10. BRIEF SUMMARY OF SIGHTING One round white object larger than any star or planet. Object seemed to change shape and occasionally emit points of reddish glowing light in all directions. Points of light were similar to a jet exhaust. Object was initially sighted at 50 dgr azimuth & moved from SE to E. Object disappeared from view and reappeared in the same location. Object was observed visually & through binoculars for over two hours.				11. COMMENTS Form sent to sources and following information received: Object observed for a total of four hours. Object moved fm 110 dgr az, 40° elev at 2015CST to 180° az, 70° elev at 0015CST. At 0015CST obj disappeared "as if a light switch had been turned off." Duration, general course & position, & description of obj conform to criteria for a Mars hypothesis. However due to conflicting statement of one source that obj disappeared and the high elevation indicated, case evaluated as ASTRO (probable).
