MEMORANDUM FOR UFO FILES

SUBJECT: Late Receipt of UFO Reports

1. This is one of six (6) UFO reports submitted under one cover letter by the 4602d AISS, who received them from the OSI. Reference "4602d AISS File," letter dated 26 December 1956, subject: "OSI UFOB Reports."

2. Received by AFIC on 3 January 1957.

3. Reports range from almost two years (February 1954) for the oldest, to over 7 months for the newest (August 1956). It appears that the OSI had "pigeonholed" the reports for some unknown reason before submitting them to the 4602d AISS.

4. The very late date of receipt makes investigations or conclusive analysis difficult, if not impossible. A preliminary evaluation made of each and entered in UFO files.

Subject: UNIDENTIFIED FLYING OBJECT OBSERVED
NEAR GLEN RIDGE, NEW JERSEY, ON
MARCH 9, 1956
DISCREPANCIES - INFORMATION CONCERNING

On March 9, 1956 at 7:40 p.m. our Newark Office received a telephone call from [redacted] Glen Ridge, New Jersey, regarding an unidentified flying object described by him as an extremely bright light traveling at a very slow rate of speed in a west-southwest direction.

According to [redacted] this unidentified object was first observed by his son at about 7:30 p.m. [redacted] stated the object was still in the air at the time he called our Newark Office. He further advised that neighbors had also observed this flying object.

The above information was immediately referred to the local representatives of the United States Air Force by our Newark Office. Subsequent thereto, our Newark Office received an inquiry from the "Newark Evening News" newspaper. A reporter of this newspaper advised that about three calls had been received by his paper from Glen Ridge, New Jersey, residents concerning this unidentified flying object.

The above confirms the information orally furnished your Department on March 10, 1956. This Bureau does not contemplate any further action in this matter.
