Dear Sirs,

Back in 1955 I sighted several U F O's, along with my brother and several other people, while playing in a park on the Northwest side of Chicago.

After sighting them I ran home and grabbed my camera. When I returned they (the U F O's) were still there. My brother and I then went to the top of a fire escape on a school to get a better look at them. It was then when I took a picture.

When I had the film developed I saw what seemed to be some form of aircraft. However to this day I still can't figure out just what it is.

If you are still interested in U F O reports you may write me and I will be happy to give you more information on this sighting plus the print of the picture since I lost the negative.

Very truly yours,
[REDACTED]

It was suggested to send this picture to you for evaluation.
If you find it to be nothing at all don't think I'm nuts
because I am not, its just that I'm curious to find out what
it is.

If you think it might be something I will look for the
negative. However if its nothing please return the photo.

Thank you for your time and consideration in this matter.

Yours truly,

SUBJECT: Request for Photo Negative

18 APR 1960

TO: SAFOI-3d (Maj Tacker)

1. The photographic print of an alleged UFO sent to this Center by Mr [REDACTED] is in very poor condition. Suggest Mr [REDACTED] be asked to send the negative, plus a description of the camera and lens which was used to take the picture. Mr [REDACTED] should be forwarded ATIC Form #164 for completion concerning the photograph.
2. It is further suggested that Mr [REDACTED] be informed that we are not requesting the negative because we think there is something unusual on it, but that it is necessary to increase the probability of a positive identification being made by the Air Force.

20 April 1960

Dear Mr. [REDACTED]

This is to acknowledge your letter of 5 April 1960 together with your inclosed photographic print of a possible unidentified flying object.

The photograph is in very poor condition and if positive identification is to be made, we will have to have the negative in order to analyze this particular sighting.

In addition, we will need more information with regard to this sighting. We will need a description of the camera and the lens which was used to take the picture, and the Air Force Questionnaire inclosed herewith should be carefully completed with respect to this UFO sighting. When this is accomplished, please send the questionnaire and the negative to the Aerospace Technical Intelligence Center, Wright-Patterson Air Force Base, Ohio.

Sincerely,

Inclosure
