) Grayish white in color.
- (d) One

(d) Rapid flight path when object descended and ascended. The object seemed to hesitate prior to ascending.

(e) Object traveled upward and faded as a solid silver shaped disc.

(f) Object in sight of observer for approximately 30 seconds.

(3) (a) Ground - visual.

(b) Negative.

(c) N/A

(4) (a) 1930L 26 Feb 54

(b) Day

(5) (a) Observer standing in automobile parking lot at rear of Newburyport High School, Newburyport, Massachusetts.

(6) (a) Mr. [REDACTED], Age 56, [REDACTED]d, Newburyport, Massachusetts, Telephone [REDACTED] Occupation - Architect (Statement attached as Incl #1)

Estimate of reliability very good from:

Mr. [REDACTED]
Civilian Defense Director
Newburyport, Mass. Telephone [REDACTED]

(7) (a) Observer states weather clear with scattered puffy clouds.

(b,c,d &e) Weather reports attached (Incl #5). Stations given are Bedford, Mass and Boston, Mass. as time of observation of unidentified object.

(f) No thunderstorms reported.

(8) No unusual activity at point of observation.

(9) Negative

(10) N/A

(11) No air traffic reported.

INTERVIEW II

(1) (a) Object similar to a disc.

(b) Larger in size than a basketball.

(c) Grayish white in color.

(d) One

(e) No formation of objects.

(e) No formation.

(f) Negative

(g) Negative

(h) Sound similiar to a small aircraft engine at high RPM.

(i) No other unusual features.

(2) (a) Mr. [REDACTED] (Interview I) called observers attention to object and sound.

(b) Object at approximately 60° to observer.

(c) Object moved away in a Southeast direction.

(d) No unusual maneuvers.

(e) Object faded away without change of color.

(f) Fifteen seconds.

(3) (a) Ground - visual

(b) Negative

(c) N/A

(4) (a) 1930Z 26 Feb 54

(b) Day

(5) (a) Observer standing in automobile parking lot at rear of Newburyport High School, Newburyport, Mass.

(6) (a) Mr. [REDACTED], Age 49, [REDACTED], Andover, Mass.
Occupation: Marine Engineer (Statement attached as Incl #3)

(7) (a) Sky clear

(b thru f) As attached Incl #5.

(8) No unusual activity at point of observation.

(9) Negative

(10) N/A

INTERVIEW IV

The only information obtained from this observer was the indication of a loud aircraft engine, growing in its intensity and quickly fading. This observer did not see the object. (Statement attached as Incl #4)

(12) The nearest weather observation point is the Portsmouth Harbor Lifeboat Station, Portsmouth, N. H. That station did not have any reports logged of low flying or unusual aircraft activity. Investigation of local weather stations did not indicate any abnormal weather conditions or the release of weather reporting balloons. Possible cause of sightings undetermined by reporting officer.

Report prepared by:

Francis W. Hennin

FRANCIS W. HENNIN

Captain, USAF

Duty Assignment 1121B

6520th Experimental Squadron (AD)

6520th Test Support Group

To whom it may concern.

Date of Occurrence - Monday April 26th, 1954 - between 3:30 & 4:00 P.M.

I was standing at the rear of the Newburyport High School talking with two people, a Mr. [REDACTED] and his wife, when I suddenly hear a loud noise from the sky. It was a noise similar to a powerful motor, - a noise which accelerated rapidly and died down rapidly. My first thought was of a rapidly approaching jet and yet the sound was more of a motor character than a jet. I immediately looked skyward and saw a circular ring of rather strong intensity. The shape was similar to this: (S), with a protrusion within the ring circumference. The space within the two lines was of a bright bluish white. The inner space was dark. The object seemed to be moving in a downward direction, slightly to the right, followed by a vaporous, or smoky, trail. As the object approached its greatest intensity it seemed to stop and travel upward again in a right direction forming an angle between its downward and upward path of about 45° to 60°. As the object appeared to recede it became less bright and took the appearance of a solid, paler, disc, and then disappeared entirely from view. The sound which I heard at the beginning lasted for approximately 5 seconds, and the object was visible for about 30 seconds. When talking about the phenomena at home later in the evening, my daughter mentioned that she had also heard the noise while in the house at the same time that I had heard it. My home is about 1/2 mile from the school where I was standing. My daughter is thirteen years of age, and I honestly believe it was the same sound that I had heard. There were no planes in the sky within this vicinity at the time this phenomena took place. The sky was only partially obscured with scattered high clouds. There were no clouds near the spot where the object appeared. The object was unquestionably at a very high altitude, and it was also much brighter than the scattered clouds in the distance.

This is a true description of the object as I saw it.

To Whom it may concern.

On Monday April 26 - 54 we were in the Newburyport Highschool yard when I heard a droning sound overhead, as I looked I saw a grayish white disc descending and leveling off again in a Southeasterly direction. It had no attachments to it. It was at a sixty degree angl traveling in a straight line with no sound after it had dropped. The time was between 3. 3.30 P.M. sky clear with a few scattered clouds.

April 29, 1954

To whom it may concern.-

On the afternoon of April 27 I happened to be in the backyard of the Newburyport High School between three thirty and four o'clock in the afternoon when I heard a very heavy roar of what I thought were aeroplane engines. I tried to locate the noise but could not and did not see anything.

INCL #4

April 28, 1954

To whom it may concern:

While parked in the Newburyport High School yard in Newburyport, Mass. I observed an object at a considerable height, this object appeared circular in shape and about the size of an observation balloon, color grey-white. This object made considerable noise, very much like a small airplane and disappeared out to sea in a south-easterly direction. Time this object was seen 9.00 to 9.30 P.M. Sky clear and cloudless in the vicinity of this object. Length of time visible to me about 15 seconds. This object in question was seen on Monday, April 26, 1954.

Andover, Mass.
