INSUFF DATA

Following is an extract of the SDO report submitted by Capt Heany for the period 11 - 12 March 58:

"2130: Two calls from WPAFB SDO Major Huke re flying objects (Mr. [redacted] of USNAS, Columbus) sighted flying object over Springfield (He will be at [redacted], Springfield overnight). Second sighting was also Springfield. Mr. [redacted] of Springfield Sun (newspaper). As neither gentleman called ATIC SDO, believed questions to be asked best be left to ATIC experts. No phone numbers or immediate locations were given in either case. Sparse information presented by Major Huke indicates both reporters probably saw conventional aircraft plus steady and rotating lights appearing under overcast conditions."

→ Have nothing to go on!
b. Why weren't they referred to ATIC, or SDO attempt to interview them telephonically in accordance with his SDO instructions?
c. Insufficient data (all we have here is that two gentlemen saw an object over Springfield...) Do to its proximity to Wright-field, hardly an hour goes by without some jet (high or low alt) screaming over that city.
