MEMORANDUM FOR UFO FILES

SUBJECT: Late Receipt of UFO Reports

1. This is one of six (6) UFO reports submitted under one cover letter by the 4602d AISS, who received them from the OSI. Reference "4602d AISS File," letter dated 26 December 1956, subject: "OSI UFOB Reports."

2. Received by AFIC on 3 January 1957.

3. Reports range from almost two years (February 1954) for the oldest, to over 7 months for the newest (August 1956). It appears that the OSI had "pigeonholed" the reports for some unknown reason before submitting them to the 4602d AISS.

4. The very late date of receipt makes investigations or conclusive analysis difficult, if not impossible. A preliminary evaluation made of each and entered in UFO files.

MISCELLANEOUS - INFORMATION CONCERNING

At 11:35 p.m., May 4, 1956, an individual who identified himself as [redacted] Street, Oxford, Pennsylvania, advised this Bureau he had just observed at Oxford, Pennsylvania, a bright light traveling about 2,000 feet in the air toward Baltimore, Maryland. He described the object as a solid, bright yellow light visible from all directions and that it was twice as bright and twice as large as the headlight of an automobile. He also described it as twice as bright as the evening star. He was unable to describe it in more detail. He stated the object made no noise, that at first its speed was the same as the car he was driving but it sped up and although he was driving 80 miles an hour he was unable to keep up with it. He advised that two of his friends, [redacted] and [redacted] also had observed the object.

At 2:45 p.m., May 5, 1956, the above-referred-to individual advised his true name and address were [redacted], Kenneth Square, Pennsylvania.
