f. Thunderstorms in area: None

8. Unusual activity: None

9. Interception or identification action taken: None

10. Air traffic: One F-86P prior to sighting.

11. Position title and comments of preparing officer: The control room at PAFB received a call from Mr. [REDACTED] between 1900 and 1910 hours on 22 March 1957. The investigation team composed of Capt Anthony, Capt Blue, and M/Sgt Sayer arrived in Center Sandwich, N.H. at 0630 hours on 23 March 1957, and remained for approximately four (4) hours. Although the total number of people who saw the object was approximately fifty (50), (this estimate given by Mr. [REDACTED]) the statements of 15 people interviewed are similar, therefore only the names of the principal observers are included in this report. Mr. [REDACTED] who observed the object through a transit is of the opinion that it was a weather balloon. All other persons who observed the object have no opinion as to what it was, other than a strange object in the sky. [REDACTED] supposedly took four (4) photographs of the object. When developed by the Photo Lab at PAFB, the film was completely blank. During the period the team investigated the incident no unusual or strange objects were visible in the sky.

12. Existence of physical evidence: None
