Following is an extract from SDO 1/Lt Robert R McKay, Jr report of 1 December 57 for your information and necessary action:

"1130 - Received call from Base Patrolman Burns regarding inquiry by Ohio State Police for a Mr [redacted] of Tiffin, Ohio. [redacted] has object that "UFO" was to pick up as the result of a call to ATIC on 22 Nov 57. Called Capt Gregory. Called T/Sgt Bolieu. As result of these telecons I called Patrolman Burns and asked that info be returned to Lutz that someone will contact him ASAP."

"1520 - Received UFO Report from Sqdn Leader Walker (text attached) and monitored by USAF Command Post (Maj Burns). Early Bird."

Several UFO inquiries started coming in from around Dayton. Deputy Sherriif Whalen, Montgomery County, had five cars chasing a UFO South on Highway, 25, between Germantown and Middletown. Wx knew of nothing. Several aircraft were reported in the area.

See next morning's Dayton Herald. The large number of calls made it necessary to enlist the aid of the local P.R.O. Undersigned was being called all night by Duty Officer. Amazing how Venus can fool people when seen through a light haze. Things are pretty bad when we must ask the press for help.

Capt. Gregory

Venus---So Bright---Causing Quite A Stir

VENUS, THE EVENING STAR, last night caused a flurry of telephone calls at the sheriff's office and The Journal Herald, because of its unusual brilliance. A 30-minute photographic exposure of the planet (left), compared with the moon about 7:30 p.m. last night (at right) reveal the comparative sizes of the two bodies. Venus will continue to grow in brilliance until Dec. 23, and may be seen just after sunset slightly south of overhead, moving toward the western horizon. (Staff photos by George Adams)
