Gentlemen:

During June 1954, I took two pictures of an unknown flying object, one with a regular Kodac camera and the other with a camera with a telescopic lens. I sent the photographs to be developed, they could not develop them but returned the negatives to me.

I misplaced them and again found them last month (April) and thought that you would be interested in seeing them.

I would be pleased if you would kindly send back the pictures and any reports or records on the sitings of flying saucers that you could give me.

THANK YOU

Lincolnwood 30, Ill.

Dear Allen,

In the process of reviewing June 1954 cases I ran across three involving photographs, Mooresville, Indiana, Muskogee, Oklahoma and Lincolnwood, Illinois.

I do not have cases for Mooresville and Muskogee and the only information I have are the two letters and copies of the photos from Lincoln.

A note on the Project Card indicates that you evaluated the Mooresville, Indiana case. Could you check these out for me and see if the cases are with your files, Please?

Sincerely,

DAVID N MOODY

AFOIN-4X3 Dear Mr. [REDACTED]

AFOIN-4X4

Thank you for your letter of 14 May 1957 submitting two negatives of an unidentified flying object.

AFOIN-4A

This Center has made copies of the negatives and they are now under study by our analysts; however, due to the age and lack of information, it will be very difficult to reach a firm conclusion.

AFOIN-4B

In accordance with Air Force Regulation 200-2, all sightings should be reported to the nearest Air Force Installation for rapid transmission to Air Defense Command, as in any investigation the time element is of prime importance.

AFOIN-4C

Inclosed are the two original negatives, the USAF Summary of Events and the latest USAF Press Release.

Your interest in this program is appreciated.

Sincerely,

AFOIN-4D
