1. Purported object was never seen in the air so would not come under definition of "UFO", although the observer thought the object came from the air.

2. Description of reported object cannot be given because it was below. the surface of the water at all times. The commotion in the water caused by the object was all that was seen.

3. Previous checks indicate restricted area AF-R-81 was not in use on date of sighting and there were no reports of lost armament or aircraft assembly on same date.

4. The observer neither heard nor saw any aircraft activity in the area within a two hour period of the sighting.
