Dear Captain:

Lois has kindly typed out my illegible scroll and also the material marked . Case I, Livelland Case

Case 2 - I am still working on. This is the case I called you up about on Sunday. My own feeling is that it was a plane.

Case 3 I I have queried him by letter asking for a fuller explanation.

clearly a meteor out I know Mr. who reported this, and I will be in Huntsville myself next month and will make further inquiry then. However, it is quite safe to classify this as a meteor.

I hope this has been some help to you and I hope to see you in the not too distant future.

Cordially,

J. Allen Hynek
