"Disclosure of the nature, existence, or location of the existence of the information in this report to persons not normally entitled to such information may be made only when authorized by the Director of Special Investigations, 43, or higher authority. Unauthorized disclosure of such information will be considered to be a violation of AFR 205-1."

1. The following information is in confirmation of information furnished verbally to your Command on 6 January 1955, and, also, to facilitate compliance by your Command with instructions outlined in paragraph 7, AFL 200-5.

2. At approximately 2045 hours, 6 January 1955, this office was telephonically informed by A/3C KEITH BRAKINS, of the 305th Tactical Hospital Group, MacDill AFB, Florida, that he and two other airmen, A/3C DON ROBERTS and A/3C CLYDE THORPE, also of the 305th Tactical Hospital Group, had observed an object in the air, south of Bradenton, Florida, which they were unable to identify. BRAKINS reported that, on 6 January 1955, at approximately 2000 hours, as he and the other two airmen were driving north on U.S. Highway #41, two to three miles south of Bradenton, Florida, one of the other airmen called his attention to a light emitted from a dark object which appeared to be at an altitude of 800 to 1000 feet, approximately 1500 feet west of the highway on which they were driving. BRAKINS added that during the ten seconds in which this dark object was visible, two other blinding flashes of light were emitted from it. He explained that the object itself was black and, in size, he estimated that a nickel held at arm's length would have covered the circular object. He further explained that the light emitted by this object was so intense as to illuminate the entire area, the automobile, and the highway, and that it reminded him of the illumination of a photoflash bulb or shortcircuiting high-tension lines. BRAKINS further stated that the atmosphere was clear, that the moon was bright, and that stars were also visible, but that this object was, in his opinion, no star and certainly was not the moon. BRAKINS also advised that he had made a similar report to the Florida Highway Patrol, near Bradenton, Florida, immediately following the sighting of the unidentified object.
