USAF, WASHI GTON, D.G. AFCIN-X, HEADQUARTERS, INFO:

UNCLASSIFIED/AFCIN-4E4

- UFO observed by Major General Carl A. Brandt, 563A, Vice Commander, ATC, is subject. Reference IR-58-1, 314th TCW(M), Sewart AFB, Tenn, dated 12 July 1958.
- 2. In accordance with par. 6c, AFR 200-2, dtd 8 Feb 58, request full investigation of this sighting to obtain additional data towards resolving incident. Information and data of initial report insufficient and therefore dictates such requirement. Consideration is also given to rank and status of observor, and distinct possibility that this could be test of capability of applicable units involved in UFO sightings.
- 3. Pertinent data to assist investigations:
- a. Object of undeterminate shape, brilliant white, size and appearance slightly smaller than pencil.

brilliant white streak. No apparent sound.

- b. Location of observor: 37-10 North, 83-12 West, approx. 10 miles South of Hazard, Virginia.
- c. Location of UFO: 36-28 North, 85-52 West, in vicinity of Norris Reservoir, North of Knoxville, Tenn.
- d. UFO observed from T-29 at 12,000 ft. while on 260 legree heading, TAS 205 knots. Destination Randolph Field. Texas.
- e. First observed at 215 degrees Magnetic, elevation 30 degrees.
  - f. Last observed: 215 degrees, elevation 20 degrees.
- g. Object in sight for only 2 to 3 seconds. Was in a straight descending flight path.
- h. Time and date: 1556Z, 22 June 1958, i.e. 0956 hrs EST. Daylight.
- i. Weather data: Determined ceiling and visibility at Knoxville Municipal Airport 2000 scattered, 2300, overcast, 9 miles visibility. Winds, general West-North West from 6000 to 50,000 ft. According to report, Gen. Brandt states he was looking at thunderstorms when UFO observed. Apparently thunderstorm in area of UFO observation.
- j. Preparing officer: Kenneth W. Boothe, 2nd Lt. Intelligence Officer, Sewart AFB, Tenn. who made no

statements or comments re probable cause of sighting.

# JOINT MESSAGEFORM - CO. NUATION SHEET

FROM

COMDR, ATIC

indicates sun approximately at 45 degrees elevation and to the East; object descending to SW, and over large body of water, all conducive to the refraction of light, and specular reflection of sunlight off some aircraft's fuselage in the distance. This well-known type of reflection bathes an aircraft in a brilliant halo of light generally washing out its wing and tail surfaces - giving it a thin, slender, cylindrical appearance. Gen. Brandt's description of a pencil-like appearance and brilliant, white color tentatively supports this.

5. Checks here with appropriate agency do not indicate

any balloons; no reports of any UFOs or anything unusual from radar, AACS, GOC or other units and persons in that area and time. Your checks will probably require military and civil aircraft flight checks for the area. (Par 5g, A-R 200-2) Remote possibility of daytime "bolide" being checked out here, but improbable.

6. Significant to point out that instead of an electrical report being made of incident for expeditious action, incident was reported by routine 112, without copies to interested agencies, and sole report to ATIC. UFO not reported until 12 July 58, all in general non-conformity with AFR 200-2 for immediate reporting and transmission

WARNING: This document contains information affecting the national defendant to the transfer to the second to the

Page 1 of 2 Pages

1. Under the provisions of AFR 200-2, paragraph 15, the following information is submitted.

## a. Description of the Object:

- Shape Undetermined.
- Appeared to be a size slightly smaller than a pencil.
- Brilliant white color,
- One object.
- No discernible details.
- Brilliant white streak with no residual trail remaining.
- No sound.

# b. Description of course of Object:

- (1) Observer was looking at a thunderstorm when he observed object above thunderstorm.
- (2) Angle of elevation was 30 degrees and a relative bearing of 215 degrees magnetic about 50 nautical miles to the South.
- (3) Angle of elevation of about 20 degrees on a relative bearing of 215 degrees magnetic.
  - Flight path was a straight descending line.
  - Instantaneously to the South.
  - Object was visible for 2 to 3 seconds. Observer stated he measured the appearance of the object
- as being two finger widths (at arms length) above the tops of the cumulus cloud. It disappeared about one finger width above cloud. The location was close to Knoxville, Tennessee.

### c. Manner of Observation:

- Air visual.
- (2) No optical aids. (3) T-29, SN:533492, T-29, SN:533492, 12,000 altitude; 260 degree magnetic heading, 205K true air speed, Randolph AFB, Texas.
  - Time and date of Sighting:
    - 1556Z, 22 June 1958. ->1556Z-6= 095: EST

    - (3) Over Daly intersection at 12,000 feet on Victor Airway 140.

#### e. Location of Observer:

Daly intersection on V-140. 83 degrees 12 minutes West; 37 degrees 10 minutes North. Object in vicinity of Knoxville, Tennessee. (83 degrees 52 minutes West, 36 degrees 28 minutes North).

Originating Agency 314th TC Wing (M)

Report No. IR 58-1

Page 2 of 2 Pages

Observer:

Major General &

Vice Commander, ATC,

Completely reliable.

Weather data:

Winds estimated: 6,000 - 320 degrees - 10K 10,000 - 270 degrees - 15K 16,000 - 280 degrees - 35K 200000 - 270 degrees - 40K 30,000 - 270 degrees - 80K 50,000 - 270 degrees - 80K 80,000 - None reported

Ceiling and visibility at Knoxville Municipal Airport 2,000 scattered - 2300 overcast, 9 miles visibility, wind northeast at 15 knots, no thunder storms reported.

h. Other data:

No other data available. Contact Major Cregg P. Nolen, Jr., Operations Division, Randolph AFB, Texas, for further information.

COMMENTS OF Preparing Officer:

None.
