| 10. BRIEF SUMMARY OF SIGHTING<br>One round object, size of a very large light bulb at arm's length. Color was white to red. Obj emitted white & red sparks. Obj was sighted in the NNE & moved straight down. Obj was viewed visually for 10-15 seconds and disappeared in the NNE. |  |                                                                                                                                                                                                       |  | 11. COMMENTS<br>Concur w/rptg officer that sighting caused by meteor.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |  |
