SUBJECT

WEST GERMAN PEDESTRIAN SEES MYSTERIOUS STATIONARY LIGHT IN GREAT BEAR CONSTELLATION.

SUMMARY (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112a.)

1. On 21 November 1956 at 2105 hours a stationary orange colored light was seen in the Great Bear Constellation. It looked similar to the planet MARS in color and size. The light stayed for 30 seconds after which it blinked two to three times and disappeared. The observer at MUEHLHEIM (4802N-0853E) did not believe that it was an aircraft.
