1. During the dates 2 February - 21 February 1956, sightings of unidentified flying objects by members of this command were noted. Sightings were visual and in three instances by radar oscilloscope operated by the 47th AAA Detachment. The radar site is located at coordinate 444118.

2. On 2 February 1956 between the hours 1300 - 1600, Pfc Richard L. Walker, Co "C", 723rd Tank Battalion, saw a flying object moving from North to South. Pfc Walker estimated the speed of the object to be in the thousands of miles per hour and at an altitude of over 15,000 feet.

3. On 9 February 1956 at about 1300 hours, Sfc Kenneth D. Marra, and Pfc Ricard, both from Co "C", 723rd Tank Battalion, observed an unidentified flying object at grid square 3114. The object moved from the North to the above location. It stayed at the above location for one (1) minute. It moved with a tremendous burst of speed from grid square 3114 to grid square 4502. It was observed in this position for about four (4) minutes. The flying object was described as oval in shape, brilliant luminosity, and no noise.

4. The sightings were reported to the George Airforce Base Intelligence Officer. Airforce Intelligence personnel made a visit to this installation for further information. Coordination with the 47th AAA Brig. Intelligence Section has been made.

See if we get a TWX on the sighting. Probably in February.
5. Radar sightings were made in three (3) different locations of aircraft or flying objects that could not be confirmed by visual observations, or a confirmed report from our Air Det. Tower as to aircraft in the reservation area. Radar sightings were within the eight (8) mile limit of the Radar band.
