11. Position title of preparing officer is Wing Training and Operations Officer. Observer is a Senior Pilot on flying status and has over 14 years in the Air Force. This is Observers first sighting of UFOB. There was some meteorological activity on this night, and also at time of sighting there was a football game in progress approximately 200 yards south-east of observer. It appeared that the lights from this game reflected on the bottom surface of object giving it a grayish color as it passed over, and also led observer to believe that the altitude of object was not over 1,500 ft.

12. Additional Data:

a. Estimated speed: 200 mph

b. Distance from Observer to object approximately 1,000 to 1,500 feet.

c. Object heading was on approximately a course of 210 degrees.

|---|---|---|
| Flight 2-D, 4602d AISS | 2D-UFOB-1 PART ONE | PAGE 2 OF 5 PAGES |

I. SOURCE: GRAVES T. MYERS, Lt. Col., USAF

Age: 35

Length of Service: 14 years

Duties: Senior Pilot and Wing Training and Operations Officer

Education: 2 years of college

Station: Vance Air Force Base, Oklahoma

II. RELIABILITY: SOURCE was a friendly, sincere, and above average intelligent officer. He had had varied experience in the Air Force, and is well versed in the field of flying and identification of aircraft. He seemed very eager and willing to cooperate, and answered all questions in a straight forward manner. As this was the SOURCE's first sighting, he was very much interested in this matter. It is the opinion of the investigators that Col. Myers was an excellent source of information.

III. SOURCE's DESCRIPTION OF OBJECT:

1. At 16/0237Z Oct 54, SOURCE stepped into back yard of residence located at 902 W. Iowa, Enid, Oklahoma (GEOREF EJHC 0525) and suddenly noticed a strange object moving at approximately 200 MPH at an altitude of 1500 feet. SOURCE stated that he observed this object for approximately 5 seconds, at which time it disappeared over the roof of a neighboring home. SOURCE stated that the area around his residence was illuminated by stadium lights from a football game which was in progress 100 yards S-E. Reference Incl #1, Rept 2D-UFOB-1 Sketch of immediate area of sighting.

| Pt. 15 | Approximate direction of flight. |

SOURCE stated that the object flew through this lighted area and appeared to be grayish white in color. The objects were oval shaped, smooth and symmetrical. Light from the football field reflected on the underside of the object. Object was about the size of a grapefruit held at arms length.

2. The night was dark, as the moon had not yet risen. The weather was clear and cool.

3. The object did not change course at any time while in sight of SOURCE.

# AIR INTELLIGENCE INFORMATION REPORT

| FROM (Agency) | REPORT NO. | |
|---|---|---|
| Flight 2-D, 4602d AISS | 2D-UFOB-1 PART ONE | PAGE 3 OF 5 PAGES |

4. SOURCE stated definitely that there was an absence of sound, and that there was no exhaust or flames of any kind.

5. SOURCE stated that he definitely had not the faintest idea of what this object could be. Upon losing sight of the object, he immediately went into his house, and drew a sketch of the object. Reference Incl #2, Rept 2D-UFOB-1, SOURCE's Memory Sketch of Object.

Pt. 1 Lower Surface
Pt. 2 Direction of Flight, Straight and Level S.W.
Pt. 3 Object on Course of 210°
Pt. 4,5 Line of Sight of SOURCE
Pt. 6 45° Elevation at Time of Sighting
Pt. 7 House that Object Disappeared Behind
Pt. 8 40° Degree Elevation at Last Sighting

SOURCE, who was very much interested at sighting this strange object, and also familiar with AFR 200-2, immediately checked with the Storm Warning Radar at Vance AFB. They informed him that no strange objects had been sighted. The next morning, SOURCE contacted the local astronomer, who said that there was some meteorological activity in that area at time of sighting. SOURCE stated that he had sighted a meteorite approximately 15 minutes after sighting the strange object. He also stated that he checked with Vance AFB Control Tower. At 16/0208Z Oct 54 a B-25 departed Vance AFB South Bound, and at 16/0235Z Oct 54, a B-25 departed from Vance AFB Eastbound. He also checked with Weather Detachment 16-14 to see if any balloons were aloft at time of sighting with negative results.

IV. INVESTIGATOR'S SUMMARY: It is the opinion of the investigators that SOURCE was very familiar with aircraft, especially at such a low altitude, and it is not very probable that object could have been an aircraft. As there were no other observers, and the object was sighted for only approximately five seconds, the preparing officer can advance no theory as to the identity of the object.

2 Incls:
1. Sketch of Immediate Area of Sighting
2. SOURCE's Memory Sketch of Object

DEAN S. JAMESON
2nd Lt., USAF
Officer in Charge

COMMENTS of Approving Officer:

1. Due to the short period of observation and the absence of other observers it is difficult to attempt an identification of this reported sighting.

2. The report is therefore being forwarded to ATIC for further analysis.
